Rise to the Challenge

For the past fifty years the Department of Veterans Affairs has honored the promise originally made by Abraham Lincoln when he pledged the care and concern of a grateful Nation to America's veterans. What started as a promise has turned into a national health care network that offers a wealth of opportunities for intellectual stimulation and professional advancement.

We invite you to explore the many benefits of a health care career with VA. Benefits like:

- Highly competitive pay
- Generous leave and holidays
- Mobility that comes with a nationwide health care system
- Federal retirement plan similar to 401K

Help keep the promise. For more information about a health care career with VA or to check out the latest job opportunities, visit www.vacareers.com or call 1.800.949.0002.

Fit Test TB Masks the Easy Way!

...with the PORTACOUNT® Plus Respirator Fit Tester
and N95-Companion™ from TSI.

- Quantitatively fit tests any N95 disposable respirator.
- Easy to use...any other way is the hard way!
- Provides confidence in fit test results.
- Replaces subjective and tedious Bitrex and saccharin methods.
- Complies with OSHA's TB guidelines.
- Windows®-based software automates fit tests and maintains records.
- Also fit tests respirators used by hospital maintenance workers.

All The Facts For Your Immunization Program

Immunizing Healthcare Workers: A Practical Approach

Edited by Gregory A. Poland, MD; William Schaffner, MD; Gina Pugliese, RN, MS
300 pp, Hard Cover, 2000, ISBN 1-55642-450-7, Order # 14507, \$109.00

Immunizing Healthcare Workers: A Practical Approach is the first complete resource for dealing with the immunization of healthcare workers. You can find all of the latest information on successfully and safely implementing or updating your immunization program in this landmark book.

Inside you will find that for each of the vaccine-preventable diseases among workers, there is a discussion of disease risks in the healthcare setting, vaccine recommendations, special administration strategies, safety issues, discussion of unresolved issues, and answers to commonly asked questions. There are also case studies of sample programs in specific settings.

This phenomenal book contains the latest recommendations from the US Public Health Service Advisory Committees, Healthcare Infection Control Practices Advisory Committee (HICPAC), and the Advisory Committee on Immunization Practices (ACIP).

Read how the experts overcame obstacles while setting up immunization programs in their healthcare settings. With over 45 contributors to 32 chapters **Immunizing Healthcare Workers: A Practical Approach** is an essential source for the latest information necessary to implement an effective immunization program.

Both textbooks are an official publication of

The Society for Healthcare Epidemiology of America (SHEA).

Some Case Study Topics:

- Immunizing Providers and Staff in Physicians' Offices
- Vaccination of Healthcare Workers in Long-Term Care Facilities for the Elderly
- Immunization of Affiliating Students and Contract Home Healthcare Workers
- Immunization Strategies for Home Healthcare Personnel
- Immunization of Workers with Altered Host Defenses
- Vaccinating Unimmunized and Partially Immunized Workers
- Assessing Immunity and Exposures: Using a Computerized Surveillance System
- Managing Information in an Immunization Program
- The Internet: A Quick Guide to Vaccine & Immunization Information

A Practical Handbook for Hospital Epidemiologists

Edited by: Loreen A. Herwaldt, MD and co-edited by Michael D. Decker, MD, MPH
448 pp, Soft Cover, 1998, ISBN 1-55642-302-0,
Order # 13020, \$65.00

A Practical Handbook for Hospital Epidemiologists is the most complete source for practical advice on hospital epidemiology. It is intended to be a pragmatic guide that will assist both beginning and experienced practitioners in establishing and operating a successful hospital epidemiology program. This handbook will supplement the various scientific references already available for this field and will help hospital epidemiologists improve their practices.
