

STATEMENT OF OWNERSHIP, MANAGEMENT AND CIRCULATION

(Act of August 12, 1970; Section 3685, Title 39, United States Code)

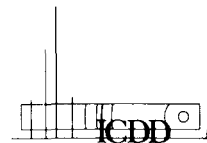

- 1A. Title of Publication: **POWDER DIFFRACTION**
- 1B. Publication No.: 0885-7156
2. Date of Filing: 1 October 1994
- 3A. Frequency of issue: Quarterly (4)
- 3B. Annual Subscription Price: \$95.00
4. Location of known office of publication: 500 Sunnyside Blvd., Woodbury, NY 11797-2999
5. Location of the headquarters or general business office of the publisher: One Physics Ellipse, College Park, MD 20740
6. Names and addresses of publisher, editor, and managing editor:
 Publisher: American Institute of Physics, Inc., One Physics Ellipse, College Park, MD 20740
 Editor: Deane K. Smith, Dept. of Geosciences, Penn State Univ., University Park, PA 16802-2711
 Managing Editor: R. Jenkins, JCPDS-International Centre for Diffraction Data, Newtown Square, PA 19073-3273
7. Owner (If owned by a corporation, its name and address must be stated and also immediately thereunder the names and addresses of stockholders owning or holding 1 percent or more of total amount of stock. If not owned by a corporation, the names and addresses of the individual owners must be given. If owned by a partnership or other unincorporated firm, its name and address, as well as that of each individual, must be given.): JCPDS-International Centre for Diffraction Data, 12 Campus Blvd., Newtown Square, PA 19073-3273
8. Known bondholders, mortgagees, and other security holders owning or holding 1 percent or more of total amount of bonds, mortgages, or other securities: None
10. Extent and nature of circulation:
- | | | |
|--|-------|--------|
| A. Total number of copies printed (net press run) | 1466* | 1255** |
| B. Paid circulation | | |
| 1. Sales through dealers and carriers, street vendors, and counter sales | none | none |
| 2. Mail subscriptions | 877* | 812** |
| C. Total paid circulation | 877* | 812** |
| D. Free distribution by mail, carrier, or other means; samples, complimentary, and other free copies | 85* | 137** |
| E. Total distribution (sum of C and D) | 962* | 949** |
| F. Copies not distributed | | |
| 1. Office use, left over, unaccounted, spoiled after printing | 504* | 306** |
| 2. Returns from News Agents | none | none |
| G. Total (sum of E, F1, and F2—should equal press run shown in A) | 1466* | 1255** |

*Average number of copies of each issue during preceding 12 months.

**Actual number of copies of single issue published nearest to filing date.

I certify that the statements made by me above are correct and complete.

ARTHUR T. BENT, *Treasurer*

Publishing Agreement

1. It is our custom to request authors to vest the worldwide copyright of their papers with the JCPDS—International Centre for Diffraction Data for the full term of copyright and we would be grateful if you would confirm your acceptance of these terms by signing and returning the agreement below. We will not withhold permission for any reasonable request from you to publish any part of this paper in connection with any other work by you, provided the usual acknowledgements are given regarding copyright notice and reference to the original publication.
2. If it is appropriate, the author's employer may sign this agreement, and in any event the employer may reserve the right to use the paper internally or for promotional purposes only, by so indicating on this agreement. It is understood that proprietary rights other than copyright (including patent rights) are reserved.
3. If the author is a U. S. Government employee and this work was done in that capacity the assignment applies only to the extent allowable by U. S. law. If at least one co-author is *not* a government employee, said author should sign the agreement.
4. If the author is an employee of the British Government then HMSO will grant a non-exclusive license to publish this paper in the Journal in any form or media provided British crown copyright and user rights (including patent rights) are reserved.
5. The author warrants that the manuscript is the author's original work, and has not been published before. (If excerpts from copyrighted works are included, the author will obtain written permission from the copyright owners and show credit to the sources in the manuscript.) The author also warrants that the article contains no libelous or unlawful statements, and does not infringe on the rights of others.
6. If the work was prepared jointly the author agrees to inform co-authors of the terms of the agreement, and to sign on their behalf.

With the qualifications listed above I assign to JCPDS—International Centre for Diffraction Data, the copyright of my paper entitled

for publication in *Powder Diffraction*.

_____ Signed

_____ Date

If the paper is rejected, this assignment is null and void.

SEIFERT

X-RAY TUBES

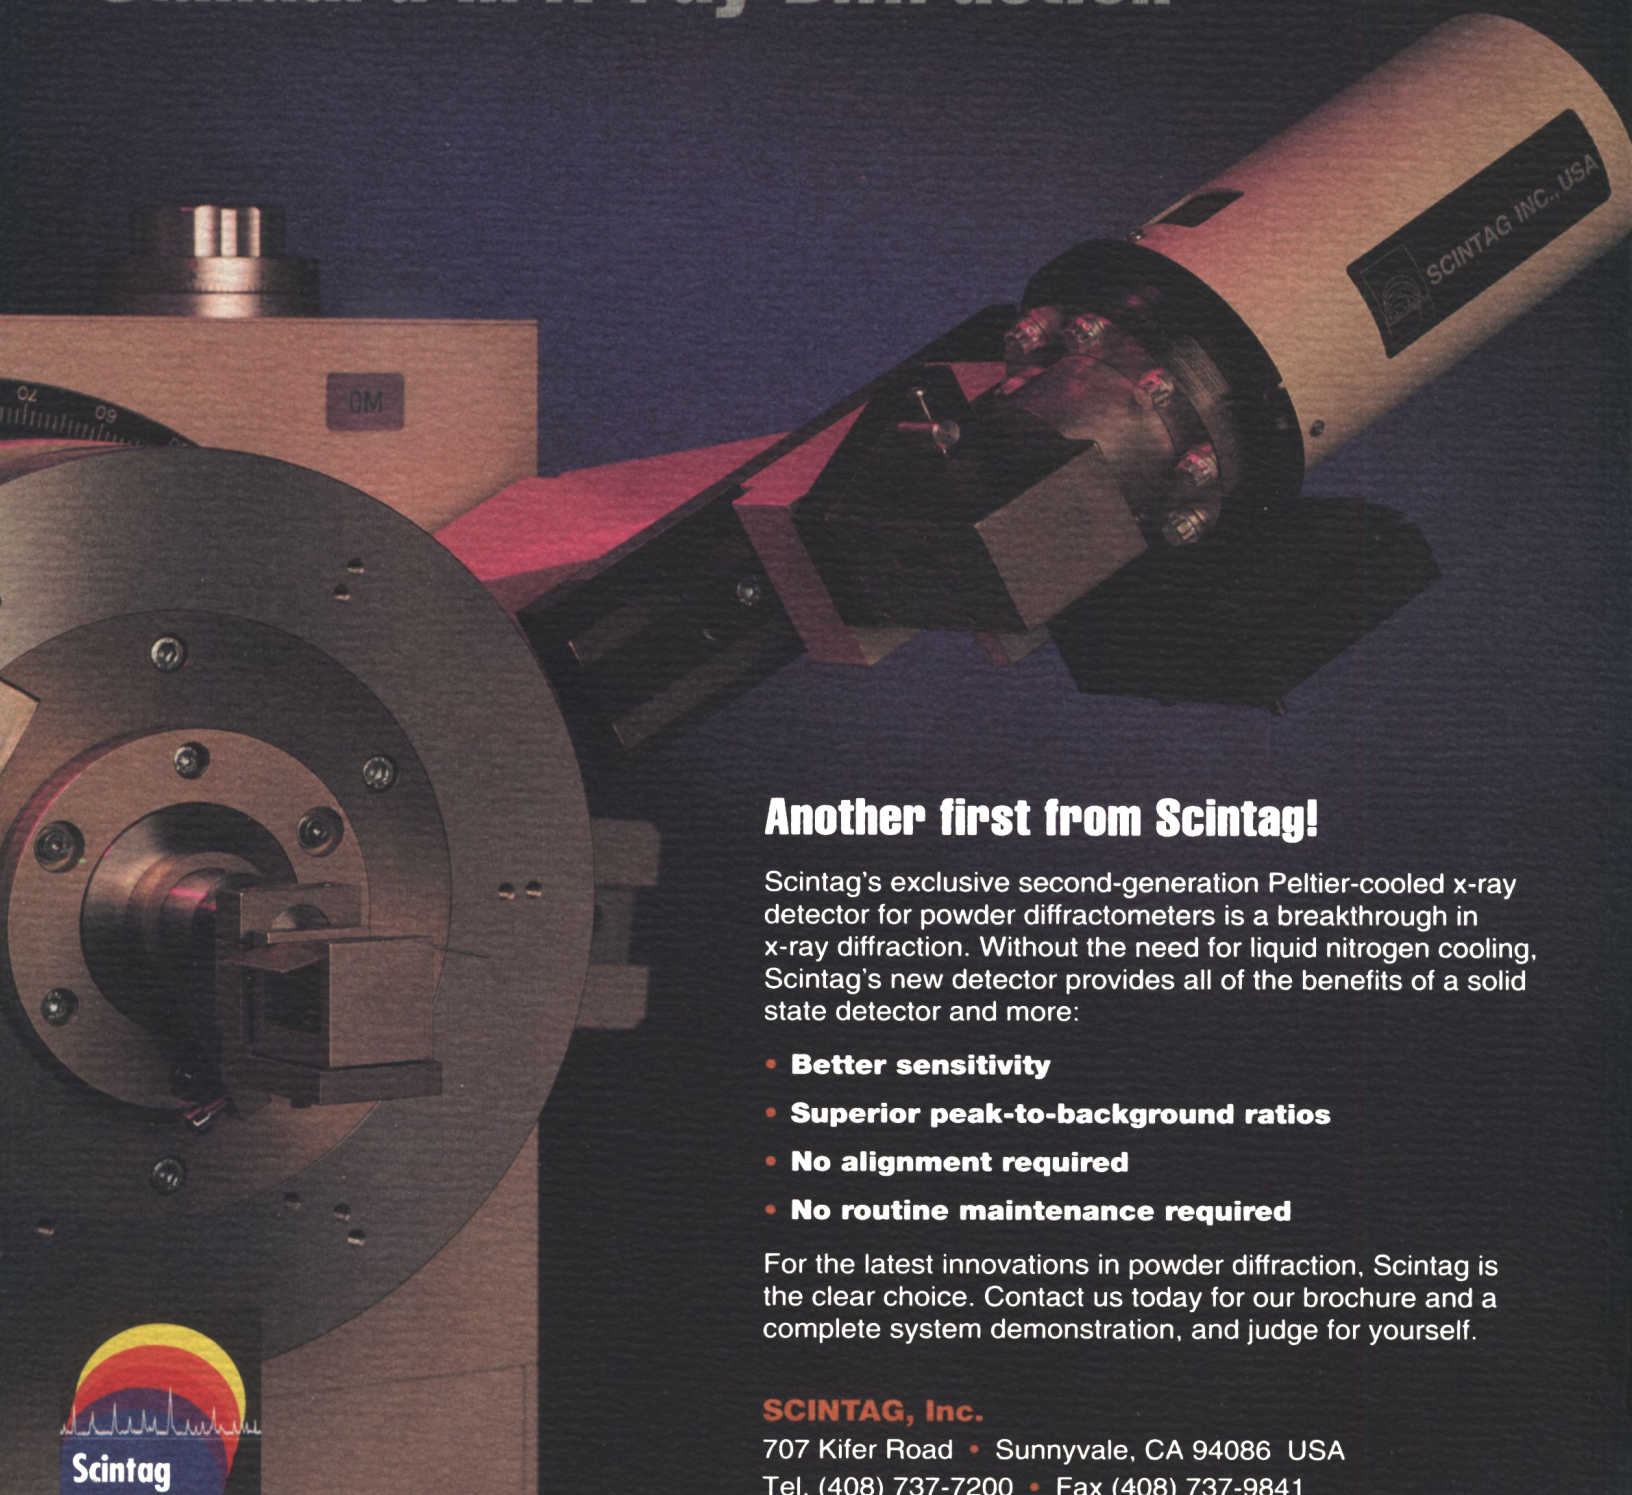

The SEIFERT diffraction X-ray tubes SN 60 with normal focus and SF 60 with fine focus are featured by a high primary intensity at a homogeneous intensity distribution, spectral purity, and a long lifetime.

SEIFERT X-RAY CORPORATION
2551 Industry Lane, P.O. Box 294, Fairview Village, Pennsylvania 19409

The Scintag Peltier X-ray Detector: *The New Industry Standard in X-ray Diffraction*

Another first from Scintag!

Scintag's exclusive second-generation Peltier-cooled x-ray detector for powder diffractometers is a breakthrough in x-ray diffraction. Without the need for liquid nitrogen cooling, Scintag's new detector provides all of the benefits of a solid state detector and more:

- **Better sensitivity**
- **Superior peak-to-background ratios**
- **No alignment required**
- **No routine maintenance required**

For the latest innovations in powder diffraction, Scintag is the clear choice. Contact us today for our brochure and a complete system demonstration, and judge for yourself.
