Information for Contributors

While the *Proceedings* are intended primarily for Pure Mathematics, papers on Applied Mathematics will also be accepted. Manuscripts from all parts of the world will be welcomed and given careful consideration.

Manuscripts should be prepared so as to conform with the practice in current Numbers of the *Proceedings*, especially with regard to line illustrations, references, tables, and summaries. The name of the author and the date of the receipt of the manuscript will be printed under the title. Text figures must be suitable for line block reproduction, lettered in pencil, numbered, and separated from the text but allocated clearly to sections of the text.

References should be placed at the end of the paper, arranged and numbered according to the order of reference. In the text, reference numbers should be enclosed in square brackets and underlined, to distinguish them from formula numbers, which should be quoted in round brackets. The following particulars should be given, in the order indicated :

> for references to books—*author, title, edition, place of publication, year of publication, page reference* ;

> for references to articles in periodicals—*author, title of article, short title of periodical, series no.* (if any), *volume no., year, pagination.*

A proof is supplied once in galley form, together with an Order Form for offprints. Offprints are supplied free to the number of twenty-five ; additional copies, if ordered prior to publication, will be supplied, at cost, at the request of the contributor. Excessive corrections may be charged to the author.
