CONTENTS

INTRODUCTORY NOTE

This volume contains the Reports of the Commissions and Sub-Commissions of the Union. Some Commissions have in the past been dissolved, and the Reports of others, of a purely administrative nature, are included in Volume XI B; there are therefore gaps in the system of numbers.

The Reports of Commissions, which always start on a right-hand page, are arranged in numerical order, with the title of the Commission in French; the names of the President and Members of the Commission, given immediately under the title, refer to the composition immediately before the Berkeley General Assembly in August 1961.

The Reports of Sub-Commissions follow those of their parent Commissions, generally not starting on a new page.

In the following list the full names of the Commissions and Sub-Commissions are given in English, with abbreviated titles in French.

LIST OF CONTENTS

No.	Commission	Page No.
4	Ephemerides (Ephémérides)	1
7	Celestial Mechanics (Mécanique Céleste)	9
8	Positional Astronomy (Astronomie de Position)	15
	<i>a</i> Photographic Catalogues of Stars brighter than the Ninth Magnitude (Catalogues Photographiques)	23
9	Astronomical Instruments (Instruments)	29
	<i>a</i> Image Converters (Convertisseurs d'Images)	34
	<i>b</i> The Quality of Images (Qualité des Images)	47
10	Solar Activity (Activité Solaire)	51
	<i>a</i> Cinematography of Solar Phenomena (Cinématographie)	60
12	Radiation and Structure of the Solar Atmosphere (Radiation Solaire)	63
	<i>a</i> Solar Eclipses (Eclipses du Soleil)	90
14	Wave-length Standards and Tables of Spectra (Etalons de Longueurs d'Onde)	97
	<i>a</i> Intensity Tables (Tables d'Intensités)	117
	<i>b</i> Molecular Spectra of Astronomical Interest (Spectres Moléculaires)	127
15	The Physical Study of Comets (Etude Physique des Comètes)	131
16	The Physical Study of Planets and Satellites (Etude Physique des Planètes)	143
17	The Motion and Figure of the Moon (Mouvement et Figure de la Lune)	161
19	The Variation of Latitude (Variation des Latitudes)	165
20	Positions and Motions of Minor Planets, Comets and Satellites (Petites Planètes, Comètes et Satellites)	175
	<i>a</i> Orbits and Ephemerides of Comets (Orbites des Comètes)	188
21	The Light of the Night-Sky (Luminescence du Ciel)	191

No.	Commission	Page No.
22	Meteors and Meteorites (Météores et Météorites) (The names of the President and Members of this Commission are given, in the correct numerical order, on page 213)	557
	<i>a</i> Meteorites (Météorites)	213
	<i>b</i> Standardization of Terminology and Notations concerning Meteors (Terminologie concernant Météores)	228
23	“Carte du Ciel” (Carte du Ciel)	231
24	Stellar Parallaxes and Proper Motions (Parallaxes Stellaires)	235
25	Stellar Photometry (Photométrie Stellaire)	241
26	Double Stars (Etoiles Doubles)	255
27	Variable Stars (Etoiles Variables)	261
	<i>a</i> Co-ordination of Galactic Research—Variable Stars (Coordination des Recherches Galactiques) (Formal report only.)	271
	<i>b</i> Variable Stars in Clusters (Etoiles Variables dans les Amas)	271
	<i>c</i> Spectra of Variable Stars (Spectres des Etoiles Variables) (No report.)	280
28	Extra-Galactic Nebulae (Nébuleuses Extragalactiques)	281
	<i>a</i> Magellanic Clouds (Nuages de Magellan)	292
29	Stellar Spectra (Spectres Stellaires)	299
	<i>a</i> The Theory of Stellar Atmospheres (Théorie des Atmosphères Stellaires)	318
	<i>b</i> Line Intensity Standards (Etalons d’Intensité de Raies)	330
	<i>c</i> Stellar Classification (Classifications Stellaires)	333
30	Stellar Radial Velocities (Vitesses Radiales Stellaires)	349
	<i>a</i> Fundamental Radial Velocities (Vitesses Radiales Fondamentales)	358
	<i>b</i> The Observation of Spectroscopic Double Stars (Etoiles Doubles Spectroscopiques)	359
31	Time (Heure)	361
33	The Structure and Dynamics of the Galactic System (Structure du Système Galactique)	373
	<i>a</i> The Co-ordination of Galactic Research (Coordination des Recherches Galactiques) (Formal report only.)	388
	<i>b</i> The Determination of the Galactic Pole and of Galactic Longitudes (Détermination du Pole Galactique)	388
	<i>c</i> Selected Areas (“Selected Areas”)	389
34	Interstellar Matter and Planetary Nebulae (Matière Interstellaire)	399
35	Stellar Constitution (Constitution des Etoiles)	413
37	Star Clusters and Associations (Amas Stellaires et Associations)	419
40	Radio Astronomy (Radio-Astronomie)	451
41	The History of Astronomy (Histoire de l’Astronomie)	459
42	Photometric Double Stars (Etoiles Doubles Photométriques)	477
43	Magneto-hydrodynamics and the Physics of Ionized Gases (Magnéto-Hydrodynamique)	499
44	Astronomical Observations from outside the Terrestrial Atmosphere (Observations au dehors de l’Atmosphère Terrestres)	521
22	Meteors and Meteorites (Météores et Météorites)	557
