A Pegasus Title

**A Complete Guide to
16 and 35mm
Film Production**

by Kenneth H. Roberts and
Win Sharples, Jr.

\$15.00 cloth \$6.95 paper
559 pages

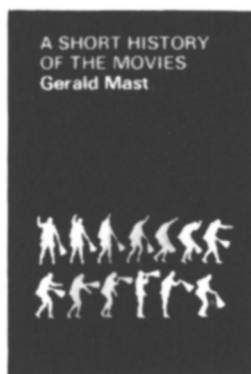

A basic step-by-step guide to the art and craft of contemporary film-making, this brilliant new volume covers all aspects of technical film production in 35 and 16 millimeters. It serves as a complete guide for the professional film maker, as well as being a detailed introduction for the serious student of film.

"In the future, when students ask me where to learn the basic elements of film production, I'm going to send them to this book. Absolutely first rate."

Thomas W. Benson
Pennsylvania State University

"... Roberts and Sharples took on a Herculean task; and the results are most impressive! It is a complete text as well as an excellent handbook for the 'do-it-yourselfer.' It was worth waiting for."

George W. McKinney
Wesleyan College

by Gerald Mast

\$12.95 cloth \$4.95 paper
463 pages

Gerald Mast traces the evolution of the film from its very beginning, focusing on the films of the great movie directors who had a personal and complex vision of the human experience and a mastery of their craft. The author also examines the film as business, as technology, and as a mirror of the audience's taste.

"At last. This is the book we have all been waiting for. I expect it will shortly become the standard film-historical text for a good many years.

Standish D. Lawder
Yale University

"This is a superlative short history of film and a much needed volume . . . chock-full of information, good reading, and good writing and should be on everyone's basic film bookshelf."

FOR PEOPLE WHO NEVER TAKE A CURTAIN CALL

Your work goes on behind-the-scenes, on the catwalk, at the control panel, or in the wardrobe room. You don't get the applause, or the rave notices — just the professional satisfaction of a job well done. But without your technical experience and skill there would be no show, no applause, no theatre. And now there is a magazine just for you, for the person involved in the technical aspects of theatre, **THEATRE CRAFTS**.

THEATRE CRAFTS is addressed to the people responsible for equipping, mounting and maintaining theatrical productions. It is for the person responsible for lighting, sound, set design, costuming, direction and the overall supervision of shows.

Start **THEATRE CRAFTS** coming your way with the latest issue. Be best informed in the latest developments in the technical theatre.

"ACT MAY REVOLUTIONIZE AMERICAN THEATRE PRACTICE!"

Walter Kerr, N. Y. Times

LEE STRASBERG THEATRE STUDIOS

For over 2,000 years the problem of the actor has been misunderstood. Acting has been considered either from a critical or interpretative point of view, or has been superficially divided into an external or internal approach. We have had great acting, but no knowledge of how it was achieved or of the procedures necessary to recreate it. Therefore, it was impossible to create a proper foundation for the training of the actor.

Today, through our expanding knowledge of how the human organism reacts, the process of conditioning, the creation of habits, the interaction between the conscious and subconscious, the process of creative imagination, and the discovery of the basic elements in acting (as defined by Stanislavski), we are able, for the first time, to understand these processes and create that foundation for the actor's training.

The actor needs a basic training. This is achieved not by the simple exposure to the public, nor by the necessary but limited emphasis on voice, speech, and physical dexterity. These train the tools but not the talent, which is dependent on the development of concentration, will and belief, imagination, fantasy, improvisation and spontaneity, and behavior—the logical and truthful carrying out of actions and adjustments.

Acting is the most personal of our crafts. The make-up of a human being—his physical, mental, and emotional habits—influence his acting to a much greater extent than commonly recognized. The work with the actor therefore demands an individual approach to each actor.

As Artistic Director of the Actors Studio and Co-founder of the Group Theatre, I have, for many years, been aware of the need to offer training in acting and the theatre arts to a wider public. But the very special and individual nature of the work has, in the past, confined my instructions to the membership of the Studio and to my private classes.

Now, finally, the emergence of teaching talents, trained by me, which I can assume full responsibility for, direct supervision of, and active participation with, makes it possible to answer these demands, by the establishment of a professional studio school, an Institute for Performing Arts.

OSCAR MANDEL The Collected Plays

12 fascinating plays
-- high tragedy in GENERAL AUDAX -- low farce in
THE PATAL FRENCH DENTIST -- political satire in
HONEST URUBAMBA -- a jab at science in PROFESSOR
SNAFFLE'S POLYPON -- fantasy in OF ANGELS AND
ESKIMOS -- God's plenty (and the devil's too).

"Intelligent, witty,
polished, and literate...delightful to read and
hear...a first-rate talent..." (*Drama & Theatre*)

"Mandel...is without
doubt the most original playwright alive in
America." (Cynthia Ozick)

"I find in Mr. Man-
del's work a healthy, elegant intelligence
everywhere revealing itself. These plays are
delightfully original. They are a civilizing
force." (Prof. Murray Krieger)

Though most of these plays have appeared on
stage and television or in print since the early
sixties, they are now available in toto for the
first time and specially revised for this
edition.

Two volumes, available separately, priced at
\$2.95 paper or \$7.50 cloth per volume, plus
30 cents per book for mail and handling.

The Alexander Technique is a method of achieving an improved and dynamic use of the self through conscious awareness of the body in movement.

For the performing artist the Alexander Technique offers an exciting means of self-exploration and change:

As the actor becomes freed from postural idiosyncracies and personal habits of use, he gains freedom to make choices in character portrayal.

As the musician eliminates habitual faulty patterns of muscle tension, he can more readily achieve his musical and technical potential.

As the dancer develops greater kinesthetic awareness, he can achieve the freedom and versatility of movement made possible by a released flow of energy and a freely balanced musculature.

The Production of Medieval Church Music-Drama

By FLETCHER COLLINS, JR., *Mary Baldwin College*. xiii, 356 pp., 5 color, and 70 black and white illus., index. \$17.50

This inquiry considers sixteen of the music-dramas which remain from the repertory of the medieval church. In order to determine how these plays might have been produced, Collins has spent many years searching the entire realm of medieval visual art. Here he presents the results of his research and explains the production of medieval drama as it is enlightened by contemporary visual arts. Many illustrations of the art works on which Collins has based his conclusions are included. His comprehensive interpretations allow modern productions of the plays to fulfill as closely as possible the original intentions of their authors. Accurate visualization and understanding of the art form of medieval music-drama is now possible for the first time in the modern world.

Jacobean Dramatic Perspectives

By ARTHUR C. KIRSCH, *University of Virginia*. 160 pp. (tnt.), index. \$7.50

Critics of Jacobean plays often treat them simply as extensions of Elizabethan models. This study shows how they may be better understood when more emphasis is placed upon what makes them distinctive. The author argues that the development and popularity of Fletcherian tragicomedy, satiric comedy, and coterie comedy reflected significant changes in the Jacobean theater and that an appreciation of certain characteristics of these genres, notably their pervasive theatrical self-consciousness, can help us both evaluate and interpret much of the drama of the period in a fresh way. Among the specific relationships Mr. Kirsch explores are the relevance of Fletcherian premises to the problem comedies and last plays of Shakespeare, as well as to the ostensive tragedies of Webster and Ford, and the importance of coterie dramaturgy, with its morality play inheritance, in Middleton's development.

Shakespeare

The Dark Comedies to the Last Plays

From Satire to Celebration

By R. A. FOAKES, *University of Kent, Canterbury*. 186 pp., index. \$5.75

Critics have hitherto tended to study Shakespeare's last plays in terms of their symbolic patterning, as if they were purely literary texts. Professor Foakes here seeks to understand and explain the last plays as dramatic structures for the stage. Starting from the dark comedies, he shows the ways in which Shakespeare was affected by the new techniques and possibilities for drama opened up by the innovations of the years after 1600, notably the rise of the children's companies. The main line of development of Shakespeare's dramatic skills is shown as leading from the dark comedies, through the late tragedies like *Coriolanus*, to the last plays.

BUILDING A CHARACTER

By **CONSTANTIN STANISLAVSKI**

Introduction by JOSHUA LOGAN

Translated and with a Foreword by
ELIZABETH REYNOLDS HAPGOOD

The second part of Stanislavski's great trilogy on the art of acting.

"An Actor Prepares describes the basis of Stanislavski's acting-art; the 'inner technique' whereby the actor learns to control his sensations, emotions, purposes, and ultimately his creative imagination, in order to re-create the characters and situations of drama. . . . In *Building a Character*, Stanislavski, assuming the reader's familiarity with the 'inner technique,' proceeds to study costume and the wearing of costume, bodily movement, voice, speech and the use of language, and tempo and rhythm—the more external but essential techniques whereby the actor learns to use his physical instrument. . . . He expounds them as only a master can: i.e., with the insight and authority of talent plus experience. Anyone who attempts to train actors or to direct plays will find here a great mine of practical wisdom, all informed by Stanislavski's grasp of the art itself."
—Francis Fergusson, *Educational Theatre Journal*.

"Indispensable for the actor, stimulating for the layman."—*The Nation*.

"Essential to any student of the theatre."—*Library Journal*.

"There is much here that would be of interest to any creative artist."—*The Writer*.

"A volume of permanent significance . . . translated with brilliance. . . . The chapter on Diction and Singing offers an analysis of basic problems of singing that is unrivaled."—*Musical America*.

WE'RE IN THE MONEY
DEPRESSION AMERICA AND ITS FILMS
Andrew Bergman

During the years of the Great Depression, 70 million Americans went to the movies every week. Setting Hollywood's products against the background of economic and social disaster, Mr. Bergman traces the assumptions and myths embodied in the movies and demonstrates the subtle ways in which they helped the nation's institutions and values survive the decade intact.

COCTEAU:
BEAUTY AND THE BEAST
Robert Morris Hammond, Editor

This is the first textual publication of "Beauty and the Beast", derived from the only known extant copy of the shooting script. An extensive introduction records the discrepancies between the various versions and prints of the film and the original script. The text is presented in bi-lingual (French-English) format.

SO YOU'RE CONFUSED ABOUT YOUR ATA MEMBERSHIP?

It's certainly more complicated than it used to be.

Now that the Divisions are setting their own membership dues, publishing their own journals and providing their own benefits, the old price structure has changed. Membership in more than one division requires dues payment in more than one division. Each divisional membership includes membership in the American Theatre Association, which you pay only once.

AMERICAN COMMUNITY THEATRE ASSOCIATION includes:

Onstage, ACTA newsletter, projects, Community Theatre Festival, Floating Conference, International Amateur Theatre Festival, Placement service privileges, technical and consultative services, ATA membership and convention privileges.
Individual \$20.00 Student \$10.00 Family \$35.00 Organization \$50.00

CHILDREN'S THEATRE ASSOCIATION includes:

Children's Theatre Review, projects, International Children's Theatre Association, Placement service privileges, technical and consultative services, ATA membership and convention privileges.
Individual \$17.50 Student \$10.00 Family \$35.00 Organization \$50.00

SECONDARY SCHOOL THEATRE ASSOCIATION includes:

Secondary School Theatre, projects, Placement service privileges, technical and consultative services, ATA membership and convention privileges.
Individual \$17.50 Student \$10.00 Family \$35.00 Organization \$50.00

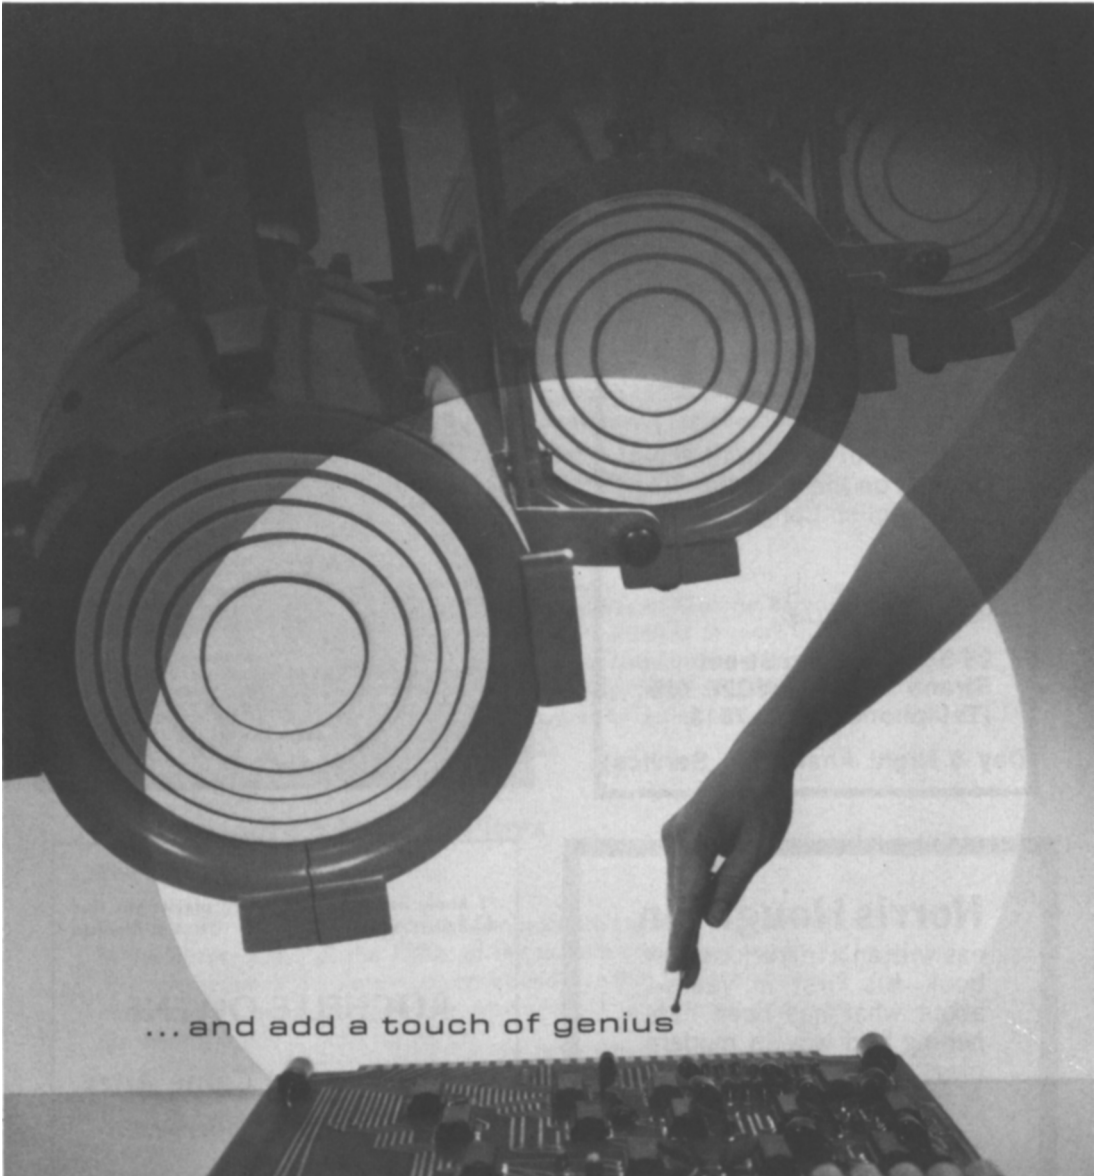

UNIVERSITY & COLLEGE THEATRE ASSOCIATION includes:

Educational Theatre Journal, UCTA newsletter, projects, College Theatre Festival, Placement service privileges, technical and consultative services, ATA membership and convention privileges.
Individual \$20.00 Student \$10.00 Family \$35.00 Organization \$50.00

AMERICAN THEATRE ASSOCIATION membership is designed for those with

only a general interest in non-commercial theatre and carries voting membership for national officers, Theatre News, annual Directory and convention privileges.
Individual \$10.00 Family \$12.50 Organization \$30.00
Sustaining Organization \$100.00

Multiple division membership in each category is available at the difference between the division dues and the corresponding dues in ATA. Multiple division membership for students is \$5.00 for each additional division.

The Dramatic World of Harold Pinter

Its Basis in Ritual

By Katherine H. Burkman. A critical examination of the compelling art of a major modern dramatist, whose plays evolve in an atmosphere of mystery in which the surfaces of life are realistically detailed but the underlying patterns partake of those profound rhythms of sacrificial destruction and renewal that have always informed the best of drama.

Bernard Shaw and the Aesthetes

By Elsie B. Adams. This examination of the plays of George Bernard Shaw as the product of a unique artistic temperament at work in an intellectual climate that was shaped, to no inconsiderable extent, by the aesthetic movement of the nineteenth century, places the dramatist more precisely within his own time and serves to define more exactly that special sensibility that shaped his own.

\$8.00

Shakespeare's History Plays

The Family and the State

By Robert B. Pierce. An analysis of Shakespeare's constant elaboration, in the history plays of the 1590s, of the ancient concept of the family as a microcosm of the state — a correspondence that he developed into an ever more subtle and effective dramatic technique and in which he discovered a public basis for his art.

The Reminiscences of Alexander Dyce

Edited, with a Biography, by Richard J. Schrader. The first publication of the memoirs of the distinguished and gregarious man of letters who crossed paths with nearly everyone of consequence in the political, literary, and artistic life of England during the first half of the nineteenth century, and whose vivid reports on persons met, plays seen, and parties attended constitute a rich and entertaining account of a fascinating age, rendered by a man of humane wit, rare insight, and remarkable taste and sensitivity.

When you're considering Kliegl's Q-File memory control system, ask an expert. Anywhere in the world.

Sir Robert Harcourt Seymour
Expert
United Kingdom

"I do think the Q-file does some awfully clever tricks. Why else would the B.B.C. have bought so bloody many of them? Take that fade-within-fade business, where just a single bloke on the console runs up to four fades, up and down, at different rates, all at the same time. Worth the price of the machine alone. Even in dollars."

Tiger Wilson
Graduate Expert
U.S.A.

"There is no way for those other memory systems to even be in the same ball park with Q-File, man. I mean can they zip up 104 cues in two minutes, or pick up individual cues and pile 'em on or subtract them, one after the other, automatically, in memory. Can they do that, huh? So if you're gonna do it, man, get it together with Q-File."

M. Henri Navarre
Expert
France

"Le Q-File c'est magnifique! Il parle francais et anglais pour la Canadian Broadcasting qui vient d'en acheter une. Et pour pouvoir mettre tous les circuits au meme aiveau en appuyant sur un seul bouton semble miraculeux."

Herr Beleuchtungsmeister
Oberexpert
Germany

"Das Q-File system ist sehr logisch, praezise and flexibel. Wir habea eine Q-File hier welche ausgezeichnet gearbeitet hat, seitdem sie installiert wurde. Ich hoffe das sie weiter arbeiten wird—sonst..."

Generalissimo Augusto Mendoza
Ruling Expert
South America

"Es la exquisita elegancia de Q-File la que nos conduce al éxtasis supremo. No tiene intinidad do potenciometros que confundan o obstruyan. Solo preciosos botones y fabulosos controles maestros. ¡Simplemente fantástico!"

Q-FILE, THE MOST RELIABLE LIGHTING CONTROL MEMORY SYSTEM IN THE WORLD, IS NOW OPERATING SUCCESSFULLY IN 32 DIFFERENT LOCATIONS.
