Conquest and Empire

The Reign of Alexander the Great

A. B. BOSWORTH

An exploration of the process and consequences of the campaigns of Alexander the Great of Macedon (336-323 BC), focusing on the effect of his monarchy upon the world of his day. A detailed running narrative of the actual campaigns is complemented by thematic studies on aspects of the administration of the empire and the army as well as on the role and impact of Macedonian suzerainty.

Beyond Anger

A Study of Juvenal's Third Book of Satires

SUSAN H. BRAUND

In this detailed literary analysis of the three poems which make up Juvenal's third book of *Satires* (nos. 7, 8 & 9), Dr Braund pays particular attention to the satiric techniques, arguing that Juvenal uses a new, ironic *persona*, which makes his satire more indirect, subtle and double-edged than does the angry approach found in the earlier books.

Substance, Form and Psyche

An Aristotelian Metaphysics

MONTGOMERY FURTH

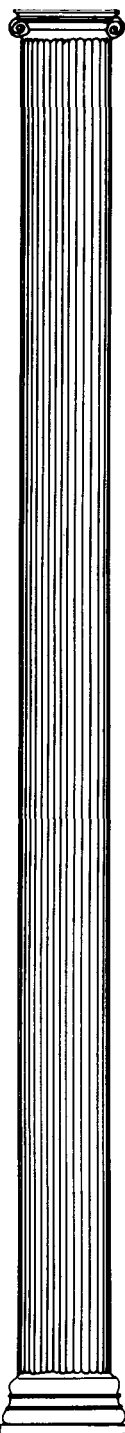

This book presents a complete rethinking of Aristotle's metaphysical theory of material substances, through treatment of the conceptions of substance and non-substance in *Categories*, *de Anima* and *Metaphysics*. The main aim of the study is to recreate in modern imagination a vivid, intuitive understanding of the Aristotelian concept of material substances.

The Horsemen of Athens

Glenn Richard Bugh

Glenn Bugh provides a comprehensive discussion of a subject that has not been treated in full since the last century: the history of the Athenian cavalry. Integrated into a narrative history of the cavalry from the Archaic period through the Hellenistic age is a detailed analysis of a military and social organization, the members of which came predominantly from the upper classes of Athens. Bugh demonstrates that this organization was not merely a military institution but an aristocratic social class with political expectations and fluctuating loyalties to the Athenian democracy.

"I am greatly impressed with the quality and importance of this book. No substantial work has been done on the Athenian cavalry since the late nineteenth century, although a very considerable body of new evidence has become available. Bugh is to be commended for taking on a topic of exceptional interest and treating it with a thoroughness and insight worthy of the subject." —*John H. Kroll, University of Texas*

The Coming of the Greeks Indo-European Conquests in the Aegean and the Near East

Robert Drews

When did the Indo-Europeans enter the lands that they occupied during historical times? And more specifically when did the Greeks come to Greece? Robert Drews brings together the evidence—historical, linguistic, and archaeological—and concludes that these events occurred later than has generally been supposed. This argument revives the once-prevalent belief that Proto-Indo-European speakers were able to take over much of the ancient world because of their prowess as chariot warriors and also lends support to the recent proposal that the Indo-European homeland lay to the east rather than to the north of Greece.

"Drews brings together all the evidence from Greece and that from the Ancient Near East in order to demonstrate that one cannot be understood apart from the other. He gives the best presentation I have seen of the Indo-European problem, the history of research on Proto-Indo-European and Indo-Europeans, and the present state of scholarship on all questions relating to early Indo-European migrations."

The Rhetoric of Space

Literary and Artistic Representations of Landscape in Republican and Augustan Rome

Eleanor Leach

The Romans were fascinated with landscape—with a love for the organization of space that can be seen as clearly in their pictorial arts as in their arrangement of public and private architecture. In this interdisciplinary work Eleanor Leach links the depiction of landscape in Roman literature and in Roman painting during a formative period of Roman art. In relating the two fields, she focuses on the response of audiences, particularly the way in which perceptions shaped by one of the arts are transferred to the other.

"This book is an education for the reader of Latin poetry and the historian of Roman painting. It is truly an interdisciplinary work of scholarship, written with equal expertise in art history and classical philology." —James Tatum, *Dartmouth College*

Memphis under the Ptolemies

Dorothy J. Thompson

The city of Memphis on the Nile, which had often served as capital in the long period preceding Egypt's conquest by Alexander the Great, became the country's "second city" following the founding of Alexandria. Drawing on archaeological findings and on an unusual combination of Greek and Egyptian evidence, Dorothy Thompson examines the city's economic life and the character of its multi-racial society in the era from Alexander to Augustus. *Memphis under the Ptolemies* will interest students of intercultural relations and will be essential reading for Egyptologists, papyrologists, and historians of the Hellenistic world, including those concerned with religion.

"This a path-breaking work that will be of permanent value. It is a monument of sound scholarship, both precise and wide-ranging. I cannot think of another major work of synthesis by a classical historian that shows such profound knowledge of the Egyptian evidence as well as of the Greek."

Socrates on Trial

Thomas C. Brickhouse and Nicholas D. Smith

Thomas Brickhouse and Nicholas Smith offer a comprehensive historical and philosophical interpretation of, and commentary on, one of Plato's most widely read works, the *Apology of Socrates*. Virtually every modern interpretation characterizes some part of what Socrates says in the *Apology* as purposefully irrelevant or even antithetical to convincing the jury to acquit him at his trial. This book, by contrast, argues persuasively that Socrates offers a sincere and well-reasoned defense against the charges he faces.

"This book stands head and shoulders over other recent treatments of Plato's *Apology*. It should become the standard work in this area." —Richard Kraut, *University of Illinois at Chicago*

Prolegomena to Homer, 1795

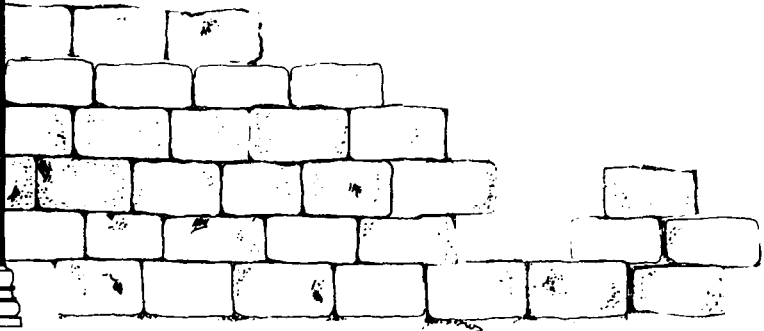

F. A. Wolf

Translated with introduction and notes by Anthony Grafton, Glenn W. Most, and James E. G. Zetzel

"Wolf's *Prolegomena* has long been recognized as one of the most important books in the history of classical studies. . . . This English translation, with a detailed historical introduction, makes it fully accessible to the modern reader. . . . The analytical and unitarian interpretations of Homer have, indeed, been argued over ever since. It is gratifying that the work which started this famous controversy is available once again."

Philosopher-Kings

The Argument of Plato's *Republic*
C.D.C. Reeve

The distinctive aim of *Philosopher-Kings* is to show that the *Republic* is not the flawed patchwork it is usually made out to be by interpreters, but a deeply consistent and systematic work, which raises fundamental problems for philosophy and develops powerful and probing solutions to them. The book's central innovative thesis is that Plato's psychology, more specifically his theory of desires, holds the key to this, his most ambitious work.

"Philosopher-Kings is a remarkable book. . . . It constitutes the most ambitious contemporary reading of the *Republic*, the most persistent, single-minded effort to give a unified reading of this immensely complex text. . . . it is innovative in its attention not to a particular passage, argument, or theory on Plato's part, but to the whole of the *Republic* as a deeply coherent text, with no loose ends." —Alexander Nehamas, University of Pennsylvania

Eros the Bittersweet

An Essay
Anne Carson

"The author combines critical in-sight, poetic sensibility, and intimate knowledge of classical literature to discuss eros, admittedly one of the richest themes common to both literary imagination and philosophical quest. The book consists of thirty-four subtly interlaced essays exploring a vast range of emotional and cultural expressions of human desire in association with pleasure and pain." —*Choice*

Jewish Symbols in the Greco-Roman Period

Erwin R. Goodenough
Edited, with a foreword,
by Jacob Neusner

This volume presents to a new generation of readers the most important portions of Erwin Goodenough's classic thirteen-volume work, a magisterial attempt to encompass human spiritual history in general through the study of Jewish symbols in particular. Revealing that the Jewish religion of the period was much more varied and complex than the extant Talmudic literature would lead us to believe, Goodenough presented evidence for the existence of a Hellenistic-Jewish mystic mythology far closer to the Qabbalah than to rabbinical Judaism.

Bearers of Meaning

The Classical Orders in Antiquity,
the Middle Ages, and the Renaissance

John Onians

John Onians provides a lively illustrated account of the range of meanings that Western culture has assigned to the Classical Orders. Onians shows that during the 2,000 years from their first appearance in ancient Greece through their codification in Renaissance Italy, the Orders—the arrangement of columns and their capitals known as Doric, Ionic, Corinthian, and so forth—conveyed explicit cultural messages and engaged enlightened urban viewers in a continuing visual dialogue.

Bearers of Meaning serves as a much needed overview of the history of architectural theory. It will be essential reading for everyone who cares about classical architecture and its power to affect our thinking.

der Institutio oratoria Quintilians**

Large-octavo. XII, 186 pages. 1988. Cloth DM 188,-
ISBN 3 11 011462 3 (Volume 30)

The study demonstrates how the structure and themes of the Declamationes minores are determined by the objective of practising mode rhetorical presentation and argument (here particularly the schemes of the doctrine of status) Certain expositions in the Institutio oratoria can be understood better with prior knowledge of the Declamationes minores.

NEW CLASSICS

Slavery in Ancient Greece

By **YVON GARLAN**. Translated from the French by **JANET LLOYD**. *First published in French in 1982 and now available in an English-language version that has been revised and updated by the author.* Breaking with traditional humanist approaches and bringing to bear a perspective rooted in a Marxist tradition, Garlan situates the institution of Greek slavery within its unique historical, social, political, and economic contexts and assesses its importance for ancient Greek civilization. \$14.25 paper, \$37.95 cloth

The Poetry of the Aeneid

By **MICHAEL C. J. PUTNAM**. In this landmark study, first published over twenty years ago and available at last in paperback, Putnam interprets four books of Virgil's great epic. "Once Putnam's book had appeared, the direction of Virgilian criticism was, at least for the near future, changed utterly. We are all in its debt."—W. R. Johnson, University of Chicago. \$12.05 paper

Epicurus' Ethical Theory

The Pleasures of Invulnerability
By **PHILLIP MITSIS**. The ethical theory of Epicurus is commonly taken to be narrowly egoistic, and there is ample evidence in his writings to support this view. By means of a comprehensive and penetrating examination of the main elements of Epicurean ethics, Mitsis reevaluates this widely misunderstood figure in the history of philosophy. *Cornell Studies in Classical Philology*. \$27.45

Greek Bronze Statuary

From the Beginnings through the Fifth Century B.C.

By **CAROL C. MATTUSCH**.

Mattusch enriches our knowledge of this beloved but elusive art form in a comprehensive study of the style and techniques of bronze statuary during the Archaic and Classical periods. This gracefully written and generously illustrated book incorporates analyses of ancient evidence including surviving statuary and statue bases, and literary accounts.

165 b & w photos. \$41.25

Prophecy in Tragedy

Sign and Voice in Sophocles' Theban Plays

By **REBECCA W. BUSHNELL**.

Bushnell asserts that an understanding of tragic fate, as represented in prophecy, can be achieved through an awareness of the historical relationship of tragedy to culture and politics; for the tragic hero's interpretation and defiance of prophecy both reflected and influenced the political abuse of oracles and omens. \$20.85

Rhetorics of Reason and Desire

Vergil, Augustine, and the Troubadours

By **SARAH SPENCE**. "[Sarah Spence's] analysis of Vergilian, Augustinian, and troubadour rhetoric sheds important new light on the evolution of language theory and its social context during a crucial millennium of European civilization."—Robert W. Hanning, Columbia University. \$24.75
