WEED SCIENCE

Published six times a year by the Weed Science Society of America

William K. Vencill, *Editor*

The Weed Science Society of America publishes original research and scholarship in the form of peer-reviewed articles in three international journals. *Weed Science* is focused on understanding “why” phenomena occur in agricultural crops. As such, it focuses on fundamental research directly related to all aspects of weed science in agricultural systems. *Weed Technology* focuses on understanding “how” weeds are managed. As such, it is focused on more applied aspects concerning the management of weeds in agricultural systems. *Invasive Plant Science and Management* is a broad-based journal that focuses not only on fundamental and applied research on invasive plant biology, ecology, management, and restoration of invaded non-crop areas, but also on the many other aspects relevant to invasive species, including educational activities, policy issues, and case study reports. Topics for *Weed Science* include the biology and ecology of weeds in agricultural, forestry, aquatic, turf, recreational, rights-of-ways, and other settings; genetics of weeds and herbicide resistance; chemistry, biochemistry, physiology and molecular action of herbicides and plant growth regulators used to manage undesirable vegetation, and herbicide resistance; ecology of cropping and non-cropping systems as it relates to weed management; biological and ecological aspects of weed control tools including biological agents, herbicide resistant crops, etc.; effects of weed management on soil, air, and water. Symposia papers and reviews are accepted. Consult the editor for additional information.

Associate Editors (Assignment Year)

Muthukumar V Bagavathiannan, Texas A&M, College Station, TX 77843 (2015)
Carlene Chase, Horticultural Sciences Department, University of Florida, Gainesville, FL 32611 (2016)
Bhagirath Singh Chauhan, Queensland Alliance for Agriculture and Food Innovation (QAAFI), The University of Queensland, Queensland, Australia (2014)
Sharon Clay, South Dakota State University Plant Science Department, Brookings, SD 57007 (2002)
Adam Davis, USDA-ARS, Global Change and Photosynthesis Research, Urbana, IL 61801 (2007)
Franck E. Dayan, USDA-ARS-NPURU, National Center for Natural Products Research, University, MS 38677 (2003)
Anita Dille, Kansas State University, Department of Agronomy, Manhattan, KS 66506 (2013)
Timothy Grey, Department of Crop and Soil Science, University of Georgia, Tifton, GA 31793 (2009)
Marie Jasieniuk, Department of Plant Sciences, University of California, Davis, CA 95616 (2016)
Prashant Jha, Montana State University, Bozeman, MT 59717 (2017)
Ramon Leon, West Florida Research and Education Center, University of Florida, Jay, FL 32565 (2016)
John L. Lindquist, Department of Agronomy, University of Nebraska, Lincoln, NE 68583-0817 (2002)
Vijay Nandula, Mississippi State University, Delta Research & Extension Center, Stoneville, MS 38776 (2008)
Chris Preston, Australian Weed Management, University of Adelaide, PMB1, Glen Osmond, SA 5064, Australia (2003)
Neha Rana, Monsanto, Chesterfield, MO 63005 (2017)
Dean Riechers, Department of Crop Sciences, University of Illinois, Urbana, IL 61801 (2011)
Hilary Sandler, University of Massachusetts–Amherst Cranberry Station, East Wareham, MA 02538 (2008)
Steven Seefeldt, USDA-ARS, University of Alaska, Fairbanks, AK 99775 (2011)
Patrick J. Tranel, Department of Crop Sciences, University of Illinois, 360 ERML, Urbana, IL 61801 (2002)
Martin M. Williams II, USDA-ARS Global Change and Photosynthesis Research, Urbana, IL 61801 (2008)
Tracy Candelaria, *Managing Editor*

Officers of the Weed Science Society of America

Kevin Bradley, <i>President</i>	Hilary Sandler, <i>Secretary</i>
Janis McFarland, <i>President-Elect</i>	Rick Boydston, <i>Treasurer</i>
Scott Senseman, <i>Vice President</i>	Sarah Ward, <i>Director of Publications</i>
Dallas Peterson, <i>Past President</i>	Mark Bernards, <i>Chair, Constitution and Operating Procedures</i>

Weed Science (ISSN 0043-1745) is an official publication of the Weed Science Society of America, 12011 Tejon Street, Suite 700, Westminster, CO 80234 (720-977-7940). It contains refereed papers describing the results of research that elucidates the nature of phenomena relating to all aspects of weeds and their control. It is published bimonthly, one volume per year, six issues per year beginning in January.

Membership includes online access to *Weed Science*, *Weed Technology*, *Invasive Plant Science and Management*, and the online *WSSA Newsletter*. Dues should be sent to WSSA, 12011 Tejon Street, Suite 700, Westminster, CO 80234 no later than December 1 of each year. Membership in the society is on a calendar-year basis only.

New subscriptions and renewals begin with the first issue of the current volume. Please visit the *Weed Science* subscription page at <https://www.cambridge.org/core/journals/weed-science/subscribe>; Email: subscriptions_newyork@cambridge.org in USA, journals@cambridge.org outside USA.

Weed Science publishes six times a year in January, March, May, July, September, and November. Annual institutional electronic subscription rates: US \$411.00; UK £285.00; EUR €376.00.

Please use Editorial Manager to access manuscript submissions (<http://www.editorialmanager.com/ws>). Authors are asked to pay \$65 per page as a portion of the cost of publication, plus an additional processing charge of \$55 per manuscript if none of the authors are WSSA members. The Editor can make exceptions in advance when justified.

The Weed Science Society of America fully subscribes to the belief that progress in science depends upon the sharing of ideas, information, and materials among qualified investigators. Authors of papers published in *Weed Science* are therefore encouraged, whenever practicable and when state and federal laws permit, to share genotypically unique, propagative materials they might possess with other workers in the area who request such materials for the purpose of scientific research.

On the Cover:

This photograph is from Cordeau et al. (Pp 504–514). It shows weeds that emerged after tillage that was done early in the spring at the Musgrave Research Farm in Aurora, New York. Some species that you can see such as common ragweed (*Ambrosia artemisiifolia* L.) were associated with early tillage and were absent from plots that were tilled later in the season. Photo credit: Matthew R. Ryan.

WEED SCIENCE

Journal of the Weed Science Society of America

Volume 65 Number 4 July–August 2017

SPECIAL TOPIC

- A Wicked View. *Michael Barrett, David E. Ervin, George B. Frisvold, Raymond A. Jussaume, David R. Shaw and Sarah M. Ward* 441

PHYSIOLOGY/CHEMISTRY/BIOCHEMISTRY

- Cross-resistance Patterns to Acetyl-CoA Carboxylase Inhibitors Associated with Different Mutations in Japanese Foxtail (*Alopecurus japonicus*). *Guoqi Chen, Lingyue Wang, Hongle Xu, Xibao Wu, Lang Pan, and Liyao Dong* 444
- Target-Site Resistance to Fenoxaprop-*P*-ethyl in Keng Stiffgrass (*Sclerochloa kengiana*) from China. *Haitao Gao, Jiaying Yu, Lang Pan, Xibao Wu, and Liyao Dong* 452
- Absorption, Translocation, and Metabolism of Halosulfuron in Cucumber, Summer Squash, and Selected Weeds. *Thierry E. Besançon, Katherine M. Jennings, and Wesley J. Everman* 461

WEED BIOLOGY AND ECOLOGY

- Germination of Winter Annual Grass Weeds under a Range of Temperatures and Water Potentials. *Ananda Scherner, Bo Melander, Peter K. Jensen, Per Kudsk, and Luis A. Avila* 468
- Spatial Distribution of Acetolactate Synthase Resistance Mechanisms in Neighboring Populations of Silky Windgrass (*Apera spica-venti*). *Marielle Babineau, Solvejg K. Mathiassen, Michael Kristensen, Niels Holst, Roland Beffa, and Per Kudsk* 479
- Palmer Amaranth (*Amaranthus palmeri*) Demographic and Biological Characteristics in Wide-Row Soybean. *Nicholas E. Korres and Jason K. Norsworthy* 491
- Timing of Tillage as a Driver of Weed Communities. *Stéphane Cordeau, Richard G. Smith, Eric R. Gallandt, Bryan Brown, Paul Salon, Antonio DiTommaso, and Matthew R. Ryan* 504

WEED MANAGEMENT

- Weed Seed Fate during Summer Fallow: The Importance of Seed Predation and Seed Burial. *Barbara Baraibar, Claudia Canadell, Joel Torra, Aritz Royo-Esnal, and Jordi Recasens* 515
- Effect of Seeding Rate on Dose Response of Wild Mustard (*Sinapis arvensis*) to Fluthiacet-Methyl. *Collen Redlick, Hema S. N. Duddu, Lena D. Syrový, Christian J. Willenborg, Eric N. Johnson, and Steven J. Shirliffe* 525
- Response of a Multiple-Resistant Palmer Amaranth (*Amaranthus palmeri*) Population to Four HPPD-Inhibiting Herbicides Applied Alone and with Atrazine. *Jonathon R. Kohrt and Christy L. Sprague* 534
