An Outline History of The Church By Centuries

(From St Peter to Pius XII)

by

Joseph McSorley, C.S.P.

'This immense volume, now in its ninth revised edition, contains 1,174 pages, 15 statistical tables, 37 maps, 74 illustrations, lists of popes and councils, a summary to each chapter with a comparative time chart, 29 pages of bibliographies of sources, general and specialist works and a list for beginners; finally, a detailed index of 48 pages. Add to this, that it is strongly bound and beautifully printed and you will realize that here is an invaluable one-volume reference book on the history of the Church.' *Southwark Record*

'It has continued to grow and improve with each new printing. The text has been augmented by a hundred pages since the edition of 1948, and now brings its story up to the first half of 1954. The book retains its original character of a textbook for colleges and seminaries, and it is due to their appreciation of its scholastic merits that it has arrived at a ninth edition. It is furnished with the best modern pedagogical devices for students, and it has a fullness that makes it a valuable syllabus for teachers.' *Catholic World*

'I know of no more useful book of reference, and no more excellent synthesis embracing so wide a range. . . . But not the least excellent feature of the book is the mature and accurate judgment that runs through the whole.'

Professor Zema, Fordham University
