

## Contents

|  |     |
|--|-----|
| Denjoy subsystems and horseshoes   | 1   |
| MARIE-CLAUDE ARNAUD  |     |
| Impact Hamiltonian systems and polygonal billiards                                       | 29  |
| L. BECKER, S. ELLIOTT, B. FIRESTER, S. GONEN COHEN,<br>MICHAL PNUELI AND VERED ROM-KEDAR |     |
| Some remarks on the classical KAM theorem, following Pöschel                             | 67  |
| ABED BOUNEMOURA  |     |
| Some recent developments in Arnold diffusion   | 75  |
| CHONG-QING CHENG AND JINXIN XUE  |     |
| Viscosity solutions of the Hamilton–Jacobi equation on a noncompact manifold             | 111 |
| ALBERT FATHI   |     |
| Holonomy and vortex structures in quantum hydrodynamics                                  | 173 |
| MICHAEL S. FOSKETT AND CESARE TRONCI   |     |
| Surfaces of locally minimal flux   | 215 |
| ROBERT S. MACKAY   |     |
| A symplectic approach to Arnold diffusion problems                                       | 229 |
| JEAN-PIERRE MARCO  |     |
| Hamiltonian ODE, homogenization, and symplectic topology                                 | 297 |
| FRAYDOUN REZAKHANLOU   |     |
