

DANIEL ELIE ANDERSON, M.D. (Paris), M.D. (Lond.), (Trop. Med.), B.A., B.Sc., was Honeyman-Gillespie Scholar and Lecturer in Tropical Medicine to Missionary Students at Mansfield College, Oxford, and King's College, London, and held the following posts—Superintendent, McCall Medical Mission, Paris; Physician, British Hospital, Paris. In 1912–13 he went on a Scientific Expedition to South America and the West Indies. He was the author of *Étude sur les Variations de Température chez les Opérés et les Blessés et leur Causes* (Paris, 1885), "Epidemics of Mauritius," "Notes on Tropical Diseases," "Dangers to Health on Board Passenger Steamers," *Journ. Trop. Medicine*, 1897.

Dr Anderson was elected a Fellow of the Society in 1906, and died at Mentone on 22nd January 1928.

ALEXANDER EDINGTON, M.D. (Edin.), D.T.M. and H., was born in Edinburgh, and educated at George Watson's College and Edinburgh University. He was Assistant Professor of Surgery to John Chiene, and was later appointed Professor of Comparative Pathology in the Veterinary College, Edinburgh. In 1891 he went to South Africa as Colonial Bacteriologist to the Cape Government, and in 1894 undertook the additional duties of P.M.O. for the same Government. He was President of the first Medical Congress in South Africa and first editor of the *South African Medical Journal*. In the Boer War he raised and trained an Ambulance Corps at Grahamstown, and also served with distinction on active service in East Africa in the Great War, where he became Officer Commanding the S.A. General Hospital, and senior M.O., at Dar-es-Salaam. He was later, and for several years, Medical Superintendent of Gray's Hospital, Pietermaritzburg, and at the time of his death was practising at Greytown, where he was Medical Officer of Health. He was the author of "New Variety of Trypanosomiasis on the Island of Zanzibar," *Proc. Roy. Soc.*, 1908, and "Spanish Influenza: its Nature and Ætiology," *Lancet*, 1919, and of other papers in *Proc. R.S.E.*, etc.

Dr Edington was elected a Fellow of the Society in 1893, and died at Greytown, Natal, on 14th July 1928, aged 68.

ROBERT WILLIAM FELKIN, M.D. (Marburg), L.R.C.P., L.R.C.S. (Edin.), was formerly Lecturer on Diseases of the Tropics and Climatology in the New School, Edinburgh. He was the author of "Geographical Distribution of Tropical Diseases" (Edin. 1895), "Climate of the Egyptian Soudan," *Balneol. and Climat. Journal*, 1899, etc. He also contributed

several papers to the *Proc. R.S.E.* (1886, 1890, 1893) and to other Scientific Journals.

Dr Felkin was elected a Fellow of the Society in 1883, and died on 28th December 1926, at Havelock North, New Zealand.

SIR DAVID FERRIER, F.R.S., Emeritus Professor of Neuro-Pathology in King's College, London, was born near Aberdeen on 13th January 1843, and died in London on 19th March 1928. He was elected an Honorary Fellow of the Society in 1900. (For details of his life and work, see *Proc. R.S.L.*, Ser. B, vol. ciii, pp. 8-16, and *Nature*, vol. cxxi, 1928, pp. 718-19.)

HENDRIK ANTOON LORENTZ, For. Mem. R.S., for many years Professor of Theoretical Physics at the University of Leyden, was born at Arnhem, Holland, on 18th July 1853, and died on 4th February 1928. He was elected a Foreign Honorary Fellow of the Society in 1920. (For details of his life and work, see *Proc. R.S.L.*, vol. cxxi, Ser. A, pp. 20-28, and *Nature*, 6th January 1923, and vol. cxxi, pp. 287-91, 1928.)

ALEXANDER CAMERON MILLER M.D. (Edin.), J.P., Lt.-Col. R.A.M.C., T.D., held the following among other appointments—Consulting Physician, Inverness-shire Sanatorium; Surgeon, Belford Hospital, Fort William; Member, Highlands and Islands Consulting Council, Scottish Board of Health; M.O.H., Ardgour and Kingairloch, Fort William Burgh and Kilmallie District; Chief Medical Officer, Lochaber Hydro-Electric Scheme; late President, Caledonian Medical Society. He was the author of medical papers in the *Carnegie Report*, 1917 (Scot.)—on “Maternity and Child Welfare in a Highland District”; and in the *Caledon. Med. Journ.*, 1895; and of “Insanity and the Neuroses” and “Points of Contact between the Domain of Education and that of Hygiene.” Deeply versed in the folklore, history, and romance of the Highlands, he was a frequent contributor to Celtic publications. Dr Miller was elected a Fellow of the Society in 1908, and died at Craig-Linnhe, Fort William, on 31st December 1927.

THEODORE W. RICHARDS, For. Mem. R.S., Professor of Chemistry at Harvard University since 1901, and Director of the Gibbs Memorial Laboratory since 1912, a distinguished authority on atomic weights, died on 2nd April 1928, aged sixty years. He was elected a Foreign Honorary Fellow of the Society in 1923. (For details of his life and work, see *Proc. R.S.L.*, Ser. A, vol. cxxi, pp. 29-34, and *Nature*, vol. cxxii, pp. 28-29, 1928.)
