

Go Mobile

CJO Mobile (CJOm) is a streamlined
Cambridge Journals Online (CJO)
for smartphones and other
small mobile devices

- Use CJOm to access all journal content including *FirstView* articles which are published online ahead of print
- Access quickly and easily thanks to simplified design and low resolution images
- Register for content alerts or save searches and articles – they will be available on both CJO and CJOm
- Your device will be detected and automatically directed to CJOm via: journals.cambridge.org

CAMBRIDGE
UNIVERSITY PRESS

INSTRUCTIONS FOR CONTRIBUTORS

SUBMISSION OF MANUSCRIPTS

Manuscripts should be submitted online via our manuscript submission and tracking site, <http://www.editorialmanager.com/psm/>. Full instructions for electronic submission are available directly from this site. To facilitate rapid reviewing, communications for peer review will be electronic and authors will need to supply a current e-mail address when registering to use the system.

Papers for publication from Europe (except those on genetic topics, irrespective of country), and all papers on imaging topics, should be submitted to the UK Office.

Papers from the Americas, Asia, Africa, Australasia and the Middle East (except those dealing with imaging topics), and all papers dealing with genetic topics, irrespective of country, should be sent to US Office.

Generally papers should not have text more than 4500 words in length (excluding these sections) and should not have more than a combined total of 5 tables and/or figures. Papers shorter than these limits are encouraged. For papers of unusual importance the editors may waive these requirements. A structured abstract of no more than 250 words should be given at the beginning of the article using the headings: Background; Methods; Results; Conclusions. The name of an author to whom correspondence should be sent must be indicated and a full postal address given in the footnote. Any acknowledgements should be placed at the end of the text (before the References section).

Declaration of Interest: A statement must be provided in the acknowledgements listing all financial support received for the work and, for all authors, any financial involvement (including employment, fees, share ownership) or affiliation with any organization whose financial interests may be affected by material in the manuscript, or which might potentially bias it. This applies to all papers including editorials and letters to the editor.

Contributors should also note the following:

1. S.I. units should be used throughout in text, figures and tables.
2. Authors should spell out in full any abbreviations used in their manuscripts.
3. Foreign quotations and phrases should be followed by a translation.
4. If necessary, guidelines for statistical presentation may be found in: **Altman DG, Gore SM, Gardner MJ & Pocock SJ** (1983). Statistical guidelines for contributors to medical journals. *British Medical Journal* **286**, 1489–1493.

REFERENCES (1) The Harvard (author-date) system should be used in the text and a complete list of References cited given at the end of the article. In a text citation of a work by more than two authors cite the first author's name followed by et al. (but the names of all of the authors should be given in the References section). Where several references are cited together they should be listed in rising date order. (2) The References section should be supplied in alphabetical order (authors' names in **bold**, journal titles in full), following the text. Some examples follow:

Miller PM, Byrne M, Hodges A, Lawrie SM, Johnstone EC (2002). Childhood behaviour, psychotic symptoms and psychosis onset in young people at high risk of schizophrenia: early findings from the Edinburgh high risk study. *Psychological Medicine* **32**, 173–179.

Cleckley HJ (1941). *The Mask of Sanity*, 2nd edn. Mosby: St. Louis, MO.

Brewer WJ, Wood SJ, DeLuca C, Pantelis C (2006). Models of olfaction for exploring neurodevelopment. In *Olfaction and the Brain* (ed. W. J. Brewer, D. Castle and C. Pantelis), pp. 97–121. Cambridge University Press: Cambridge.

(3) Online citations

doi (when published online prior to printed issue)

Lauritsen MB, Pedersen CB, Mortensen CB (2004). The incidence and prevalence of pervasive developmental disorders: a Danish population-based study. *Psychological Medicine*. Published online: 21 October 2004. doi:10.1017/S0033291704002387.

[Authors are requested to print-out and keep a copy of any online-only material, in case the URL changes or is no longer maintained.]

FIGURES AND TABLES Only essential figures and tables should be included. Further tables, figures, photographs and appendices, may be included with the online version on the journal website. To ensure that your figures are reproduced to the highest possible standards, Cambridge Journals recommends the following formats and resolutions for supplying electronic figures. Please ensure that your figures are saved at final publication size and are in our recommended file formats. Following these guidelines will result in high quality images being reproduced in both the print and the online versions of the journal. **Line artwork:** Format: tif or eps, Colour mode: black and white (also known as 1-bit), Resolution: 1200 dpi; **Combination artwork (line/tone):** Format: tif or eps, Colour mode: grayscale (also known as 8-bit), Resolution: 800 dpi; **Black and white halftone artwork:** Format: tif, Colour mode: grayscale (also known as 8-bit), Resolution: 300 dpi; **Colour halftone artwork:** Format: tif, Colour mode: CMYK colour, Resolution: 300 dpi. All photographs, graphs, and diagrams should be referred to as figures and should be numbered consecutively in Arabic numerals. Captions for figures should be typed double-spaced on separate sheets. *Tables* Tables should be numbered consecutively in the text in Arabic numerals and each typed on a separate sheet after the References section. Titles should be typed above the table.

PROOFS AND OFFPRINTS Page proofs will be sent to the author designated to receive correspondence. corrections other than to printer's errors may be charged to the author. The corresponding author of each paper will receive a PDF file of their article and hard copy offprints may be purchased if they are ordered on the form supplied when the proof is returned.

PSYCHOLOGICAL MEDICINE

CONTENTS

REVIEW ARTICLE

Meta-analysis of volumetric abnormalities in cortico-striatal-pallidal-thalamic circuits in major depressive disorder

Bora E, Harrison BJ, Davey CG, Yücel M & Pantelis C 671

ORIGINAL ARTICLES

An increase in depressive symptoms after myocardial infarction predicts new cardiac events irrespective of depressive symptoms before myocardial infarction

Zuidersma M, Ormel J, Conradi HJ & de Jonge P 683

Alcohol-use disorder severity predicts first-incidence of depressive disorders

Boschloo L, van den Brink W, Penninx BWJH, Wall MM & Hasin DS 695

Cannabis and cognitive performance in psychosis: a cross-sectional study in patients with non-affective psychotic illness and their unaffected siblings

Meijer JH, Dekker N, Koeter MW, Quee PJ, van Beveren NJM, Meijer CJ & Genetic Risk and Outcome of Psychosis (GROUP) Investigators 705

Longitudinal predictors of past-year non-suicidal self-injury and motives among college students

Wilcox HC, Arria AM, Caldeira KM, Vincent KB, Pinchevsky GM & O'Grady KE 717

Shared characteristics of suicides and other unnatural deaths following non-fatal self-harm? A multicentre study of risk factors

Bergen H, Hawton K, Kapur N, Cooper J, Steeg S, Ness J & Waters K 727

Meta-analyses of cognitive and motor function in youth aged 16 years and younger who subsequently develop schizophrenia

Dickson H, Laurens KR, Cullen AE & Hodgins S 743

Schizophrenia-related *RGS4* gene variations specifically disrupt prefrontal control of saccadic eye movements

Kattoulas E, Stefanis NC, Avramopoulos D, Stefanis CN, Evdokimidis I & Smyrnis N 757

The influence of gender on clinical and social characteristics of patients at psychosis onset: a report from the Psychosis Incident Cohort Outcome Study (PICOS)

Bertani M, Lasalvia A, Bonetto C, Tosato S, Cristofalo D, Bissoli S, De Santi K, Mazzoncini R, Lazzarotto L, Santi M, Sale A, Scalabrin D, Abate M, Tansella M & Ruggeri M 769

Dissociation and emotion regulation in borderline personality disorder

Barnow S, Limberg A, Stopsack M, Spitzer C, Grabe HJ, Freyberger HJ & Hamm A 783

Dysfunctional cognitions in personality pathology: the structure and validity of the Personality Belief Questionnaire

Fournier JC, DeRubeis RJ & Beck AT 795

Rapid response predicts 12-month post-treatment outcomes in binge-eating disorder: theoretical and clinical implications

Grilo CM, White MA, Wilson GT, Gueorguieva R & Masheb RM 807

Increased plasticity of the bodily self in eating disorders

Eshkevari E, Rieger E, Longo MR, Haggard P & Treasure J 819

The contribution of work and non-work stressors to common mental disorders in the 2007 Adult Psychiatric Morbidity Survey

Clark C, Pike C, McManus S, Harris J, Bebbington P, Brugha T, Jenkins R, Meltzer H, Weich S & Stansfeld S 829

Increased risk of mortality associated with social isolation in older men: only when feeling lonely? Results from the Amsterdam Study of the Elderly (AMSTEL)

Holwerda TJ, Beekman ATF, Deeg DJH, Stek ML, van Tilburg TG, Visser PJ, Schmand B, Jonker C & Schoevers RA 843

Insecure attachment and frequent attendance in primary care: a longitudinal cohort study of medically unexplained symptom presentations in ten UK general practices

Taylor RE, Marshall T, Mann A & Goldberg DP 855

Simultaneous evaluation of the harms and benefits of treatments in randomized clinical trials: demonstration of a new approach

Frank E, Kupfer DJ, Rucci P, Lotz-Wallace M, Levenson J, Fournier J & Kraemer HC 865

The lifetime impact of attention deficit hyperactivity disorder: results from the National Epidemiologic Survey on Alcohol and Related Conditions (NESARC)

Bernardi S, Faraone SV, Cortese S, Kerridge BT, Pallanti S, Wang S & Blanco C 875
