

Subject Index to Volume 35

A

Acardius, 77
Age, 7
Amniocentesis, serial, 107
Analysis
 – pedigree, 35
 – shape, 179
Anomalies, congenital, 35, 99, 167
Asymmetry, 179
Australia, 61

B

Bereavement counselling, 115
Blighted ovum, 91
Blood pressure, 7

C

Coagulation, intrauterine, 91
Computerized tomography, 77
Congenital anomalies, 35, 167
Cotwin, surviving, 91, 115
Counselling, bereavement, 115
Creatine kinase, 23
Craniofacial genetics, 179

D

Delivery, preterm, 193
Demography, 61
Diet, 201

Disease registers, 49

E

Epidemiology, 167

F

Facial Morphology, 179
Familial aggregation, 7
Family study, 7
Fetus papyraceus, 91

G

Genetic factors, 23
Genetics, craniofacial, 179
Groups, self-help, 115

H

Heritability, 49
Hypertension, 7

I

Incidence, twinning, 61
Intrauterine coagulation, 91

M

Malformation, congenital, 35, 99, 167
Membranes, spontaneous rupture, 193

366 Subject Index

Mirror-imaging, 179

Model fitting, 7

Monoamniotic twins, 99

Monozygotic twin pregnancy, 77, 107

Morphology, facial, 179

Mortality, perinatal, 99

O

Offspring of twins, 35

P

Pedigree analysis, 35

Perinatal mortality, 99, 115

Polyhydramnios, acute, 107

Population registry, 167

Pregnancy, MZ twins, 77, 107

Prematurity, 99

Preterm delivery, 193

R

Registers

– disease, 49

– population, 167

Repeatability, 23

S

Shape analysis, 179

Secular trend, 61

Self-help groups, 115

Serial amniocentesis, 107

Sex ratio, 193

Surviving twin, 91, 115

T

Tooth size, 179

Transfusion syndrome, twin, 91, 107

Twin

– pregnancy, 77, 107

– transfusion syndrome, 91, 107

– surviving, 91, 115

– vanishing, 91

– zygosity, 193

Twinning, 3

– heredity of, 3

– incidence, 61

– rates, 201

Twins, 23, 49, 167, 179

– monoamniotic, 99

– offspring of, 35

U

Ultrasound, 77

V

Vanishing twin, 91

Z

Zygosity

– twin, 193

– unknown, 49
