## **Special sales and supplements**

This journal accepts advertising and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplementary material including conference proceedings on behalf of academic and corporate sponsors. Please contact Katy Christomanou at Cambridge University Press for further details (email: [kchristomanou@cambridge.org](mailto:kchristomanou@cambridge.org)).

## **Subscription information**

*Public Health Nutrition* is an international journal published 12 times per year by Cambridge University Press on behalf of the Nutrition Society. The online edition is available at [journals.cambridge.org/PHN](http://journals.cambridge.org/PHN), with free table of contents alert (upon registration).

## **Annual subscription rates**

Volume 16, 2013 (12 issues):  
Internet/print package: £886/\$1700 Americas only/€1420 EU only  
Internet only: £675/\$1280 Americas only/€1420 EU only

**Any supplements** to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

**Claims** for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

**Advertising:** The Nutrition Society is willing to include advertisements in its journals. However, it will retain the right to make decisions on which advertisements are acceptable and

which are not, and will not be obliged to give reasons to prospective advertisers for its decisions. The appearance of an advertisement in the Society's journals does not imply endorsement by the Society. For further details, please contact Cambridge University Press.

**Back volumes** will be available in due course. Please contact Cambridge University Press for further information.

**US POSTMASTERS:** Please send address corrections to  
Public Health Nutrition  
Cambridge University Press  
100 Brook Hill Drive  
West Nyack  
New York 10994-2133  
USA

**Notes for Authors** are available from the publisher at the given address and can be found inside the back cover.

**Offprints:** The author (or main author) of an accepted paper will receive a free PDF of their paper. Additional offprints are available for a fee and must be ordered at proof stage. **No page charges are levied by this journal.**

**Copyright:** As of 1 January 2001 the copyright of all articles submitted to *Public Health Nutrition* are retained by the authors or their institutions. For articles prior to this date permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Editorial Office, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, Hammersmith, London, W6 7NJ, UK.

**Disclaimer:** The information contained herein, including any expression of opinion and any projection or forecast, has been obtained from or is based upon sources believed by us to be reliable, but is not guaranteed as to accuracy or completeness. The information is supplied without obligation and on the understanding that any person who acts upon it or otherwise changes his/her position in reliance thereon does so entirely at his/her own risk. Neither the Society, nor Cambridge University Press accepts responsibility for any trade advertisement included in this publication.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see [www.fsc.org](http://www.fsc.org) for information. Typeset by Macmillan India Limited, Bangalore, India and Printed in Europe by Bell and Bain, Glasgow.

*Public Health Nutrition* is covered in Science Citation Index Expanded (Web of Science), Current Contents, Agriculture, Biology & Environmental Sciences, Current Contents, Clinical Medicine, CAB ABSTRACTS<sup>®</sup>, Global Health, Index Medicus<sup>®</sup> (MEDLINE<sup>®</sup>), EMBASE, Excerpta Medica, BIOSIS<sup>®</sup> Database and CINAHL<sup>®</sup> Database  
*Public Health Nutrition* participates in the following initiatives: HINARI by WHO and AGORA by FAO.

*Public Health Nutrition (PHN)* provides a forum for the presentation of original research findings and high quality reviews of key topics, and for discussion of and debate on of current issues and controversies. It also publishes special issues on major topics of interest. Our field includes research, scholarship, and discussions on public health nutrition, that take a population, health promoting and preventive approach. Papers that do not have this emphasis may be directed to more appropriate journals. Potential contributors are encouraged to read the aims and scope of the journal, and to note and follow the guidelines set out below.

## Content:

- **Original research findings and scientific reviews** are published as full papers usually less than 5000 words, including references.
- **Editorials** express the opinion of the journal, as represented by its central editorial team, on topics judged by them to be important. Editorials, including guest editorials, are usually co-ordinated and developed by the editorial team.
- **Position papers**, including declarations and other statements of policy, may be invited or unsolicited.
- **Invited commentaries and book reviews** are expressions of opinion on a topical subject. These are commissioned by the members of the editorial team.
- **Letters to the Editors** are usually in response to material published in *PHN*. Submissions are sent to the author for comment and, when possible, published together with the author's reply.

**Submission:** PHN operates an online submission and reviewing system (eJournalPress). All manuscripts must be submitted online at <http://phn.msubmit.net/>. If any difficulties are encountered, please contact the Publications Office at [phn@nutsoc.org.uk](mailto:phn@nutsoc.org.uk)

**Refereeing:** Review articles and articles reporting original research are subject to external review by two or more referees who evaluate manuscripts based on their importance, relevance, and originality. Authors are asked to submit names and contact details (including email address) of up to four potential referees. All other contributions (editorials, position papers, invited commentaries, book reviews, and letters to the Editors) undergo an internal review process by at least two members of the editorial team. Invited commentaries and book reviews may also be checked externally as necessary to avoid technical errors and to improve salience.

**Copyright:** At the time of acceptance, authors will be asked to provide a completed copy of the 'Licence to Publish' (in lieu of copyright transfer), available at <https://www.nutritionociety.org/>. It is the author's responsibility to obtain written permission to reproduce any material (including text and figures) that has appeared in another publication.

**Preparation of manuscripts:** Please refer to the full Directions to Contributors on our website (<http://www.nutritionociety.org>). Manuscripts should be in clear and concise English, and spelling should follow the Oxford English Dictionary. For authors whose native tongue is not English, in-house editorial attention to their contributions will improve clarity. On acceptance, all contributions are subject to editorial amendment to conform to house style. Manuscripts should be prepared in a common word processing package (Word for Windows is preferred) in Times New Roman or other common typeface, prepared with double-spaced text, at least 2 cm margins, and page and line numbers. Standard abbreviations and SI units must be used.

## Disclosure of financial support and any competing

**interests.** The submission must include a statement within an Acknowledgements section reporting any competing interests, all sources of funding, and the nature of the contribution of each author to the manuscript. If there are no competing interests, this must be stated. Authors are asked to provide this information during the submission process and should not include it as part of the manuscript to allow for double-blind reviewing.

## Arrangement of papers:

1. **Title page** should include the article title, author(s), affiliation(s), up to eight keywords, one author identified for correspondence (with full postal address, telephone and fax numbers, and email address), and a running title of up to 45 characters. The title page should be submitted online as a separate cover letter, not as part of the manuscript, to enable double-blind reviewing.
2. **Abstract** should be structured, usually using the following internal headings: Objective, Design, Setting, Subjects, Results, Conclusions. Abstracts should be intelligible without reference to text or figures and should not exceed 250 words.
3. **Text** should be divided under headings (typically to include Introduction, Methods, Results, Discussion and Conclusions), and sub-headings as appropriate. Conclusions should include recommendations that derive from the research and that are concrete, feasible, and potentially effective. Emphasising that more research is needed is usually not necessary unless there is specific reason to say so. All submissions must include a statement that the research was conducted in accordance with guidelines laid down by the Declaration of Helsinki and approved by an ethics review committee.
4. **Acknowledgements** (sources of funding, competing interests declaration, authorship responsibilities, acknowledgements) should be provided during the submission process, not as part of the manuscript.
5. **References** should be in Vancouver style. Please refer to the full Directions to Contributors.
6. **Tables** should be reduced to the simplest form and should not be used where text or figures give the same information. Each table must be accompanied by a clear and concise caption that is comprehensible without reference to the text. Longer tables may be published online only.
7. **Figures** should be numbered, and legends should be provided. Each figure, with its legend, should be comprehensible without reference to the text and include definitions of abbreviations.

**Proofs:** Correspondence and proofs for correction will be emailed to the first named author unless otherwise indicated. The author will receive a PDF proof for checking. It is important that proofs be returned promptly. Authors may be charged for any alterations in excess of 10% of original setting.

**Offprints:** The corresponding author will receive a PDF of the published paper free of charge. Offprints are available to purchase and must be ordered before publication.

**Editorial**

The nutrition transition: the same, but different  
A Nazmi and C Monteiro 571

**HOT TOPIC – The nutrition transition**

Global patterns in overweight among children and mothers in less developed countries  
J Van Hook, CE Altman and KS Balistreri 573

Prevalence and determinants of the metabolic syndrome among Tunisian adults: results of the Transition and Health Impact in North Africa (TAHINA) project  
H Belfki, SB Ali, H Aounallah-Skhiri, P Traissac, S Bougateg, B Maire, F Delpeuch, N Achour and H Ben Romdhane 582

Overnutrition and associated factors among adults aged 20 years and above in fishing communities in the urban Cape Coast Metropolis, Ghana  
KKA Pereko, J Setorgio, WB Owusu, JM Tiweh and EK Achampong 591

Evidence for nutrition transition in Kuwait: over-consumption of macronutrients and obesity  
S Zaghoul, SN Al-Hooti, N Al-Hamad, S Al-Zenki, H Alomirah, I Alayan, H Al-Attar, A Al-Othman, E Al-Shami, M Al-Somaie and RT Jackson 596

Evolving food retail environments in Thailand and implications for the health and nutrition transition  
C Banwell, J Dixon, S-A Seubsman, S Pangsap, M Kelly and A Sleigh 608

**Monitoring and surveillance**

Diet and physical activity in pre-school children: a pilot project for surveillance in three regions of Italy  
C Carletti, A Macaluso, P Pani, M Caroli, M Giacchi, M Montico and A Cattaneo, on behalf of the Project Group 616

Association between WHO cut-offs for childhood overweight and obesity and cardiometabolic risk  
M de Onis, C Martínez-Costa, F Núñez, G Nguefack-Tsague, A Montal and J Brines 625

**Assessment and methodology**

Exploring dietary patterns, obesity and sources of bias: the Västerbotten Intervention Programme (VIP)  
M Nyholm, L Lissner, A Hörnell, I Johansson, G Hallmans, L Weinehall and A Winkvist 631

Proposal for a Breakfast Quality Index (BQI) for children and adolescents  
C Monteagudo, A Palacin-Arce, M del Mar Bibiloni, A Pons, JA Tur, F Olea-Serrano and M Mariscal-Arcas 639

Relative validity of a 3 d estimated food record in German toddlers  
G Cheng, A Hilbig, C Drossard, U Alexy and M Kersting 645

**Epidemiology**

Food consumption of Sri Lankan adults: an appraisal of serving characteristics  
R Jayawardena, NM Byrne, MJ Soares, P Katulanda and AP Hills 653

Determinants of suboptimal breast-feeding practices in Pakistan  
T Hazir, D-S Akram, YB Nisar, N Kazmi, KE Agho, S Abbasi, AM Khan and MJ Dibley 659

Does tracking of dietary behaviours differ by parental education in children during the transition into adolescence?  
TH Totland, MK Gebremariam, N Lien, M Bjelland, M Grydeland, IH Bergh, K-I Klepp and LF Andersen 673

A healthy trend: less food used in fundraising and as rewards and incentives in Minnesota middle and high schools  
MY Kubik, K Farbaksh and LA Lytle 683

**Nutrition and health**

Vitamin D status in Chinese pregnant women and their newborns in Beijing and their relationships to birth size  
SJ Song, S Si, J Liu, X Chen, L Zhou, G Jia, G Liu, Y Niu, J Wu, W Zhang and Zhang 687

Investigation into longitudinal dietary behaviours and household socio-economic indicators and their association with BMI Z-score and fat mass in South African adolescents: the Birth to Twenty (Bt20) cohort  
AB Feeley, E Musenge, JM Pettifor and SA Norris 693

Alcohol consumption and bone mineral density in elderly women  
I Sommer, AT Erkkilä, R Järvinen, J Mursu, J Sirola, JS Jurvelin, H Kröger and M Tuppurainen 704

**Interventions**

A school-based supplementary food programme in rural Kenya did not reduce children's intake at home  
CA Gewa, SP Murphy, RE Weiss and CG Neumann 713

Development of a nutrient-dense food supplement for HIV-infected women in rural Kenya using qualitative and quantitative research methods  
SY Hong, KM Hendricks, C Wanke, G Omosa, S Patta, B Mwero, I Mjomba, J Queenan and M Mwamburi 721

**Marketing and communication**

Patients' evaluation of hospital foodservice quality in Italy: what do patients really value?  
G Messina, R Fenucci, F Vencia, F Niccolini, C Quercioli and N Nante 730

The use of sports references in marketing of food and beverage products in supermarkets  
MA Bragg, PJ Liu, CA Roberto, V Sarda, JL Harris and KD Brownell 738

Whole grains and health: attitudes to whole grains against a prevailing background of increased marketing and promotion  
E McMackin, M Dean, JV Woodside and MC McKinley 743

**Special groups**

Food insecurity and household eating patterns among vulnerable American-Indian families: associations with caregiver and food consumption characteristics  
B Mullany, N Neault, D Tsingine, J Powers, V Lovato, L Clitso, S Massey, A Talgo, K Speakman and A Barlow 752
