Editorial	
Public health nutrition interventions can be simple and effective <i>A Yngve, A Hodge, M Tseng, I Haapala and G McNeill</i>	1321
Biological and behavioural determinants	
Dietary patterns among British adults: compatibility with dietary guidelines for salt/sodium, fat, saturated fat and sugars <i>S Gibson and M Ashwell</i>	1323
Social, economic, political and environmental determinants	
An experimental study on the effects of exposure to magazine advertising on children's food choices <i>SC Jones and L Kervin</i>	1337
The impact of a workplace catering initiative on dietary intakes of salt and other nutrients: a pilot study <i>F Geaney, J Harrington, AP Fitzgerald and IJ Perry</i>	1345
Associations between the perceived presence of vending machines and food and beverage logos in schools and adolescents' diet and weight status <i>LM Minaker, KE Storey, KD Raine, JC Spence, LE Forbes, RC Plotnikoff and LJ McCargar</i>	1350
Interventions	
Improvement of meal composition by vegetable variety <i>T Bucher, K van der Horst and M Siegrist</i>	1357
Targeting physical activity and nutrition interventions towards mothers with young children: a review on components that contribute to attendance and effectiveness <i>MA Hartman, K Hosper and K Stronks</i>	1364
A workplace feasibility study of the effect of a minimal fruit intervention on fruit intake <i>S Alinia, AD Lassen, KS Krogholm, T Christensen, OH Hels and I Tetens</i>	1382
Reduction in sugar-sweetened beverages is not associated with more water or diet drinks <i>J Veitch, A Singh, MM van Stralen, W van Mechelen, J Brug and MJM ChinAPaw</i>	1388
Public policies	
Where has all the chocolate gone? A national survey assesses the effects of recent legislation to improve the nutritional quality of English secondary-school vending <i>A Matthews, M Nelson, A Kaur, M Rayner, P Kelly and G Cowburn</i>	1394
An analysis of the content of food industry pledges on marketing to children <i>C Hawkes and JL Harris</i>	1403
Special groups	
Low prevalence of iron-deficiency anaemia among Inuit preschool children: Nunavut Inuit Child Health Survey, 2007–2008 <i>A Pacey, H Weiler and GM Egeland</i>	1415
Anaemia, lead poisoning and vitamin D deficiency in low-income children: do current screening recommendations match the burden of illness? <i>M Kersey, M Chi and DB Cutts</i>	1424
Capacity building	
They think they know but do they? Misalignment of perceptions of lifestyle modification knowledge among health professionals <i>W Parker, NP Steyn, NS Levitt and CJ Lombard</i>	1429
Consensus on the competencies required for public health nutrition workforce development in Europe – the JobNut project <i>S Jonsdottir, R Hughes, I Thorsdottir and A Yngve</i>	1439

Contents continued on backmatter

Public Health Nutrition (PHN) provides a forum for the presentation of original research findings and high quality reviews of key topics, and for discussion of and debate on of current issues and controversies. It also publishes special issues on major topics of interest. Our field includes research, scholarship, and discussions on public health nutrition, that take a population, health promoting and preventive approach. Papers that do not have this emphasis may be directed to more appropriate journals. Potential contributors are encouraged to read the aims and scope of the journal, and to note and follow the guidelines set out below.

Content:

- **Original research findings and scientific reviews** are published as full papers usually less than 5000 words, including references.
- **Editorials** express the opinion of the journal, as represented by its central editorial team, on topics judged by them to be important. Editorials, including guest editorials, are usually co-ordinated and developed by the editorial team.
- **Position papers**, including declarations and other statements of policy, may be invited or unsolicited.
- **Invited commentaries and book reviews** are expressions of opinion on a topical subject. These are commissioned by the members of the editorial team.
- **Letters to the Editors** are usually in response to material published in *PHN*. Submissions are sent to the author for comment and, when possible, published together with the author's reply.

Submission: PHN operates an online submission and reviewing system (eJournalPress). All manuscripts must be submitted online at <http://phn.msubmit.net/>. If any difficulties are encountered, please contact the Publications Office at phn@nutsoc.org.uk

Refereeing: Review articles and articles reporting original research are subject to external review by two or more referees who evaluate manuscripts based on their importance, relevance, and originality. Authors are asked to submit names and contact details (including email address) of up to four potential referees. All other contributions (editorials, position papers, invited commentaries, book reviews, and letters to the Editors) undergo an internal review process by at least two members of the editorial team. Invited commentaries and book reviews may also be checked externally as necessary to avoid technical errors and to improve salience.

Copyright: At the time of acceptance, authors will be asked to provide a completed copy of the 'Licence to Publish' (in lieu of copyright transfer), available at <https://www.nutritionociety.org/>. It is the author's responsibility to obtain written permission to reproduce any material (including text and figures) that has appeared in another publication.

Preparation of manuscripts: Please refer to the full Directions to Contributors on our website (<http://www.nutritionociety.org>). Manuscripts should be in clear and concise English, and spelling should follow the Oxford English Dictionary. For authors whose native tongue is not English, in-house editorial attention to their contributions will improve clarity. On acceptance, all contributions are subject to editorial amendment to conform to house style. Manuscripts should be prepared in a common word processing package (Word for Windows is preferred) in Times New Roman or other common typeface, prepared with double-spaced text, at least 2 cm margins, and page and line numbers. Standard abbreviations and SI units must be used.

Disclosure of financial support and any competing

interests. The submission must include a statement within an Acknowledgements section reporting any competing interests, all sources of funding, and the nature of the contribution of each author to the manuscript. If there are no competing interests, this must be stated. Authors are asked to provide this information during the submission process and should not include it as part of the manuscript to allow for double-blind reviewing.

Arrangement of papers:

1. **Title page** should include the article title, author(s), affiliation(s), up to eight keywords, one author identified for correspondence (with full postal address, telephone and fax numbers, and email address), and a running title of up to 45 characters. The title page should be submitted online as a separate cover letter, not as part of the manuscript, to enable double-blind reviewing.
2. **Abstract** should be structured, usually using the following internal headings: Objective, Design, Setting, Subjects, Results, Conclusions. Abstracts should be intelligible without reference to text or figures and should not exceed 250 words.
3. **Text** should be divided under headings (typically to include Introduction, Methods, Results, Discussion and Conclusions), and sub-headings as appropriate. Conclusions should include recommendations that derive from the research and that are concrete, feasible, and potentially effective. Emphasising that more research is needed is usually not necessary unless there is specific reason to say so.
4. **Acknowledgements** (sources of funding, competing interests declaration, authorship responsibilities, acknowledgements) should be provided during the submission process, not as part of the manuscript.
5. **References** should be in Vancouver style. Please refer to the full Directions to Contributors.
6. **Tables** should be reduced to the simplest form and should not be used where text or figures give the same information. Each table must be accompanied by a clear and concise caption that is comprehensible without reference to the text. Longer tables may be published online only.
7. **Figures** should be numbered, and legends should be provided. Each figure, with its legend, should be comprehensible without reference to the text and include definitions of abbreviations.

Proofs: Correspondence and proofs for correction will be emailed to the first named author unless otherwise indicated. The author will receive a PDF proof for checking. It is important that proofs be returned promptly. Authors may be charged for any alterations in excess of 10% of original setting.

Offprints: The corresponding author will receive a PDF of the published paper free of charge. Offprints are available to purchase and must be ordered before publication.

Special sales and supplements

This journal accepts advertising and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplementary material including conference proceedings on behalf of academic and corporate sponsors. Please contact Katy Christomanou at Cambridge University Press for further details (email: kchristomanou@cambridge.org).

Subscription information

Public Health Nutrition is an international journal published 12 times per year by Cambridge University Press on behalf of the Nutrition Society. The online edition is available at journals.cambridge.org/PHN, with free table of contents alert (upon registration).

Annual subscription rates

Volume 14, 2011 (12 issues):
Internet/print package: £746/\$1430 Americas only/€1195 EU only
Internet only: £613/\$1160 Americas only/€973 EU only

Any supplements to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

Claims for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

Advertising: The Nutrition Society is willing to include advertisements in its journals. However, it will retain the right to make decisions on which advertisements are acceptable and

which are not, and will not be obliged to give reasons to prospective advertisers for its decisions. The appearance of an advertisement in the Society's journals does not imply endorsement by the Society. For further details, please contact Cambridge University Press.

Back volumes will be available in due course. Please contact Cambridge University Press for further information.
