Number 4 of Volume 55 is a cumulative index for Volumes 27–55 (it includes the index published in Volume 45, Number 4, except for listings of reviews by subject, which has been discontinued). A revised edition of **A Bibliography of Symbolic Logic**, by Alonzo Church, may be purchased separately. Members of the Association may purchase back volumes for their personal use at a 50% discount. The discount also applies to institutional members. Orders should be sent to **Cambridge University Press**, address above. Reviews of articles and books in logic which in the past were published in the JOURNAL have been moved to the BULLETIN, beginning with the March 2000 issue.
