STUDIES IN THE HISTORY OF MODERN SCIENCE 1

This book is a study of the attempt of Karl Vogt, Jacob Moleschott and Ludwig Büchner to defend materialism on the basis of the explosion of scientific activity in Germany during the second half of the nineteenth century. Their writings were more responsible for shaping public understanding of science and its significance in that period than any other single factor. Special attention is given to the affects of the movement on the popular understanding of science, philosophy, and religion in Germany.

SOCIOLOGY OF SCIENCES 2

The relations between science and technology are changing, and the preconceptions developed about them a century ago tend to become ideological today.

The unprecedented mutual impact between both types of research – the quick transformation of a scientific field of research into one of technology and vice versa – reveal a new configuration both of the intellectual processes and the social organisation of science and technology.

This volume is designed to stimulate new discussion among historians and sociologists of science and technology, economic and social historians as well as philosophers of science aiming at a more appropriate understanding of the scientific and technological changes taking place.

## D. Reidel Publishing Company

P. O. Box 17, 3300 AA Dordrecht, Holland

Lincoln Building, 160 Old Derby Street, Hingham, Mass. 02043, U.S.A.

# The British Society for the History of Science

THE object of the Society is to further the study of the history of science by holding meetings for the reading and discussion of papers and by facilitating the publication of relevant material. *The British Journal for the History of Science* is published by the Society as its official organ.

There will normally be a summer meeting, a winter meeting, and an Easter meeting of the Society. Additional meetings are arranged for specific occasions such as important anniversaries.

Membership, which includes a subscription to *The British Journal for the History of Science*, is open to all persons approved by the Council of the Society and elected at an ordinary meeting. The annual subscription is £7.00 (US \$21.00 in the Americas and Japan) or, for Students, £3.00 (\$9.00).

**Membership:** Applications for membership should be made on a form that is available from The Administrator, The British Society for the History of Science, Halfpenny Furze, Mill Lane, Chalfont St Giles, Bucks. HP8 4NR.

## THE BRITISH JOURNAL FOR THE HISTORY OF SCIENCE

THE *Journal* is published three times a year, in March, July, and November, and the three parts published in any one year constitute a volume.

**Editorial matters:** Papers for inclusion in the *Journal* should be submitted to the Hon. Editor, Dr N. W. Fisher, Department of History and Philosophy of Science, King's College, Aberdeen AB9 2UB, from whom instructions may be obtained concerning the presentation and documentation of papers. All communications on editorial matters, and books for review, should be addressed to the Hon. Editor.

**Advertising:** Particulars about advertising in the *Journal* may be obtained from The Administrator, The British Society for the History of Science, Halfpenny Furze, Mill Lane, Chalfont St Giles, Bucks. HP8 4NR.

**Orders and back issues:** Orders for the *Journal* and inquiries about back issues should be addressed to The Administrator, The British Society for the History of Science, Halfpenny Furze, Mill Lane, Chalfont St Giles, Bucks. HP8 4NR. Claims for missing copies should be made within six months of publication. The annual subscription for non-members is £10.00 (\$30.00).
