The British Journal of Nutrition is published by the Cambridge University Press for The Nutrition Society, which owns it and controls its publication. It is devoted to reports of original work in all branches of nutrition. A volume will consist of four parts appearing at quarterly intervals.

The Proceedings of The Nutrition Society, which until the completion of Volume 5 were published separately, have now been merged in the *British Journal of Nutrition*. These *Proceedings* in part record meetings of the type held by the Society during the war, at which experts in a particular field are invited by Council to make contributions on specific parts thereof, and at which general discussion follows these invited contributions. It is proposed at present to publish these but not summaries of the discussions. The Society also holds scientific meetings at which papers are communicated by members and others on original work carried out by them. It is proposed at present to publish summaries of these papers, of which about ten may be read at each meeting, each communication being recorded, at the author's option, in the Society's *Proceedings* by means of an abstract not exceeding 200 words in length.

It is intended that both kinds of meeting shall be held in England and Scotland, as has hitherto been the practice with the first kind.

The Nutrition Society has as its object the advancement of the scientific study of nutrition and its application to the maintenance of human and animal health.

Membership is open to any whose work has contributed to the scientific knowledge of nutrition, whether such work has been in the laboratory, the field or the clinic, and whether experimental, clinical, agricultural or statistical in nature.

Particulars of The Nutrition Society and application forms for membership may be had from the Honorary Secretary, Professor S. J. Cowell, University College Hospital Medical School, University Street, London, W.C. 1.

Subscriptions to the British Journal of Nutrition. For non-members of The Nutrition Society the subscription to the *Journal* is £3 per volume (£2. 5s. od. for Volume 1) including postage, payable in advance to the Cambridge University Press, Bentley House, 200 Euston Road, London, N.W. 1, or to any bookseller. The price for single issues is 20s., postage extra. In the United States of America the *Journal* may be purchased from the University of Chicago Press, 5750 Ellis Avenue, Chicago, Ill., the American agents of the Cambridge University Press for the sale of the *British Journal of Nutrition*.

Claims for the replacement of *Journals* lost in transmission will not be entertained if they are received more than three months after the date of the posting of the *Journal*.

Prices of Back Numbers of the Proceedings. Back numbers of the *Proceedings*, Volumes 1-5, are available and can be obtained from Messrs W. Heffer and Sons, Ltd., 3 & 4 Petty Cury, Cambridge, at 7s. 6d. post free for a single number, 15s. post free for a double number, and 25s. post free per volume. A member can obtain one copy of any volume of the *Proceedings* published prior to his election at special terms on application to the Honorary Treasurer, A. L. Bacharach, Esq., Glaxo Laboratories Ltd., Greenford, Middlesex.
