

Contents of No. 272, December 1965

| | |
|--|----------|
| R. A. BINNS: The mineralogy of metamorphosed basic rocks from the Willyama Complex, Broken Hill district, New South Wales | page 561 |
| A. J. PERROTA and J. V. SMITH: The crystal structure of kalsilite, $KAlSiO_4$ | 588 |
| C. M. B. HENDERSON: Minor element chemistry of leucite and pseudoleucite | 596 |
| J. B. WRIGHT and J. F. LOVERING: Electron-probe micro-analysis of the iron-titanium oxides in some New Zealand ironsands | 604 |
| J. B. ALEXANDER and B. H. FLINTER: A note on varlamoffite and associated minerals from the Batang Padang district, Perak, Malaya, Malaysia | 622 |
| A. HALL: The origin of accessory garnet in the Donegal Granite | 628 |
| D. R. DASGUPTA: The transformation of ankerite during thermal treatment | 634 |
| M. J. FROST: Kamacite plate width estimation in octahedrites | 640 |
| BIBHUTI MUKHERJEE: Crystallography of psilomelane, $A_3X_6Mn_8O_{16}$ | 643 |
| HEDLEY G. WRIGHT: The petrographic use of the spindle stage and focal-plane screening in the determination of the optical variation of some zoned minerals | 656 |
| B. E. LEAKE and F. C. PHILLIPS: Triplite from Rhodesia | 661 |
| M. N. BALASUBRAHMANYAN: Note on kornerupine from Ellamankovilpatti, Madras, India | 662 |
| K. C. CHANDY: An occurrence of wüstite | 664 |
| K. C. CHANDY: Thermal transformation of β -ferric oxyhydroxide | 666 |
| F. A. SHAMS: An occurrence of kyanite pseudomorphs after andalusite from Amb state, West Pakistan | 669 |
| Book reviews | 671 |
