# JOURNAL of PALEONTOLOGY

VOL 96 | NO 4 | JULY 2022

## REGULAR ARTICLES

- 737 Ercan Özcan, Simon F. Mitchell, Johannes Pignatti, Michael D. Simmons, Ali Osman Yücel, and Natalie Robinson**  
A new, complex hyaline larger benthic foraminifer, *Bigaella orbitoidiformis* n. gen. n. sp., from the upper Bartonian-Priabonian of NW Turkey
- 753 Katherine A. Turk, Katie M. Maloney, Marc Laflamme, and Simon A.F. Darroch**  
Paleontology and ichnology of the late Ediacaran Nasep–Huns transition (Nama Group, southern Namibia)
- 770 Giovanni Pari, Derek E.G. Briggs, and Robert R. Gaines**  
The soft-bodied biota of the Cambrian Series 2 Parker Quarry Lagerstätte of northwestern Vermont, USA
- 791 Zhiger A. Sarsembaev and Vasilii V. Marusin**  
Nonmineralized triradial conulariids from the lowermost Cambrian Stage 2 of the Olenek Uplift, Siberian Platform
- 803 Heyo Van Iten, Juan Carlos Gutiérrez-Marco, and Mario E. Cournoyer**  
Unusual assemblage of conulariids (Cnidaria, Scyphozoa) from the Taddrist Formation (Middle Ordovician, Darriwilian) of southern Morocco
- 814 Bruno Dell’Angelo, Bernard M. Landau, Carlos Marques da Silva, and Maurizio Sosso**  
Biogeography of northeastern Atlantic Neogene chitons (Mollusca, Polyplacophora): New data from the Pliocene of Portugal
- 839 Vahram Serobyán, Taniel Danelian, Catherine Crônier, Araik Grigoryan, and Bernard Mottequin**  
New and revised cyrtospiriferid (Spiriferida) brachiopods from the lower Famennian (Upper Devonian) of Armenia
- 859 Joseph Moysiuk, Alejandro Izquierdo-López, George E. Kampouris, and Jean-Bernard Caron**  
A new marrellomorph arthropod from southern Ontario: a rare case of soft-tissue preservation on a Late Ordovician open marine shelf
- 875 Xuejian Zhu, Nigel C. Hughes, and Zhiqiang Zhou**  
A *Glyptagnostus reticulatus* trilobite faunule from the Cambrian of the Northern Qilian Mountains, northwest China, and its paleogeographical implications
- 886 Frederick A. Sundberg and Mark Webster**  
“Ptychoparioid” trilobites of the Harkless Formation and Mule Spring Limestone (Cambrian Series 2, Stage 4), Clayton Ridge, Nevada
- 921 Russell D.C. Bicknell, Patrick M. Smith, Thomas F. Howells, and John R. Foster**  
New records of injured Cambrian and Ordovician trilobites
- 930 Ryan E. Shanks and Paul A. Selden**  
First trigonotarbid arachnids from the Pennsylvanian of Indiana and Oklahoma
- 939 Hyeonmin Park, Seung-Bae Lee, Jusun Woo, and Dong-Chan Lee**  
The first Middle Ordovician and Gondwanan record of the cincinnaticrinid crinoid *Ohioocrinus byeongseoni* n. sp. from South Korea: biostratigraphy, paleobiogeography, and taphonomy
- 950 Rainer R. Schoch and Hans-Dieter Sues**  
The dissorophoid temnospondyl *Parioxys ferricolus* from the early Permian (Cisuralian) of Texas
- 961 Xuri Wang, Andrea Cau, Xiaoling Luo, Martin Kundrát, Wensheng Wu, Shubin Ju, Zhen Guo, Yichuan Liu, and Qiang Ji**  
A new bohaiornithid-like bird from the Lower Cretaceous of China fills a gap in enantiornithine disparity

## ERRATUM

- 977 Joseph Moysiuk, Alejandro Izquierdo-López, George E. Kampouris, and Jean-Bernard Caron**  
A new marrellomorph arthropod from southern Ontario: a rare case of soft-tissue preservation on a Late Ordovician open marine shelf – ERRATUM
