

GENERAL NOTES

THE Editors are anxious to improve the clinical aspect of the Journal and would welcome more reports of interesting cases. These clinical records need not be at all elaborate and it would be unnecessary to go minutely into the aetiology or the literature of the subject. Senior Registrars have unique opportunities for seeing a large variety of cases, many with unusual features. It is in many ways regrettable that these should go unrecorded. It is hoped that all those in charge of clinics will help us in this matter and see that such cases are not overlooked.

Mr. Terence Cawthorne has accepted an invitation as guest lecturer at the Twenty-Seventh Annual Convention in Ophthalmology and Otolaryngology arranged by the Research Study Club of Los Angeles to be held January 20th to 24th, 1958, in Los Angeles.

BRITISH POSTGRADUATE MEDICAL FEDERATION COURSE OF LECTURES ON THE SCIENTIFIC BASIS OF MEDICINE

THE following lecture will be delivered in the Lecture Theatre of the London School of Hygiene and Tropical Medicine on Thursday, February 6th at 5.30 p.m.:—

Dr. C. S. Hallpike—"Some remarks on the scientific basis of otological practice."

OTOLARYNGOLOGY LECTURES 1957-58

THE following lectures, arranged jointly by the Royal College of Surgeons of England and the Institute of Laryngology and Otology, will be delivered in the Lecture Hall of the College, at 5.30 p.m.

1958

February 6th. Mr. R. H. Franklin. Congenital abnormalities of the œsophagus.

March 6th. Mr. H. Jackson Burrows. Disorders of the cervical spine.

May 1st. Professor W. D. M. Paton. The pharmacology of mucous membrane.

July 3rd. Mr. Norman C. Tanner. Haemorrhage from the Œsophagus.
