#### NOTICE TO AUTHORS

*American Antiquity* publishes original papers on the archaeology of the New World and on archaeological method, theory, and practice worldwide. Authors of papers on Latin American topics are encouraged to submit their work to *Latin American Antiquity*. Papers on Latin American archaeology addressing broad methodological, theoretical, or comparative issues may be accepted by either journal after consultation with the editors. Authors submit manuscripts to the editor for consideration as ARTICLES, REPORTS, COMMENTS, or FORUM essays. REVIEWS and BOOK NOTES are solicited by the respective associate editor. OBITUARIES should be submitted to the editor, *The SAA Archaeological Record*, for publication (see *SAA Bulletin* March/April 1996, p. 7, for further details).

Authors are required to submit manuscripts electronically through Editorial Manager® (<http://www.editorialmanager/aq>). Detailed information on policy, style, and technical matters of manuscript preparation is given in the "Editorial Policy, Information for Authors, and Style Guide for *American Antiquity* and *Latin American Antiquity*," which appeared in the October 1992 issue (57:749–770) and can be read on the World Wide Web at <http://www.saa.org/Publications/StyleGuide/styframe.html>.

The editor reserves the right to evaluate manuscripts (with or without peer review) for appropriate subject matter, quality, length, and compliance with the style guide. Manuscripts may be returned to authors if they fail to meet expectations or conform to these guidelines. Manuscripts are evaluated by the editor in consultation with peer referees, as appropriate. The editor has the final responsibility for all decisions regarding manuscripts. The review process generally takes a minimum of two to four months. Authors will be notified as soon as a decision is reached to accept (outright or with revisions) or reject a manuscript.

## ARTICLES

- 403 Prey Body Size and Ranking in Zooarchaeology: Theory, Empirical Evidence, and Applications from the Northern Great Basin  
*Jack M. Broughton, Michael D. Cannon, Frank E. Bayham, and David A. Byers*
- 429 Looting of the Fort Craig Cemetery: Damage Done and Lessons Learned  
*Jeffery R. Hanson*
