ST. ANTHONY'S
MEDICAL CENTER

A Tradition of Service... and a Commitment to Healthy Skin

Faithful to its service tradition, St. Anthony's Medical Center in St. Louis provides care marked by excellence, responsible use of resources, and respect and compassion for all people. This progressive healthcare facility is also committed to the promotion of healthy skin.

The **PROVON® FMX™** System... ...convenient, effective foaming skin care.

THE PROVEN PAIR IN SKIN CARE™

Putting Foaming Handwash everywhere it's needed

Frequent handwashing requires time and effort and can result in dry, irritated and damaged skin. To lead the way in building total hand hygiene compliance in its facility, St. Anthony's is using new PROVON® FMX™ Foaming Handwash everywhere general handwashing is needed.

PROVON FMX foam is pre-lathered, providing a more convenient handwashing experience. Formulas are specifically designed to be effective and include moisturizers that leave the skin feeling soft and clean.

Without the right
infection prevention system,
you may as well
operate in the

WAITING ROOM

Introducing 3M Infection Prevention Solutions.

Every step in the infection prevention process is critical, or your operating room could be as contaminated as the common areas. But who can keep up with all of the new products and research developments available today? We can.

At 3M, we are committed to helping health care facilities reduce the risk of nosocomial infections. So we not only

provide you with innovative products – we equip you with a comprehensive system of products, services and technical support, as well as educational and in-service programs all customized for your hospital.

For more information, call the 3M Health Care Customer Helpline at **1-800-228-3957** or click on www.3M.com/healthcare. We're with you, step by step.

3M Infection Prevention Solutions. A vital step in Infection Prevention.

3M Medical
from the 3M Health Care family

The Division of Infectious Diseases of the Department of Internal Medicine at the Brody School of Medicine, East Carolina University and its associated teaching hospital, Pitt County Memorial Hospital, seek applications for a Hospital Epidemiologist/Medical Director of Infection Control at the Assistant/Associate Professor level. This is a unique opportunity to practice academic hospital epidemiology at a 731 bed teaching hospital with all the services of a tertiary care facility. There are seven Infection Control Practitioners. The program will be expanding to hospitals within the immediate referral area. It is expected that the successful applicant will conduct infection control related research and present at appropriate national meetings. The position is through the Division of Infectious Diseases, which entails attending on the ID service, teaching fellows, housestaff and students and seeing patients in the outpatient clinic. The successful candidate will be board eligible/certified in internal medicine and infectious diseases with formal training in hospital epidemiology.

Interested applicants should send a cover letter and CV to
Thomas M. Kerkering, M.D., Division Chief
 Division of Infectious Diseases, Brody School of Medicine
 Brody 3E-113, 600 Moye Blvd., Greenville, North Carolina 27834.
 The letter and CV may also be emailed to
kerkeringt@mail.ecu.edu.

East Carolina University is an Equal Opportunity Employer.

**THE PRICE OF OUR

 CONTROL WON'T
 LEAVE YOU**

COUGHING

And you will breathe easier knowing you're also getting the smallest, quietest, most effective HEPA filtration machine in its class!

Small: Weighing in at 53 pounds and dimensions of 40"X12"X18" the Recirculator II is the smallest, most portable unit available.

Quiet: At 53 dbA the Recirculator II is an average of 6 dbA lower than other competing brands.

Effective: With 535 cubic feet per minute and dual HEPA filtration, the Recirculator II is the *only* choice for your tuberculosis control needs.
