Where Every Moment Matters

INFECTION CONTROL COORDINATOR

Wake Medical Center has an immediate opening available for an Infection Control Coordinator.

Reporting to the Manager, Quality Utilization and Review, this individual will be responsible for overseeing ongoing surveillance of hospital acquired infections in patients and staff and will compile, interpret and report the data. Additional duties include monitoring patient care activities; developing/updating isolation techniques; and participating in special studies designed to identify, evaluate and implement findings to effect changes in infection control practice.

Qualified candidate should be an RN and have one year of clinical experience. Certification in Infection Control preferred.

For immediate consideration, please send your resume to: **Human Resources Department, WAKE MEDICAL CENTER, 3000 New Bern Avenue, P.O. Box 14465, Raleigh, NC 27620-4465.** An Equal Opportunity Employer.

 **Wake Medical Center**

Nurse Epidemiology Coordinator

The Hospital of the Good Samaritan in Los Angeles is on the "front line" in managing the tremendous changes affecting healthcare delivery and the nursing professional. Our goal is to become the area's model as the most integrated, patient-focused healthcare organization well into the 21st century.

That's where you come in.

We require knowledge of epidemiology and infection control; and the ability to translate, adapt and apply this knowledge at a level associated with a Master's degree in a health related field (or an equivalent combination of related education and experience). CIC certification preferred.

Call toll free or forward your resume to: **Iris Waskow, Director - Recruitment & Retention, (800) 336-8338, The Hospital of the Good Samaritan, 616 S. Witmer Street, Los Angeles, CA 90017-2395.** Equal Opportunity Employer.

Good Work Good Sam.

Manager Infection Control

Wausau Hospital is a 321-bed acute-care regional referral center in central Wisconsin with a 220+ medical staff in 35 specialties. Our Infection Control Program offers a multi-disciplinary, integrated approach to clinical quality improvement in infectious disease control. Currently, we seek a highly-motivated, board certified Infectious Disease Specialist to manage this progressive program. Primary responsibilities entail:

- *Surveillance, prevention and control of patient infection
- F. employee exposure risk reduction
- *Teaching, consultation, data collection and analysis
- *Regulatory compliance
- QA and community liaison; policy and procedures resources

We seek a BS-prepared RN or allied health professional with a minimum 2 years experience in hospital-based infection control (Master's degree a plus); effective communication skills; and knowledge of microbiology, epidemiology and basic statistical applications. Designated CIC and computer-assisted surveillance capabilities and an understanding of quality improvement in a clinical setting are essential.

We offer an attractive salary and benefits package. For prompt, confidential consideration, forward your resume to: Cecilia Rudolph, Employment Manager, WAUSAU HOSPITAL, 333 Pine Ridge Blvd., Wausau, WI 54401. EOE-M/F.

 **WAUSAU HOSPITAL**
Affiliated with University of Wisconsin Hospital and Clinics.

What do you mean I'm *not* protected?

If you are in the habit of applying hand cream after using a Chlorhexidine Gluconate (CHG) handwash, you may actually be losing your protection! A recent study* confirms that residual CHG can be neutralized by anionic hand creams.

Introducing.. **Lotion Soft® Skin Conditioner**, a nonionic skin care lotion compatible with any CHG handwashing product. **Lotion Soft@ Skin Conditioner** contains emollients and moisturizers, which are soothing and last through several handwashes.

When you scrub with CHG for antimicrobial protection, you should be using a compatible product for skin conditioning. Try new **Lotion Soft@ Skin Conditioner**. It will not interfere with the cumulative effects of CHG.

Contact your local Calgon Vestal Healthcare Market Specialist or call toll-free 1-800-325-8005 to find out about new CHG compatible **Lotion Soft® Skin Conditioner**.
