GRAFTON MANOR

Head Injury Rehabilitation Unit

NEW HEAD INJURY REHABILITATION PROGRAMME

Many people can suffer physical, psychological and behavioural problems following head injury. Grafton Manor has been established to provide assessment and treatment programmes for such individuals, particularly those whose behaviour disorder makes them difficult to treat.

Staff at the unit form an experienced and interdisciplinary team which includes nurses, a neuropsychiatrist, occupational therapist, physiotherapist, psychologist and speech therapist.

The rehabilitation programme at Grafton Manor encourages residents to behave in a more socially acceptable manner which will enable them to participate in the wide range of therapies available.

An individual's programme may include physiotherapy, swimming, market gardening and other activities which are designed to develop improved social and occupational skills.

For further details please contact: Ms. Jakki Turnbull, Unit Manager, Grafton Manor, Head Injury Rehabilitation Unit, Grafton Regis, Towcester, Northants., NN12 7SS.

The Retreat, York

for Psychiatric Illnesses

Founded in 1792 by the Quaker, William Tuke, who established the tradition of concern for patients as individuals The Retreat is a 200-bedded private registered nursing home surrounded by extensive grounds on the outskirts of the historic City of York. It is easily reached by rail and motorways.

Care and treatment is offered for all types of psychiatric illness on the short or long term in a sympathetic and friendly atmosphere. Patients suffering from neuroses, psychoses, alcoholism and dementia are treated by the full-time consultant psychiatrists in surroundings suitable for their individual needs. Outpatient facilities are available by appointment with the consultant medical staff.

The Nursing Home is a registered charity and is able to offer inclusive care in shared accommodation from £30.00 per day or in single rooms at slightly increased charge. The Nursing Home is recognised by the main private patient schemes.

For further details apply to The Medical Director, The Retreat, York YO1 5BN (Telephone 0904 412551).

THE ROYAL COLLEGE OF PSYCHIATRISTS

EDUCATION
COMMITTEE

READING LISTS IN PSYCHIATRY

The Royal College of Psychiatrists has been publishing reading lists of papers since 1970, as a service to trainees, but not as a suggested syllabus for any particular course of training or examination. Since 1977 the Sections have been invited to submit specialized lists, prepared by small working parties. Discussion, editing and preparation in this format have been the responsibility of a Library and Reading Lists Sub-Committee of the Education Committee, with representation from all Sections and with trainee membership, the officers being the Chairman, Dr. John Bowlby (who resigned in 1980 after years of the closest attention to the project) and the Secretary, Dr. Andrew C. Smith.

Part I Mental Handicap, Forensic Psychiatry, Social and Community Psychiatry, Psychiatry of Old Age. Pp 9.

Part II Addictions, Child and Adolescent Psychiatry. Pp 10.

Part III Psychotherapy. Pp 9 (available singly 50p).

Part IV General Reading List. Pp 41.

Part III available singly 50p. Parts I, II and IV sold only as a set with Part III (£2.00 the set including packing and postage).

The Anatomy of Madness

Essays in the history of psychiatry

Volume I People and Ideas

Volume II Institutions and Society

Edited by W. F. BYNUM, ROY PORTER, and MICHAEL SHEPHERD

The Anatomy of Madness brings together a rich and full sample of the best research conducted into the history of British and Continental European madness and psychiatry. The historical span from the Renaissance through to Freud reveals changing attitudes and policies towards madness. Fresh investigations challenge old orthodoxies, whilst a wide geographical spread offers stimulating cross-cultural comparisons.

Volume I 320 pages Hardback 0 422 79430 9 £19.95

Volume II 288 pages Hardback 0 422 79440 6 £19.95

Mental Health Practices in Primary Care Settings

An annotated bibliography

Edited by GREG WILKINSON

This unique annotated bibliography deals with selected English and foreign language publications between 1977 and 1984. The book examines the doctor – or primary care physician – in his influential position as 'gate-keeper' between patient and the formal psychiatric community. It will prove an essential reference and research source to anyone concerned with mental health policy and practice.
