

Asian law and society research has rapidly expanded worldwide. This first-ever reader features original commentaries on key works, debates, and methods. For students and scholars interested in law, culture, politics, and society in Asian countries, it is an essential teaching tool for courses in law, social sciences, and justice studies.

“This book is a treasure trove of law and society research, spanning a massive diversity of societies and an equally broad array of issues. There is no scholar of the region who will fail to learn from it, and it will be of great use for teaching and research.”

TOM GINSBURG, University of Chicago
