New from

ILLINOIS

Alternative Dispute Resolution

Melting the Lances and Dismounting the Steeds

Thomas E. Carbonneau

Outlines the legal and historical bases of the four principal systems of law dominant in the world today and then examines how each system attempts to provide a framework for dispute resolution. \$34.95

Social Justice Reconsidered

The Problem of Appropriate Precision in a Theory of Justice

David Mapel

Examines the major theories of social justice, starting with Rawls's, and assesses their underlying assumptions about the degree of precision it is appropriate to expect from philosophical discourse. Argues that most recent theorists have failed to understand the practical limitations of political philosophy. \$24.95

The Appeal of Civil Law

A Political-Economic Analysis of Litigation

Wayne V. McIntosh

"The book grapples with an issue that is noted often, but seldom studied systematically: the relationship between social and economic development and litigation. The treatment here is thoughtful and illuminating." — Doris Marie Provine, Syracuse University. \$26.95

Information and Democratic Processes

Edited by John Ferejohn and James Kuklinski

"A masterpiece of originality and insight destined to have great impact upon many areas of political science. It will be read, cited, and used in classrooms everywhere." — Gregory B. Markus, University of Michigan. Cloth, \$37.50; paper, \$15.95

Evolutionary Jurisprudence

Prospects and Limitations on the Use of Modern Darwinism throughout the Legal Process

John H. Beckstrom

"Beckstrom makes a long-overdue case for a biologically informed jurisprudence. The Law always makes implicit assumptions about human nature. Now Beckstrom pleads for a legal system that explicitly incorporates modern human biology. I can only hope lawyers will take notice." — Pierre L. van den Berghe, author of *The Ethnic Phenomenon*. \$24.95

To Chain the Dog of War

The War Power of Congress in History and Law

SECOND EDITION

Francis D. Wormuth and Edwin B. Firmage

This new edition contains new chapters on covert war and the relationship between law and the control of violence, and the Iran/Contra affair, the invasion of Grenada, and on the current situation in Nicaragua, the Persian Gulf, and El Salvador. "An exceptionally well documented legal analysis of the war powers of the three branches of the federal government. It is a valuable resource as well as an intriguing book." — *International Law and Politics*. \$39.95; paper, \$14.95
