| HAMMERTON, JOHN L. and EDWARDS, R. S. The yields of barley following leys based on different grass species. (With Five Text-figures) | 3 |
| SABA, A. Plasma cortisol levels in pregnant ewes | 11 |
| ENYI, B. A. C. Soil moisture as a factor influencing the degree of response of an upland rice plant to increasing supply of nitrogen and phosphorus. (With Two Text-figures) | 15 |
| SEEBECK, R. M. A comparison of the progeny of three breeds of fat lamb sires | 19 |
| GORDON, JOHN G. The effect of water deprivation upon the rumination behaviour of housed sheep | 31 |
| CLAPPERTON, J. L., JOYCE, J. P. and BLAXTER, K. L. Estimates of the contribution of solar radiation to the thermal exchanges of sheep at a latitude of 55° North. (With Fourteen Text-figures) | 37 |
| GOUWS, L. and KISTNER, A. Bacteria of the ovine rumen. IV. Effect of change of diet on the predominant type of cellulose-digesting bacteria. (With Three Text-figures) | 51 |
| ROBINSON, D. W., PRESCOTT, J. H. D. and LEWIS, D. The protein and energy nutrition of the bacon pig. IV. Digestible energy values of cereals in pig diets. (With One Text-figure) | 59 |
| BATH, I. H. and ROOK, J. A. F. The evaluation of cattle foods and diets in terms of the ruminal concentration of volatile fatty acids. II. Roughages and succulents. (With Three Text-figures) | 67 |
| ZALESKI, A. White clover investigations. II. Effect of companion grasses and methods of sowing on seed production | 77 |
| AMIR, D. and VOLCANI, R. The sexual season of the Awassi fat-tailed ewe. (With Two Text-figures) | 83 |
| BRAUDE, R., LYON, MARILYN R., and ROWELL, J. G. Comparison of three practical rations for growing pigs | 87 |
| WIDDOWSON, F. V., PENNY, A. and WILLIAMS, R. J. B. An experiment measuring effects of N, P and K fertilizers on yield and N, P and K contents of grass. (With Two Text-figures) | 93 |
| DEVINE, J. R. and HOLMES, M. R. J. Field experiments comparing winter and spring applications of ammonium sulphate, ammonium nitrate, calcium nitrate and urea to grassland. (With Two Text-figures) | 101 |
| HEMINGWAY, R. G., RITCHIE, N. S., BROWN, NORA A., and PEART, J. N. Effects of grazing management on plasma calcium and magnesium concentrations of ewes in early lactation. (With Two Text-figures) | 109 |
| AMIR, D. and VOLCANI, R. Seasonal fluctuations in the sexual activity of Awassi, German Mutton Merino, Corriedale, Border-Leicester and Dorset Horn rams. I. Seasonal changes in semen plasma volume and its fructose and citric acid concentrations. (With Two Text-figures) | 115 |
| AMIR, D. and VOLCANI, R. Seasonal fluctuations in the sexual activity of Awassi, German Mutton Merino, Corriedale, Border-Leicester and Dorset Horn rams. II. Seasonal changes in semen characteristics. (With Four Text-figures) | 121 |
| AMIR, D., GENIZI, A. and VOLCANI, R. Seasonal fluctuations in the sexual activity of Awassi, German Mutton Merino, Corriedale, Border-Leicester and Dorset Horn rams. III. Seasonal changes in the fructolytic and respiratory rate of spermatozoa. (With Two Text-figures) | 127 |
| AMIR, D. and VOLCANI, R. Seasonal fluctuations in the sexual activity of Awassi, German Mutton Merino, Corriedale, Border-Leicester and Dorset Horn rams. IV. Seasonal changes in the spermatogenic activity of Awassi rams and their relationship to the fructose and citric acid contents of semen. (With Two Text-figures) | 131 |
| BROWN, W. O. and KERR, J. A. M. Losses in the conservation of grassland herbage in lined trench silos. I. A comparison of long and lacerated silages made by the warm fermentation process | 135 |
| BROWN, W. O. and KERR, J. A. M. Losses in the conservation of grassland herbage in lined trench silos. II. Comparison of lacerated silages of low and high dry-matter content made by the cold fermentation process | 143 |

The Journal of Agricultural Science is issued every other month in parts of about 136 pages with plates and figures, three parts constituting a volume. Two volumes yearly.

Quotations for available back volumes and parts may be obtained on application to the Cambridge University Press.

Papers for publication should be typewritten or written in a very legible hand, and may be sent to Dr G. D. H. BELL, Plant Breeding Institute, Maris Lane, Trumpington, Cambridge, or to the Associate Editors. Other communications should be addressed to the University Press, Cambridge.

If Plates in excess of one per 24 pages of text or coloured plates are submitted the author may be asked to bear the cost of such Plates.

The lettering on text figures should be clear of the illustration and indicating by blue pencilled lines the desired position.

Bibliography should be given in the form of 'References' in the following form:

Surname of authors (in alphabetical order), initials, date of publication (in brackets), title of Journal (abbreviated according to the *World List of Scientific Periodicals*), volume and page of reference. In the text a reference should be quoted by the author's name and date (in brackets).

All names of Journals and books are set in italics; they should be indicated on the typescript by underlining.

Contributors will receive twenty-five copies of their papers free.

The subscription price, payable in advance, is 75s. net per volume (post free); single numbers 32s. 6d. net. Subscriptions may be sent to any bookseller, or to The Cambridge University Press, Bentley House, 200 Euston Road, London, N.W. 1.

Subscription price in the U.S.A. is \$13.50 per volume; single number \$5.50. Enquiries should be addressed to the Cambridge University Press, American Branch, 32 East 57th Street, New York, N.Y. 10022.
