

INDEX OF AUTHORS

- ANDREWES, C. H., MUIRHEAD-THOMSON, R. C. and STEVENSON, J. P. Laboratory studies of *Anopheles atroparvus* in relation to myxomatosis, 478
- ANNEAR, D. I. The preservation of bacteria by drying in peptone plugs, 487
- ANNEAR, D. I. and BESWICK, T. S. L. A note on the preservation of influenza virus, 509
- ARMITAGE, P. and SPICER, C. C. The detection of variation in host susceptibility in dilution counting experiments, 401
- BEAL, A. J., *see* FINTER, N. B.
- BEAL, A. J. and FINTER, N. B. The infectivity of chorio-allantoic membrane influenza virus and incomplete influenza virus by the six-hour soluble antigen production test, 68
- BELTON, F. C., *see* HENDERSON, D. W.
- BENNETT, G. H., *see* JOYNER, L. P.
- BENTLEY, E. W. and ROWE, MARIAN. Pival, an anticoagulant rodenticide, 20
- BESWICK, T. S. L., *see* ANNEAR, D. I.
- BROOKSBY, J. B. and ERICHSEN, S. A non-specific complement-fixing system in foot-and-mouth disease and experiments on the absorption of heterologous antibody from serum, 328
- BUDDLE, M. B. Studies on *Brucella ovis* (n.sp.), a cause of genital disease of sheep in New Zealand and Australia, 351
- CARPENTER, R. G., *see* MARMION, B. P.
- CHU, DAVID C. Y., HOYT, ROBERT E. and PICKETT, M. J. Solubility of Vi antigen of *Salmonella typhi*, 585
- CHU, DAVID C. Y., HOYT, ROBERT E. and PICKETT, M. J. Immunization to Vi and O antigens of *Salmonella typhi* using a stable antigen in oil, 592
- CRUCKSHANK, The late J. C. Incomplete antibodies in experimental brucella infection, 562
- DAY, M. F., FENNER, FRANK and WOODROOFE, GWENDOLYN M. Further studies on the mechanism of mosquito transmission of myxomatosis in the European rabbit. With an appendix by G. A. McINTYRE, 258
- DRUETT, H. A., HENDERSON, D. W. and PEACOCK, S. Studies on respiratory infection. III. Experiments with *Brucella suis*, 49
- DRUETT, H. A., ROBINSON, The late J. M., HENDERSON, D. W., PACKMAN, L. and PEACOCK, S. Studies on respiratory infection. II. The influence of aerosol particle size on infection of the guinea-pig with *Pasteurella pestis*, 37
- ERICHSEN, S., *see* BROOKSBY, J. B.
- FELIX, ARTHUR, Obituary, 152
- FENNER, FRANK, *see* DAY, M. F.
- FENNER, FRANK, DAY, M. F. and WOODROOFE, GWENDOLYN M. Epidemiological consequences of the mechanical transmission of myxomatosis by mosquitoes, 284
- FENNER, FRANK and McINTYRE, G. A. Infectivity titrations of myxoma virus in the rabbit and the developing chick embryo, 246
- FINTER, N. B., *see* BEAL, A. J.
- FINTER, N. B. and BEAL, A. J. The 6-hour soluble antigen production test for comparing the infectivity of influenza virus preparations, 58
- FLEWETT, T. H. Intracellular growth of some viruses of the pox group. An electron microscopic study of infected chick chorionic cells, 393
- FRISCH-NIGGEMEYER, W. and HOYLE, L. The nucleic acid and carbohydrate content of influenza virus A and of virus fractions produced by ether disintegration, 201
- FULTHORPE, A. J. Adsorption of tetanus toxin by brain tissue, 315
- GOODWIN, R. F. W., HEARD, D. H., HAYWOOD, B. H. G. and ROBERTS, G. FULTON. Haemolytic disease of the newborn piglet, 153

- GORDON, The late J. and TURNER, G. C. Further observations on the protective action of glycine against the heat-inactivation of complement with particular reference to intensification by some carbohydrates, 172
- GORDON, The late J. and TURNER, G. C. The protective effect of some carbohydrates against the inactivation of complement by heat, together with a note on the effect of glycolamide (an isomer of glycine) on heat-inactivation, 388
- GULASEKHARAM, J., VELAUDAPILLAI, T. and NILES, G. R. The isolation of salmonella organisms from fresh fish sold in a Colombo fish market, 581
- HARVEY, M. S., *see* MARMION, B. P.
- HAYWOOD, B. H. B., *see* GOODWIN, R. F. W.
- HEARD, D. H., *see* GOODWIN, R. F. W.
- HENDERSON, D. W., *see* DRUETT, H. A.
- HENDERSON, D. W., PEACOCK, S. and BELTON, F. C. Observations on the prophylaxis of experimental pulmonary anthrax in the monkey, 28
- HIRCH, ANN, *see* WILLIAMS, R. E. O.
- HOYLE, L., *see* FRISCH-NIGGEMEYER, W.
- HOYT, ROBERT E., *see* CHU, DAVID C. Y.
- JAMES, DINAH M. and MARKS, J. On the mechanism of silica toxicity, 342
- JOYNER, L. P. and BENNETT, G. H. Observations on the viability of *Trichomonas foetus* during the process of freezing to -79° C. and thawing in the presence of glycerol, 335
- KERR, W. R. and ROBERTSON, MURIEL. Partial immunological paralysis to *Trichomonas foetus* antigen in calves, 415
- KIPPS, A. Complement fixation with antigens prepared from bluetongue virus-infected mouse brains, 79
