AFRICAN JOURNAL OF ECOLOGY

Published for the East African Wildlife Society

Editor: F.I.B. Kayanja, *Makerere University, Kampala*

Associate Editor: K. Eltringham, *University of Cambridge*

African Journal of Ecology (formerly *East African Wildlife Journal*) was inaugurated to meet the growing need for an authoritative organ for the dissemination of the results of scientific research into East Africa's wildlife. Its scope has since been widened to include original research papers which make a significant contribution to the study of the plant and animal ecology of Africa, and comprehensive reviews and 'Notes and Records' are now regular features.

Subscription Information

African Journal of Ecology is published quarterly. Subscription rates for 1991 are: £110.00 (UK), £229.50 (overseas), US\$126.00 (USA & Canada), post free

Conservation Biology

Editor: David Ehrenfeld; Cook College, Rutgers University

The Society for Conservation Biology was established in 1985 in the face of mounting concern at the alarming rate of species extinction and habitat loss. In its short life the SCB has defined a dynamic new field and successfully promoted its recognition by the scientific and management communities. **Conservation Biology** has become a science vital to all professionals working in ecology, wildlife, forest and range management, *ex-situ* preservation of animals and plants, parks and reserves, and biological education. Launched in 1987, the SCB's journal **Conservation Biology** is recognized as the fastest growing and most influential journal in the field, publishing many landmark papers.

"Many of (Conservation Biology's) papers are, in fact, likely to be required reading for ecologists throughout the world." – Nature

Your interest in **Conservation Biology** and your support of its parent organization are vital. Join the Society for Conservation Biology today.

Conservation Biology is published quarterly, and distributed to members of the Society for Conservation Biology, with their membership.
