Nagoya Mathematical Journal is the official journal of the Graduate School of Mathematics, Nagoya University, designed solely for the publication of research papers. However, invited papers and other original papers in mathematics from all over the world are also regularly published in Nagoya Mathematical Journal. Currently, 4 volumes are published each year.

All manuscripts should be typewritten in English, French, or German. Papers should be prepared using $\text{T}_{\text{E}}\text{X}$ if possible, but only the printed hard copy should be submitted (2 copies). Authors submitting old-fashioned typescript are requested to clearly distinguish special symbols and letters such as bold-face, script, German and Greek letters. The editors may request the original $\text{T}_{\text{E}}\text{X}$ files of papers accepted for publication. The journal's $\text{L}^{\text{A}}\text{T}_{\text{E}}\text{X}$ style file and its manual can be obtained from the following URL.

<http://www.math.nagoya-u.ac.jp/nmj/index.html>

Papers should include

- (a) a short abstract of the contents,
- (b) classification numbers at the foot of page 1 according to the 1991 Mathematics Subject Classification, to be found in the 1990 Annual Index of *Mathematical Reviews*,
- (c) the author's coordinates, including e-mail address and Fax numbers,
- (d) for papers with long titles, the author's choice of running head (not longer than 40 characters).

As soon as we receive a manuscript, a receipt will be sent to the author. When a manuscript has been sent to a referee, the author will receive another notice. These receipts and notices, however, do not mean anything regarding the acceptability of the paper for publication. If the editorial committee has decided to accept a paper, the author will receive a notice containing the number of the volume in which the paper will appear.

Authors submitting a joint paper must provide instructions as to which author is responsible for proof-reading (only one set of proofs will be provided). Each author, as well as each co-author will have 100 reprints.

The manuscript and general correspondence should be addressed to: Managing editor, Nagoya Mathematical Journal, Graduate School of Mathematics, Nagoya University, Chikusa-ku, Nagoya, 464-8602, Japan.

CONTENTS

Lutz, D.A., Miyake, M. and Schäfke, R.: On the Borel summability of divergent solutions of the heat equation	1
Qiu, S.-L. and Vuorinen, M.: Landen inequalities for hypergeometric functions	31
Coupet, B., Pan, Y. and Sukhov, A.: On proper holomorphic mappings from domains with \mathbf{T} -action	57
Yoshioka, K.: Some notes on the moduli of stable sheaves on elliptic surfaces	73
Yu, S.-X.: Some properties of isolating blocks for planar systems	103
Aprodu, M. and Brînzănescu, V.: Moduli spaces of vector bundles over ruled surfaces	111
Hanamura, M. and Yoshida, M.: Hodge structure on twisted cohomologies and twisted Riemann inequalities I	123
Laurent-Thiébaud, C. and Leiterer, J.: Some applications of Serre duality in CR manifolds	141
Yin, H. and Qiu, Q.: The blowup of solutions for 3-D axisymmetric compressible Euler equations	157
Szőke, R.: Adapted complex structures and geometric quantization	171
Catanese, F., Franciosi, M., Hulek, K. and Reid, M.: Embeddings of curves and surfaces	185
