

CCR 2024: THE 17TH INTERNATIONAL CONFERENCE ON
COMPUTABILITY, COMPLEXITY AND RANDOMNESS

CO-SPONSORED BY THE ASSOCIATION FOR SYMBOLIC LOGIC

Nagoya, Japan
March 11–15, 2024

The 17th International Conference on Computability, Complexity and Randomness (CCR 2024) was held in Nagoya, Japan, on March 11–15, 2024, with the sponsorship of the Association for Symbolic Logic and in cooperation with the Association for Women in Mathematics. The meeting was hosted by the Department of Mathematical Informatics of Nagoya University. Financial support was provided by the National Science Foundation and the Japan Society for the Promotion of Science.

The Program Committee of CCR 2024 consisted of J. Brendle, J. Franklin (Co-Chair), J. L. Goh, T. Kihara (Co-Chair), M. Marchuk, A. Pauly, S. Selivanova, and K. Yokoyama.

There were eight invited talks, which were given by Juan Aguilera (TU Wien), Wesley Calvert (Southern Illinois University), Leonardo Coregiano (The University of Chicago), Makoto Fujiwara (Tokyo University of Science), Liling Ko (The Ohio State University), Russell Miller (Queens College, CUNY), Sewon Park (Kyoto University), and Francesca Zaffora Blando (Carnegie Mellon University). In addition, 18 contributed talks were delivered at the meeting, and an open problem session was held.

There were 40 registered participants. Further information can be found at the website <https://sites.google.com/view/ccr2024/home>.

For the Program Committee
JOHANNA FRANKLIN
