IBIS

Journal of the British Ornithologists' Union

Edited by Dr Peter Jones

Department of Forestry and Natural Resources,
University of Edinburgh, King's Buildings,
Edinburgh EH9 3JU, UK

One of the most prestigious bird journals in the world, *Ibis* has been in existence since 1859. It publishes papers from both professionals and amateurs on all aspects of ornithology ranging from geographical distribution to bird behaviour, covering topics such as kin selection, altruism and breeding systems. Reviews of the ornithological literature have always been an important feature of the journal. Although it is published for

the British Ornithologists' Union it is by no means exclusively British, and less than half the papers deal with British birds.

Subscription Information

Ibis is published quarterly. Subscription rates for 1991 are £95.00 (UK), £110.00 (overseas) and US\$199.50 (USA & Canada) post free.

Order Form

Please tick the appropriate box and return to the address below:

- I would like to subscribe to *Ibis*
- I wish to pay by cheque and enclose the sum of £ _____ US\$ _____
- I wish to pay by Access/American Express/Barclaycard/Diners Card/
VISA/Mastercard (delete as necessary)

Please debit my credit card no.

Expiry date / / with the sum of £ _____ US\$ _____

Signature _____ Date / /

- Please send me a specimen copy of *Ibis*

Blackwell Scientific Publications

Osney Mead, Oxford OX2 0EL Tel: (0865) 240201

Notes for contributors

General *Oryx* publishes original articles and reports dealing with the conservation of species and habitats throughout the world, with particular emphasis on those that are endangered.

Edited manuscripts are returned to authors so that corrections can be made before typesetting. Authors should check these carefully since corrections at page proof stage are expensive. Page proofs will be sent to the author for approval before going to press. Contributors receive two free copies of the journal and will be entitled to buy additional copies at £1.80 each, post free. Offprints may be ordered at cost price.

Contributions should be concise but informative, normally in English. Articles should be as short as possible, preferably under 2500 words, and very short articles are acceptable.

Manuscripts should be typed on one side only and double-spaced on A4 paper (208x298 mm). The left-hand margin must be at least 40 mm wide. Two copies should be submitted and authors are also invited to submit papers on disk, either 5¹/₄" IBM compatible or 3¹/₂ Apple format in most word-processing programmes. Correspondence should be sent to: Dr Jacqui Morris, Editor of *Oryx*, Fauna and Flora Preservation Society, Lowther Lodge, 1 Kensington Gore, London SW7 2AR, UK.

Footnotes should be avoided but, if necessary, should be indicated with asterisks in the text.

The author's name and postal address should follow any acknowledgments and references at the end of the article.

References in the text should give the author's name with the year of publication in parenthe-

ses. The reference list should be in alphabetical order and include the full article title.

References should be given according to the abbreviations in the *World List of Scientific Periodicals*. Thus:

Aveling, C. and Harcourt, A.H. 1984. A census of the Virunga gorillas. *Oryx*, **18**, 8–13.

Hartshorn, M.G. 1983. Wildlife conservation in Central America. In: *Tropical Rain Forest: Ecology and Management* (eds S. L. Sutton, T. C. Whitmore and A. C. Chadwick), pp. 421–423. Blackwell Scientific Publications, Oxford.

Illustrations are welcomed and ideally should be glossy, black-and-white whole-plate prints. Good colour slides are acceptable if black-and-white photographs are not available.

Line drawings and maps should be in black ink on strong white or translucent paper. Lettering on maps and figures should be sent on a separate copy of the figure along with the unlabelled original.

Captions for figures should be typed consecutively on a separate sheet.

Tables. Each table should be self-explanatory and typed on a separate sheet with an appropriate caption.

Scientific names should be underlined and not placed in parentheses. Species' names should follow a checklist, which should be mentioned in a covering letter where there is a risk of confusion.

The first time a species is mentioned its scientific name should be given. English names should be in lower case throughout except where they incorporate a proper name.
