Public Health Nutrition

An international journal published on behalf of
The Nutrition Society by Cambridge University Press

Public Health Nutrition

Volume 12, 2009 ISSN: 1368-9800

Twelve issues per year

Aims and Scope

To provide an international peer-reviewed forum for the publication and dissemination of research and scholarship aimed at understanding the causes of, and approaches and solutions to, nutrition-related public health achievements, situations and problems around the world.

Public Health Nutrition publishes original and commissioned articles, commentaries and discussion papers for debate.

Public Health Nutrition is interested in papers that:

- identify causation relevant at a population level
- develop and test new methods and approaches
- share experience about the development, implementation, and evaluation of programmes of work aimed at improving health

- describe, discuss and debate food and nutrition policy
- debate and propose new models and approaches to improving food and nutrition-related public health, particularly in those populations most at risk and vulnerable
- discuss work-force development and educational issues

Public Health Nutrition is interested in research and scholarship that takes a population and preventive approach; and welcomes ideas and suggestions for topics for debate, as well as open contributions for peer review. *Public Health Nutrition* publishes special issues.
