I FASCICOLO  
I ANUARI II 1964

GEDDA L., POGGI D.: Studio della coagulazione normale del sangue nei gemelli, con il metodo tromboelastografico . . . . .	1
SORSBY A.: Hereditary affections of the retina and choroid . . . .	20
EMERIT I., de GROUCHY J., CORONE P., VERNANT P., LAVAL-JEANTET M.: Agénésie sacrococcygienne et syndrome de Bonnevie-Ullrich. Etude génétique et chromosomique . . . . .	69
KUMBNANI H.: The occurrences of symmetrical and asymmetrical terminations of main line D, C, B, and A in Mohammedans of Rajasthan . . . . .	90
GEDDA L.: Tage Kemp (in memoriam) . . . . .	99
Recensioni: FRANCESCHETTI A., FRANÇOIS J., BABEL J.: Les hérédo-dégénérescences chorio-rétiniennes (Dégénérescences tapéto-rétiniennes). RIEGER R.: Die Genommutationen (Ploidiemutationen). VACIRCA F.: La teoria generale della Patologia. SCHWIDETZKY I.: Das Menschenbild der Biologie. Ergebnisse und Probleme der naturwissenschaftlichen Anthropologie. CHIEPPA E.: Paramorfismi (scoliosificosi-lordosi) e tecnica del trattamento . . . . .	101
Libri ricevuti . . . . .	104

## II FASCICOLO

APRILIS 1964

GEDDA L., BRENCI G.: Ricerche sui cromosomi umani mediante il test gemellare (I. Determinazione dell'indice mitotico in coppie MZ e DZ) . . . . .	105
GEDDA L., MILANI-COMPARETTI M.: Are vital twins premature? . . . . .	114
METZEL E.: Betrachtungen zur Genetik der familiären Gliome . . . . .	124
DELLEPIANE M., MACCHIONI B.: Gravidanza plurigemina monocoriale con complesse mostrosità fetali: valutazioni d'ordine genetico e patogenetico . . . . .	133
BHATTACHARYA D. K.: Tasting of P.T.C. among the Anglo-Indians of India . . . . .	159
ANAND SWADESH: Association of ABO blood groups with incidence of renal lithiasis . . . . .	167
DE BARTOLO M.: Incidenza dei fattori M, N, S, s e P in un campione di popolazione romana . . . . .	173
CARDINALI G., CARDINALI G., ENEIN MOSTAFA A.: Runting in the offspring of mice inoculated with homologous or heterologous bone marrow . . . . .	182
MEHROTRA T. N., CARDINALI G.: Study of mouse hemoglobin by starch-gel electrophoresis . . . . .	185
BEIGUELMAN B.: Taste sensitivity to phenylthiourea among patients affected with both tuberculosis and leprosy . . . . .	190
BEIGUELMAN B.: Taste sensitivity to phenylthiourea and leprosy . . . . .	193
BEIGUELMAN B.: Taste sensitivity to phenylthiourea and menstruation . . . . .	197
BEIGUELMAN B., MARQUES M. B.: Taste sensitivity to phenylthiourea and drugs with anti-leprotic effect . . . . .	200
BEOLCHINI P. E.: Ricerche statistiche e genetiche sulle malformazioni congenite . . . . .	203
Recensioni: « Scritti in onore del Prof. Giuseppe Tesauro »; WIENER A. S. e WEXLER I. B.: An Rh-Hr-syllabus . . . . .	216

**III FASCICOLO**  
**I U L I I 1 9 6 4**

GEDDA L., DI RAIMONDO F.: The contribution of the « Clinical Twin Method » to the study of sex anomalies in childhood (Phimosis, hypospadias, cryptorchism, adiposogenital dystrophy, Laurence-Moon-Bardet-Biedl syndrome) . . . . .	217
ROISENBERG I.: Hemophilia B in a pair of monozygotic negro twins	240
RICCI N., CASTOLDI G. L., BORGATTI L., ALBERTI R.: Malformazioni congenite multiple associate ad una doppia anomalia cromosomica: triplo-X e trisomia 17-18 . . . . .	253
VANDENBERG S. G., KELLY L.: Hereditary components in vocational preferences . . . . .	266
SALZANO F. M.: Demographic studies on Indians from Santa Catarina, Brazil . . . . .	278
KAPLAN A. R.: Genetics of relative toe lengths . . . . .	295
DATTA P. K.: The symmetry of the plantar main line formula in an Indian population . . . . .	305
SARGENT S. S.: Gladys C. Schwesinger (in memoriam) . . . . .	313
Recensioni: British Medical Bulletin: Genetics of micro-organism. WOLFF E. DE: Studio clinico di 134 mongoloidi. TORRICELLI C.: Le malformazioni congenite dal punto di vista medico e sociale. RAINER J. D. et al.: Family and mental health problems in a deaf population. ANCONA L.: La psicanalisi. WIENER A. S.: Advances in blood grouping. ROGERS F. B.: Epidemiology and communicable disease control. J. P. BOUCKAERT: Comme naissent les hommes	314

IV FASCICOLO  
OCTOBRIS 1964

GEDDA L.: La complexe contribution du génotype à la prédisposition morbide . . . . .	321
WIENER A. S.: Blood grouping tests in disputed parentage. Qualifications of experts. II. An error involving the rare Rh-Hr blood types Rh <sub>z</sub> Rh <sub>1</sub> and Rh <sub>z</sub> rh . . . . .	340
TORRIOLI M., TORRIOLI-RIGGIO G.: Is human leukemia a somatic mutation of blood-forming cells due to a virus? . . . . .	349
REMELLI L., SERRA A., GUALANDRI V.: Contributo allo studio delle basi genetiche dell'ulcera duodenale . . . . .	369
SPEDINI G.: Le aptoglobine in antropologia. Contributo alla loro conoscenza in Italia . . . . .	388
DATTA P. K.: Methodological notes on the determination of plantar main-line index and transversality . . . . .	400
MACRÌ C.: Su un caso di gozzo normometabolico concordante in gemelle uniovariali . . . . .	406
HAMPE O. G., DA ROCHA F. J.: The iron-binding capacity of thalassaemic individuals . . . . .	418
Recensioni: Journal of Medical Genetics . . . . .	423
