## Submit an Article for the IPA Bulletin!

The *IPA Bulletin* is the quarterly newsletter of the International Psychogeriatric Association (IPA). In addition to news about IPA and related organizations, the *IPA Bulletin* contains articles on recent advances and initiatives in the field in of psychogeriatrics. The *IPA Bulletin* reaches all the members of IPA, including our affiliates around the world.

*Research and Practice.* The Research and Practice section of the *IPA Bulletin* highlights recent advances in psychogeriatrics and related fields. Articles from all fields related to the mental health of older people are welcome.

*Around the World.* The Around the World section of the *IPA Bulletin* features articles by clinicians and researchers which report on activities and issues within their country or region. These articles seek to educate others on the state of the field in other countries and provide unique perspectives from around the world.

## Better Mental Health for Older People

IPA NEEDS YOU!

### About IPA

The International Psychogeriatric Association (IPA), founded in 1982 and representing members in more than 50 countries, is a unique and diverse professional healthcare community promoting better geriatric mental health – across disciplines, across borders, and across geriatric issues. Psychiatrists, scientists, neurologists, geriatricians, primary care physicians, epidemiologists, nurses, psychologists, occupational therapists, social workers, and many other healthcare professionals come to the IPA community from all around the world to discuss, learn, share and research information about behavioral and biological aspects of geriatric mental health. IPA promotes research and education, facilitates an international exchange of ideas, and fosters cross-cultural understanding of the latest developments in the field.

### IPA Membership

The International Psychogeriatric Association (IPA) encourages professionals from all backgrounds related to geriatric mental health to join our healthcare community. Here are some of the many benefits of joining IPA:

- Unique opportunities to interact with colleagues around the world how share an interest in advancing research, education, and theory about mental health care in older adults.
- Valuable discounts on participation in education and scientific meetings which reflect the full spectrum of disciplines related to psychogeriatrics. Reduced registration rates for the annual IPA International Congress and IPA Regional Meetings are included.
- Relevant publication on updates in the field, including *International Psychogeriatrics*, IPA's peer reviewed journal which publishes twelve issues per year and additional special-focus supplements.
- Access to online educational materials and *The IPA Complete Guides to Behavioral and Psychological Symptoms of Dementia (BPSD)*.
- Subscription to the *IPA Bulletin*, IPA's newsletter which features articles on advances in the field and information on upcoming programs around the world.
- Participation in the IPA Member Forums – smaller member groups which enable members to connect with one another and collaborate on research and clinical care practices. These forums reflect the diversity of interests within geriatric mental health.

### How to Join

To learn more about IPA and become a member, please visit our website: [www.ipa-online.org](http://www.ipa-online.org). IPA offers a one-year membership for \$160 USD. One-year student or retired memberships are available for \$99 USD. **A limited number of Lifetime Memberships are also available for \$1000 USD.** The IPA Secretariat is available to answer any questions you may have about IPA or membership. Please contact us at +1 414 918 9889 or by email at [info@ipa-online.org](mailto:info@ipa-online.org).

## Inclusion, Creativity and Rights - The Future of Older Peoples Mental Health Care

International Psychogeriatric Association  
*Better Mental Health for Older People*

IPA-021-16

## Scope and contributions

*International Psychogeriatrics* is written by and for those doing clinical, teaching, and research work with older people. It is the official journal of the International Psychogeriatric Association (IPA) and is published by Cambridge University Press, Cambridge, UK. Although it is primarily concerned with psychogeriatrics, the journal welcomes contributions from all concerned with the field of mental health and aging. Original research papers are particularly sought.

Contributions include original research articles, reviews of the literature, book reviews, letters to the editor, and editorials. Apart from editorials and book reviews, which are commissioned, contributions to *International Psychogeriatrics* are spontaneously written and submitted by authors. Papers are usually reviewed by two expert reviewers selected by the Editor-in-Chief. At present, about one-third of the papers submitted are accepted for publication. The journal's Science Citation Index impact factor is 2.423 (2016). Submission of a paper implies that it is neither under consideration for publication elsewhere, nor previously published in English. Manuscripts must be formatted double-spaced with ample margins on all sides and the pages should be numbered. *International Psychogeriatrics* uses the spelling of American English. Manuscripts written by those whose primary language is not English should be edited carefully for language prior to submission. The journal has a Language Assistance Panel consisting of both native English speakers willing to check manuscripts for style prior to submission, and bilingual experts willing to assist with the translation of manuscripts into English. Further details including contact information for individual panel members can be found at both the journal and IPA websites ([journals.cambridge.org/ipg](http://journals.cambridge.org/ipg) and [www.ipa-online.org](http://www.ipa-online.org)).

An up to date version of the journal's instructions for contributors can be found at the *International Psychogeriatrics* website [journals.cambridge.org/ipg](http://journals.cambridge.org/ipg). Please read these instructions carefully before submitting articles. **Articles that are not prepared in accordance with these guidelines will be returned to authors.**

**Manuscripts should be submitted online via our manuscript submission and tracking site, <<http://mc.manuscriptcentral.com/ipg>>. Full instructions for electronic submission are available directly from this site.**

Issue Theme: Diverse Strategies for Improving Seniors' Well-Being

## CONTENTS

- Commentaries**
- 531 Not so simple after all**  
Philippe Cappeliez
- 535 Unveiling the importance of hidden personal resources in cerebrovascular diseases**  
Ovidiu Popa-Velea and Iuliana Raluca Gheorghe
- 539 What is more important, the appropriateness or the rate of psychotropic prescription in aged care homes?**  
Yun-Hee Jeon, Mouna Sawan, Judy Simpson, and Henry Brodaty
- 543 Impact of interdisciplinary approaches to deprescribing psychotropics on clinical outcomes in older residents of long-term care facilities**  
Stephanie L. Harrison and Janet K. Sluggett
- 547 Designing meaningful dementia care**  
Jessica Budgett and Claudia Cooper
- 551 Creating wellness apps with high patient engagement to close the intention–action gap**  
Samantha Boardman
- 553 Soundscape in nursing homes as a treatment strategy for challenging behavior in dementia?**  
Ruslan Leontjevas
- Theme Articles**
- 557 Effects of a simple reminiscence intervention program on the reminiscence functions in older adults**  
Encarnación Satorres, Iraida Delhom, and Juan C. Meléndez
- 567 Resilience is an independent correlate of the course of quality of life in patients with first-ever ischemic stroke**  
Zhihui Liu, Xuan Zhou, Wei Zhang, and Lanshu Zhou
- 577 Can the PROPER intervention reduce psychotropic drug prescription in nursing home residents with dementia? Results of a cluster-randomized controlled trial**  
C.H.W. Smeets, M. Smalbrugge, R.T.C.M. Koopmans, M.H.J.M.G. Nelissen-Vrancken, K. van der Spek, S. Teerenstra, D.L. Gerritsen, and S.U. Zuidema
- 587 Clinical impact of antipsychotic and benzodiazepine reduction: findings from a multicomponent psychotropic reduction program within long-term aged care**  
Daniel J. Hoyle, Gregory M. Peterson, Ivan K. Bindoff, Lisa M. Clinnick, Aidan D. Bindoff, and Juanita L. Breen
- 601 Feasibility and acceptability evaluation of the Promoting Independence in Dementia (PRIDE) intervention for living well with dementia**  
Emese Csipke, Esme Moniz-Cook, Phuong Leung, Lauren Yates, Linda Birt, Holly Walton, Eef Hogervorst, Gail Mountain, Georgina Charlesworth, and Martin Orrell
- 615 Comparing a clinician-assisted and app-supported behavioral activation intervention to promote brain health and well-being in frontline care**  
Keri-Leigh Cassidy, Michael Vallis, David Conn, Ariane S. Massie, Claire Checkland, Daria Parsons, Julie Spence Mitchell, and Kiran Rabheru
- 627 Sounds in nursing homes and their effect on health in dementia: a systematic review**  
Sarah I. M. Janus, Janouk Kusters, Kirsten A. van den Bosch, Tjeerd C. Andringa, Sytse U. Zuidema, and Hendrika J. Luijendijk
