(tel.) 713 792 5140

Aims and Scope: *The International Journal of Technology Assessment in Health Care* has as its specific scope of interest the generation, evaluation, diffusion, and use of health care technology. It addresses the diverse audience of health care providers within medicine, nursing, and the allied health professions; decision makers in government, industry, and health care organizations; and the scholarly disciplines such as ethics, economics, law, history, sociology, psychology, and engineering. The journal aims to fill the needs of those interested in the complexities of interaction between people and technology; technology as a force in social and organizational change; and technology as it is created, produced, applied, and paid for. It examines descriptively and analytically the effects of technology as perceived from the vantage point of different academic disciplines and policy-making organizations and examines methods necessary to conduct studies and evaluations of technology.

The focus of the journal will be the international health care community. The experience of different countries in their encounter with health care technology, viewed comparatively, is invaluable to understanding its effects. Further, it is important to establish ties with the scholars, governments, and private institutions concerned with health care technology so that the experiences and learning of the international community in its parts can benefit the whole. The use of technology in health care has created some of the major dilemmas in society today. The journal will serve as a forum for the wide range of professionals interested in the assessment of medical technology, its consequences for patients, and its impact on society.

Membership in the International Society for Technology Assessment in Health Care:

Members receive the journal at individual rates and can participate in the Society's activities, including the annual meeting. Individual dues for 1988, including the journal, are US \$55.00, payable to Cambridge.

Publishing, Production, and Advertising

Offices: Cambridge University Press, 32 East 57 Street, New York, N.Y. 10022, U.S.A.

Subscription Offices: Cambridge University Press, 510 North Avenue, New Rochelle, N.Y. 10801, U.S.A. (for U.S.A. and Canada); or Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 2RU, England (for U.K. and rest of world).

1988 Subscription Information: *International Journal of Technology Assessment in Health Care* (ISSN 0266-4623) is published quarterly. Annual institutional subscription rates for Volume 4 (1988): US \$85.00 in the U.S.A. and Canada; UK £46.00 in the U.K. and Eire; UK £50.00 elsewhere. Individual rates: US \$40.00 in the U.S.A. and Canada, UK £22.00 elsewhere. Prices include postage and insurance; air mail or registered mail is extra. Back volume prices are available upon request.
