

## CONTENTS.

	PAGE
<i>On the connexion of a certain identity with the extension of conical order to <math>n</math> dimensions.</i> By ALFRED A. ROBB, Sc.D., F.R.S., Emmanuel College . . . . .	357
<i>Note on Kühne's theorem.</i> By Mr H. LOB, King's College . . . . .	375
<i>On questions of reality for twisted quartics of the first kind.</i> By PATRICK DU VAL, Trinity College. (Communicated by Professor H. F. BAKER.) (With Twenty-three Text-figures) . . . . .	379
<i>On the periods of a free-free bar immersed in water.</i> By Mr E. B. MOULLIN, Downing College, and Mr A. D. BROWNE, Queens' College. (With Plates II and III and Five Text-figures) . . . . .	400
<i>The electron in a gravitational field.</i> By J. M. WHITTAKER, B.A., Trinity College . . . . .	414
<i>The influence of different nuclei on the absorption spectra of organic compounds.</i> By Mr J. E. PURVIS, Corpus Christi College. (With Three Text-figures). . . . .	421
<i>The wave mechanics of an atom with a non-Coulomb central field. Part III. Term values and intensities in series in optical spectra.</i> By D. R. HARTREE, Ph.D., Christ's College . . . . .	426
<i>A suggested theory of electric conduction.</i> By W. H. McCREA, B.A., Trinity College . . . . .	438
<i>Note on Pauli's exclusion principle.</i> By H. D. URSELL, B.A., Trinity College . . . . .	445
<i>The motion of a particle in a periodic field of force.</i> By S. L. MALURKAR, Sidney Sussex College, and J. HARGREAVES, B.A., Clare College . . . . .	447
<i>The effects produced by positive ion bombardment of solids: metallic ions.</i> By M. L. OLIPHANT, Trinity College, 1851 Exhibition Research Student. (Communicated by Prof. Sir E. RUTHERFORD.) (With Ten Text-figures) . . . . .	451
