Poly-separated and ω -stable nilpotent groups. By ALI NESIN	694
L'arithmétique ouverte et ses modèles non-standards. By SEDKI BOUGHATTAS	700
The role of parameters in bar rule and bar induction. By MICHAEL RATHJEN . .	715
Boolean valued Lie algebras. By HIROKAZU NISHIMURA	731
Nonuniformization results for the projective hierarchy. By STEVE JACKSON and R. DANIEL MAULDIN	742
Reviews	749
Notices	767

The JOURNAL is the official organ of the Association for Symbolic Logic, an international organization for furthering research in symbolic logic and exchange of ideas among mathematicians, philosophers, and others interested in this field.

Individual membership in the Association is open to anyone interested in its work. Annual dues for members are \$40, or \$20 for students. Dues include subscription to the current volume of the JOURNAL.

Institutional membership in the Association is available to any academic institution or department. Annual institutional dues are \$300 for 1991 and \$325 for 1992. Membership privileges include choices of current subscriptions, of back volumes, and of student memberships. A detailed description of institutional and corporate membership is available from the Secretary-Treasurer of the Association.

Information on microfiche and microfilm editions of the JOURNAL can be obtained from *University Microfilms, 300 North Zeeb Road, Ann Arbor, MI 48106, U.S.A.*

Back volumes of the JOURNAL are available; information on back volumes in paper form can be obtained from the Association.

Requests for information, applications for membership, orders for back volumes, business correspondence, and notices and announcements for publication in the JOURNAL should be sent to the Secretary-Treasurer of the Association, *C. Ward Henson, ASL, Department of Mathematics, University of Illinois, 1409 W. Green Street, Urbana, IL 61801, U.S.A.*

Notices of change of address, dues, and subscriptions to the JOURNAL should be sent to the *Association for Symbolic Logic, Journals Division UIP, 54 East Gregory Drive, Champaign, IL 61820, U.S.A.*; all orders must be accompanied by payment in dollars; Visa and Master Card are accepted. To receive a replacement copy of the JOURNAL, please report damaged, defective, or missing issues within nine months of the date of publication.

Articles being submitted for publication in the JOURNAL should be sent in duplicate to one of the following editors: *Peter Aczel, Department of Mathematics, Manchester University, Manchester M13 9PL, England*; or *Sy D. Friedman, Department of Mathematics, Massachusetts Institute of Technology, Cambridge, MA 02139, U.S.A.*; or *Julia Knight, Department of Mathematics, University of Notre Dame, Notre Dame, IN 46556 U.S.A.*; or *Andre Scedrov, Department of Mathematics, University of Pennsylvania, 209 South 33rd Street, Philadelphia, PA 19104-6395, U.S.A.*; or *Richard Shore, Department of Mathematics, Cornell University, Ithaca, NY 14853, U.S.A.*; or *A. S. Troelstra, Mathematisch Instituut, Universiteit van Amsterdam, Roetersstraat 15, Amsterdam 1018 WB, The Netherlands*; or *Johan van Benthem, Mathematisch Instituut, Universiteit van Amsterdam, Roetersstraat 15, Amsterdam 1018 WB, The Netherlands*. The editor in charge of survey and expository articles is *John P. Burgess, Department of Philosophy, Princeton University, Princeton, NJ 08544, U.S.A.*

Each manuscript should be typewritten with wide margins and with double spacing between the lines. Footnotes should be numbered consecutively and should also be typed with wide margins and double spacing, preferably on a separate sheet. Two copies of the manuscript should be sent to the editor, and the author should also keep a complete copy. Fifty offprints of each article are supplied at no charge, and additional offprints may be purchased if desired.

The JOURNAL invites submission of (1) original technical papers in the field of symbolic logic, (2) expository papers in this field, (3) papers whose main point is philosophical and which either bear upon logic or make use of its methods, and (4) studies in the history of logic in which modern technical developments are taken into account.
