

# ANIMAL PRODUCTION

JOURNAL OF THE BRITISH SOCIETY OF ANIMAL PRODUCTION

**AUGUST 1967**

**VOL. 9 PART 3**

OLIVER & BOYD LTD  
EDINBURGH AND LONDON

## INFORMATION FOR CONTRIBUTORS TO *ANIMAL PRODUCTION*

*Animal Production* publishes papers on original research provided that they have not been and, with the exception of authors' summaries, will not be published elsewhere without the Editors' written permission. Authors' summaries can be reproduced if full acknowledgement of the source is made.

*Contributions* may be in the field of animal production, or in any related scientific field. Reports on techniques will be published only as appendices to scientific papers. Results of research which do not warrant a comprehensive presentation may be submitted for consideration as *Notes*. Notes are not intended for the publication of interim results. They should not exceed 2000 words or the equivalent inclusive of tables and illustrations.

*Manuscripts* should be typewritten in double spacing with wide margins. Each page and the lines on each page should be numbered. Two copies of the typescript (one of illustrations) should be sent to

Dr. Gerald Wiener,  
Animal Production,  
A.R.C. Animal Breeding Research Organisation,  
West Mains Road, Edinburgh 9.

Manuscripts are not returned with proofs; authors should therefore retain copies.

For guidance to the general style which should be adopted in the writing and presentation of papers authors are referred to *General Notes on the Presentation of Scientific Papers* (2nd revised ed., 1965) published by the Royal Society, London (price 5s.). Points of detail applying particularly to *Animal Production* are given below.

*Illustrations.* The same material should not normally be presented in tables and figures. Legends should be typed on a separate sheet.

- (a) Diagrams should be drawn in Indian ink, about twice the size of the finished block, on Bristol board or stout tracing paper. Photographed diagrams are also accepted. Lettering inside the framework of the diagram should be inserted in Indian ink. Marginal lettering may, if preferred, be inserted lightly in pencil.
- (b) Photographs intended for half-tone reproduction should be on glossy paper. They will be accepted only if found necessary by the Editors.
- (c) Colour plates are unlikely to be accepted unless authors bear the cost.

[Continued on inside back cover

---

Single number, 25s. or \$4.00 net.

Annual subscription, 90s. or \$14.00

---

*Front cover centrepiece: Romulus and Remus nursed by a she-wolf (after the statue in Rome). Artistically anomalous (the Etruscan wolf is early 5th century B.C., the infants are Renaissance additions) and scientifically suspect, yet it symbolises an appealing myth for those, like the contributors to this journal, who owe their living to animals.*

## **THE JOURNAL OF THE AUSTRALIAN INSTITUTE OF AGRICULTURAL SCIENCE**

**CONTENTS—VOL. 33, No. 2. JUNE 1967 INCLUDE**

### *Articles*

Disease Resistance Breeding, by R. D. BROCK

The Effect of Time of Planting on the Performance of Irrigated Winter Crops in the Ord River Valley,  
by D. F. BEECH and M. J. T. NORMAN

### *Presidential Address*

Integration of Northern and Southern Development as an Essential in Australia's Future Prosperity,  
by E. M. HUTTON

### *Letters*

Wheat Cultivation Trails, by G. D. KOHN and R. R. STORRIER; D. R. ROONEY, H. J. SIMS and C. L. TUOHEY

Australian Cotton Production, by J. J. BASINSKI

Townsville Lucerne and Soil Erosion, by J. S. MUSPRATT

### *Theses*

The Formation and Swelling of Complexes between Montmorillonite and Some Organic Compounds,  
by BENNY KIAN THENG

Chloride Exclusion by Clay Mineral Surfaces, by D. G. EDWARDS

Changes in Some Physical and Chemical Properties of the Surface of an Impoverished Red-brown  
Earth Soil under Pasture, by A. L. CLARKE

A Study of the Drainage of Irrigated Sand Dune Using an Electrical Resistance Analogue, by R. G. MEIN

Comparison of the Effects of Arsenic and Amitrole in the Control of *Eriocereus martinii* (Lab.) Ricc.  
by G. DIATLOFF

The Influence of Iron Oxides on the Physical Properties of Soils, by T. L. DESHPANDE

Some Aspects of the Relation between Labile Soil Phosphorus and Plant Responses, by I. F. FERGUS

The Adsorption of Amino Acids and Peptides by Montmorillonite and Illite, by R. H. LABY

The Utilization of Low-quality Roughage, by Janet Z. FOOT

Physiological Responses in Sheep During Eating, and the Energy Cost of Eating, by B. A. YOUNG

## THE BRITISH JOURNAL OF NUTRITION

*Shortened Versions of Titles from Vol. 21, No. 2. June 1967*

- Obituary notice (Mr. A. L. Bacharach).
- Nitrogen balance studies with the milk-fed lamb. 4.
- Nutrient intakes of urban dwellers in Lagos, Nigeria.
- Protein value of diet and neurological manifestations produced in rats by  $\beta,\beta$ -iminodipropionitrile.
- Nitrogen balance studies with the milk-fed lamb. 5.
- Nitrogen balance studies with the milk-fed lamb. 6.
- Vitamin B<sub>12</sub> deficiency and excretion of ether-soluble acids in the rat.
- Transference of flavonol antioxidants from the diet to the tissue lipids of rats.
- Determination of lignin.
- Vitamin C synthesis in rats and iron content of diet.
- Goitre in Ceylon.
- Metabolism of urea in sheep.
- Reproduction and vision in rats, and 3-dehydroretinol.
- Nutritional effects of autoxidized fats in animal diets. 4.
- Effects on sheep of low-sodium hay diet.
- Digestion of heat-damaged protein.
- Interrelations of calcium, fluorine and vitamin D in bone metabolism.
- Concentration of copper in liver of African children with marasmus.
- Dietary fat and milk fat secretion in the cow.
- Changes in skinfolds during pregnancy.
- Carotene and vitamin A in tissue of Ghanaians.
- Effect of a low-protein diet and a cold environment on calorie intake and body composition in the rat.
- Effect of fermentation on nutritive value of foods prepared from rice and grams.
- Lipid peroxides in vitamin E-deficient animals.
- Vitamin E and stress. 4.

*Combined Subscription for The British Journal of Nutrition (4 issues) and  
The Proceedings of the Nutrition Society (2 issues) is £9 per annum.*

**Cambridge University Press, Bentley House, 200 Euston Road, London, N.W.1**

## The Journal of Dairy Research

LIST OF SHORTENED TITLES, VOL. 34, NO. 2, JUNE 1967

*Subscription price per Volume of 3 parts 80s. Single parts 30s.*

- Caeruloplasmin in bovine milk. L. Å. HANSON, E.-G. SAMUELSSON and JAN HOLHGREN.
- Acetaldehyde and diacetyl in lactic cultures. VITTORIO BOTTAZZI and FRANCO DELLAGLIO.
- Gas chromatography-mass spectrometry of fatty acids. RAGNAR RYHAGE.
- n-Pent-1-en-3-ol and n-pent-1-en-3-one in butter. W. STARK, J. F. SMITH and D. A. FORSS.
- Volatile compounds in butter oil. D. A. FORSS, W. STARK and GERDA URBACH.
- Deposits from milk on heated surfaces. H. BURTON.
- Milking throughout pregnancy and milk secretion. A. SMITH, J. V. WHELOCK and F. H. DODD.
- Suspension of milking and milk secretion. J. V. WHELOCK, A. SMITH and F. H. DODD.
- Twice-daily milking of ewes. M. MORAG and S. FOX.
- Review. Water-soluble vitamins in milk and milk products. MARGARET E. GREGORY.
- Cambridge University Press, Bentley House, 200 Euston Road, London, N.W.1

## COMMONWEALTH BUREAU OF ANIMAL NUTRITION

The chief task of the Bureau is the production of *Nutrition Abstracts and Reviews*. In this quarterly journal, which covers the fields of human and animal nutrition, are published about 10,000 bibliographical references a year, over half of them accompanied by informative abstracts. The information contained in the volumes of *Nutrition Abstracts and Reviews* published since 1951, amounting at present to about 100,000 references, is now coded on punched cards for mechanical retrieval. The Bureau is prepared to answer enquiries and provide bibliographies on specific nutritional topics. In addition, sets of cards to be used in conjunction with the abstracts in the journal may be ordered.

*Further information may be obtained from*

**The Director,  
Commonwealth Bureau of Animal Nutrition,  
Bucksburn, Aberdeen, Scotland**

# **ANIMAL BEHAVIOUR**

Volume 15 Part 2

Editors: P. P. G. Bateson and L. R. Aronson

this issue includes:

Alteration of Sex-typical Behaviour of Hamsters in Open Field and Emergence Test by Neo-natal Administration of Androgen or Oestrogen.

The effect of the Immune Tolerant State on Early Behaviour of Domestic Fowl.

Nursing and Suckling Behaviour amongst Clun Forest Ewes and Lambs.

Conditioning in *Drosophila* and *malonogaster*.

Acoustic Communication in a Lycosid Spider (*Lycosa rabida Walckenaer*).

Turn Alternation in Woodlice (*Porcellio scaber*).

The effects of Post-trial Injections of Nicotine on the Learning of an underwater Discrimination Task by Rats.

Acoustic Intensity Limens in the Goldfish:

Behavioural Developmental Studies on Four Genera and Several Strains of Mice.

The effect of Early Experience on the Development of Inter and Intraspecies Social Relationships in the Dog.

**Animal Behaviour** is published three times yearly.  
Annual Subscription 100s: U.S.A. and Canada \$17.50

**Bailliere, Tindall & Cassell**

7 & 8 Henrietta Street London WC2

## ***Escherichia Coli in Animals***

By W. J. SOJKA

*Review Series No. 7 of the*

*Commonwealth Bureau of Animal Health*

This book has been written for veterinary surgeons, both those engaged in research and in the field, comparative pathologists, post-graduate students and laboratory technicians.

Part I deals with the general characteristics of the organism, its biochemical and serological behaviour and other properties; Part II with the disease conditions associated with the organism in cattle, sheep, pigs, poultry, other animals, and, in less detail, in man; and Part III with details of laboratory procedures concerned with media, reagents, biochemical tests, etc.

Price 50s.

quarto

pp. viii + 232

*Available from:*

**Commonwealth Agricultural Bureaux  
Central Sales Branch  
Farnham Royal  
Bucks. England**
