The Journal of Laryngology and Otology

(Founded in 1887 by MORELL MACKENZIE and NORRIS WOLFENDEN)

EDITED BY
WALTER HOWARTH

ASSISTED BY
V. E. NEGUS AND F. W. WATKYN-THOMAS

1. Original Articles are accepted on the condition that they have not been published elsewhere.
2. Manuscripts should be typewritten, on one side only of the paper, and well spaced.
3. Galley proofs and engraver's proofs of illustrations are sent to the author. Corrections, which should be kept to a minimum, must be clearly marked and no additional matter should be added.
4. The order for reprints should be sent when returning galley proofs, and for this purpose special forms are supplied, on which the price of the reprints is stated.
5. Authors of Original Communications on Oto-Laryngology in other Journals are invited to send a copy, or two reprints, to the *Journal of Laryngology*. If they are willing, at the same time, to submit their own abstract (in English, French, Italian, or German) it will be welcomed.
6. Editorial Communications should be addressed to "EDITOR, *Journal of Laryngology*, c/o Messrs OLIVER AND BOYD, Tweeddale Court, Edinburgh."
7. The Annual Subscription is Forty Shillings, post free, and is payable in advance.
8. Single copies of back numbers, both of the present and the previous series, are on sale at Four Shillings each.
9. An Annual Subscription can be commenced with any number of the Journal, and the preceding numbers of the current year can be purchased at Four Shillings each.

UNITED STATES OF AMERICA

Orders for this Journal, for single parts or yearly subscriptions, can be sent either through a local bookseller, or to Messrs G. E. STECHERT & CO., 31-33 East 10th Street, New York.

PERCAINE "CIBA"

Trade Mark Registered

The New Local Anæsthetic for Regional, Infiltration, Surface and Spinal Anæsthesia

Acts in extreme dilution (0·5—2 : 1000).

Produces anæsthesia of hitherto unattained intensity and duration.
Not a narcotic.

Economical in use.

Belongs chemically to a class entirely different from cocaine and its derivatives.

Vide *British Medical Journal*, March 15, 1930, pp. 488-9 and 495-6. and April 5, 1930, pp. 669-70. *The Lancet*, March 15, 1930, pp. 573-4 and 587. *British Journal of Anæsthesia*, April & July 1930, and January 1931. *Proceedings of the Royal Society of Medicine*, May 1930, pp. 919-28. *British Journal of Urology*, June 1930, pp. 129, 130 and 179. *Edinburgh Medical Journal*, April 1931. *St Bartholomew's Hospital Journal*, February 1931, pp. 93-96.

By HERBERT TILLEY, B.S.(Lond.), F.R.C.S.(Eng.), Surgeon, Ear and Throat Department, University College Hospital; Teacher of Laryngology and Otology, University of London.

With numerous Illustrations, including 74 Plates. Demy 8vo.

28s. net. Postage 1s., abroad 1s. 3d.

Extracts from Press Notices.

"The work is so comprehensive that it should be a valuable book of reference, whilst it is not too large to serve as an ordinary text-book."—*British Medical Journal*.

"We have no hesitation in recommending this book to the practitioner as well as to the prospective specialist."—*The Lancet*.

"The author is to be congratulated upon his work; as a text-book it is one of the best upon the subject; . . . displays the master mind of an accomplished teacher."—*Medical Press*.

ROGERS' STANDARD SPRAYS

HAVE A
WORLD-WIDE REPUTATION
For Efficiency & Reliability.

They are made in many forms, scientifically

designed for

NASAL, PHARYNGEAL, POST-NASAL
and **LARYNGEAL TREATMENT.**

Particulars gladly supplied
on request.

Sole Manufacturer—

FRANK A. ROGERS (LATE OF OXFORD ST.),
1, Beaumont Street, London, W.1.

WHY YOU SHOULD PRESCRIBE DeVilbiss

SPRAY N°15

First, because it conforms to the specifications of nose and throat specialists. Second, because the adjustable gold tip permits spraying in any direction. Third, because all parts are interchangeable and may be sterilised by boiling or passing the tip through flame. Write for fully illustrated catalogue of all DeVilbiss models—post free on request.

**CHEVALIER JACKSON'S INSTRUMENTS FOR ŒSOPHAGOSCOPY,
LARYNGOSCOPY, AND BRONCHOSCOPY**

New Models as made for Walter G. Howarth, F.R.C.S.

Each Instrument is made in accordance with the details of Chevalier Jackson's most recent models, and each is supplied with a *spare light carrier*, i.e., 2 light carriers and 2 lamps. All the models have been redesigned with a view to rendering them more easily cleansed; all the crevices and corners for the dirt have been taken away.

To ensure better visibility the tips of the forceps are *black*.

The Howarth-Jackson's Instruments are **less expensive than other American or English models**, and a further economy has been effected by rendering the instrument tips interchangeable, thus reducing the number of forceps handles and tips required.

The lamps are 2.5 volt and more durable than the usual models.

Manufactured only by

DOWN BROS., L^{TD}.
