### **International Society for the Linguistics of English (ISLE)**

*ELL* is the journal associated with ISLE, the International Society for the Linguistics of English. The central aim of ISLE is to promote the study of the English language, that is, the study of the structure, history and use of standard and non-standard varieties of English, in terms of both form and function, at an international level. The society aims to provide a geographically and theoretically neutral central contact point for all those who are academically active and who identify with this aim. Members of ISLE are eligible for a discount subscription to *ELL*. For information on ISLE conferences, other ISLE activities, and how to become a member, visit [www.isle-linguistics.org](http://www.isle-linguistics.org).

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organisation established to promote the responsible management of the world's forests. Please see [www.fsc.org](http://www.fsc.org) for information.
