

BSAP Occasional Publications

- No. 1 (1978) The Use of Blood Metabolites in Animal Production.
- No. 2 (1980) The Mechanization and Automation of Cattle Production.
- No. 3 (1980) By-Products and Wastes in Animal Feeding.
- No. 4 (1981) Intensive Animal Production in Developing Countries.
- No. 5 (1981) Computers in Animal Production.
- No. 6 (1982) Forage Protein in Ruminant Animal Production.

CONTENTS

FOREWORD

OSBOURN, D. F.

1. INTERRELATIONSHIPS BETWEEN NITROGEN AND ENERGY METABOLISM IN RUMINANTS
 - 1.1 BUTTERY, P. J. and LEWIS, D. Nitrogen metabolism in the rumen 1
 - 1.2 LINDSAY, D. B. and ARMSTRONG, D. G. Post-ruminal digestion and the utilization of nitrogen 13
2. THE NITROGENOUS CONSTITUENTS OF FRESH AND CONSERVED FORAGES
 - 2.1 MANGAN, J. L. The nitrogenous constituents of fresh forages 25
 - 2.2 McDONALD, P. The effect of conservation processes on the nitrogenous components of forages 41
3. THE NITROGEN SUPPLIED BY AND THE SUPPLEMENTATION OF FRESH AND CONSERVED FORAGES
 - 3.1 THOMSON, D. J. The nitrogen supplied by and the supplementation of fresh or grazed forage 53
 - 3.2 THOMAS, P. C. Utilization of conserved forages 67
4. THE NITROGEN NEEDS OF RUMINANTS AND THE POSSIBLE CONTRIBUTION FROM FORAGES
 - 4.1 MILLER, E. L. The nitrogen needs of ruminants 79
 - 4.2 WEBSTER, A. J. F., SIMMONS, I. P. and KITCHERSIDE, M. A. Forage protein and the performance and health of the dairy cow 89
5. SYSTEMS FOR ASSESSING THE NITROGEN VALUE OF FEEDS FOR RUMINANTS
 - 5.1 SMITH, R. H. The ARC system for assessing the nitrogen value of feeds for ruminants 99
 - 5.2 BLACK, J. L., FAICHNEY, G. J., BEEVER, D. E. and HOWARTH, B. R. Alternative systems for assessing the nitrogen value of feeds for ruminants ... 107
6. THE NEED FOR AND THE VALUE OF PROPOSED SCHEMES IN PRACTICE
 - 6.1 COTTRILL, B. R. The adoption of a protein system in nutritional advisory work 121
 - 6.2 FILMER, D. G. Assessment of protein degradability of forage 129
7. THEATRE PRESENTATIONS I
 - 7.1 CORBETT, J. L., FURNIVAL, E. P., INSKIP, M. W. and PICKERING, F. S. Protein digestion in grazing sheep 141
 - 7.2 LOSADA, H. R., CAMMELL, S. B., BEEVER, D. E. and AUSTIN, A. R. The effect of forage species and stocking rate on protein supply to the duodenum of cattle 144

ISBN 0 906562 06 6

7.3	BARRY, T. N., MANLEY, T. R., DAVIS, S. R. and REDEKOPP, CAROLYN Protein metabolism and responses to abomasal infusion of casein + methionine in growing lambs fed fresh primary growth ryegrass/clover pasture <i>ad libitum</i>	146
7.4	MAYES, R. W. and LAMB, C. S. The effect of supplementary starch and urea on the digestion of a heather-based diet by sheep	149
7.5	FIANU, F. K. and ASSOKU, R. K. G. Urea and poultry manure as protein supplement to low grade grass for sheep in the Accra plains	151
8. THEATRE PRESENTATIONS II		
8.1	LEES, J. A., GARNSWORTHY, P. C. and OLDHAM, J. D. The response of dairy cows in early lactation to supplements of protein given with rations designed to promote different patterns of rumen fermentation	157
8.2	GILL, M., BEEVER, D. E. and THOMSON, D. J. Interactions between protein and energy metabolism in forage-fed calves	160
8.3	OVEREND, M. A. and ARMSTRONG, D. G. The digestion of a wilted silage made with and without an additive	162
8.4	BEEVER, D. E., COTTRILL, B. R. and OSBOURN, D. F. The effect of the quantity and composition of ruminally degraded nitrogen on microbial nitrogen synthesis and diet formulation	164
8.5	SMITH, T., BROSTER, W. H. and SIVITER, J. W. Source of protein supplementation for various forages	166
8.6	HUNTER, E. J., ROWLINSON, P., BRETT, P. and ARMSTRONG, D. G. A comparison of the milk yield and composition of dairy cows fed diets containing either protected or unprotected soya	169
9. POSTER PRESENTATIONS		
9.1	CATTON, R., CHAMBERLAIN, A. G., PAINE, CHRISTINE A. and CRAWSHAW, R. <i>In sacco</i> degradability characteristics of two contrasting grass silages	175
9.2	PAINE, CHRISTINE A., CRAWSHAW, R. and BARBER, W. P. A complete exchange method for the <i>in sacco</i> estimation of rumen degradability on a routine basis	177
9.3	OTTARO, M. J., STEINBACH, J. and MUSANGI, R. S. Seasonal changes in forage protein production on Kenyan grasslands	179
9.4	BUCHANAN-SMITH, J. G. Voluntary intake in ruminants affected by silage extracts and amines in particular	180
9.5	WILSON, R. F. and JORDAN, D. J. Glutaraldehyde as a silage additive: effects on fermentation and protein degradation in the silo	183
9.6	ROOKE, J. A., BROOKES, I. M. and ARMSTRONG, D. G. Grass silages ensiled with either formic acid or a lactobacillus preparation and their digestion by Jersey cattle	185
9.7	AUSTIN, A. R. and GILL, M. Effect of ensiling on the release of soluble carbohydrates and nitrogen during eating and its relationship to intake and nitrogen retention	187
9.8	FIANU, F. K. The role of forbs and shrubs in the nitrogen intake of grazing livestock in the Accra plains	189
CONCLUDING REMARKS		
	ROOK, J. A. F.	193
