This Journal, which is intended to act as the organ of research on Animal Ecology in the British Isles, publishes primarily papers dealing exclusively with animals (such as population and migration studies and allied problems), and with methods of ecological research having reference primarily to animals. Two numbers are published each year, in May and November. Subscription for members of the *British Ecological Society* is 25s. per annum, and for non-members, or libraries and other institutions, 30s. per annum. The net price of single parts is 22s. 6d.
