# 2<sup>nd</sup> iNTeg-Risk Conference: New Technologies & Emerging Risks

Annual Topic: Dealing with multiple and interconnected emerging risks

June 14 - 18, 2010

Haus der Wirtschaft, Willi-Bleicher-Str. 19 70174 Stuttgart, Germany

Main purpose of the conference is provide a forum at which the topics relevant for the EU "flagship project" iNTeg-Risk ("Early Recognition, Monitoring and Integrated Management of Emerging, New Technology Related, Risks", <a href="www.integrisk.eu-vri.eu">www.integrisk.eu-vri.eu</a>), involving a budget of almost 20 million €, more than 80 leading European companies and more than 400 professionals working on the project directly, can be openly and thoroughly discussed among all interested parties. It is, therefore, a unique opportunity for project partners to communicate their results to the "outside world" and an opportunity to interested professionals, not participating in the project, to learn "from one hand" about the project. Hence, all professionals working in the areas of risk/safety related emerging, communication, legislation and policy making are encouraged to contribute.

This year the conference will be focused but not limited onto the issues related to dealing with multiple and interconnected emerging risks of New Technologies. The conferences will be accompanied by 10 specialized workshop and courses devoted to major topics dealt with in iNTeg-Risk, by an exhibition and series of project meetings.

High-level representatives from government, regulatory and standardization bodies, EU and EU agencies, industry, press and other organizations will participate, too, and this will provide a unique opportunity to meet and exchange experiences among different stakeholders groups.

(Postage and Handling are included. Price does not include VAT.)
approx. 100 pages/issue · ISSN 16 19-52 72 · www.lexxion.eu/estal

### EJRR

### European Journal of Risk Regulation

Today the most important and widespread form of EU regulation in the internal market is concerned with the government of risk to individuals' health and safety. The European Journal of Risk Regulation (EJRR) provides an innovative forum for informed and scholarly discussion on how these risks are regulated across policy domains in Europe and beyond.

EJRR · 4 issues/year · annual subscription: € 348,–
(Postage and Handling are included. Price does not include VAT.)
approx. 70 pages/issue · ISSN 18 67-29 9X · www.lexxion.eu/ejrr

### EFFL

### European Food and Feed Law Review

EFFL is a publication of original articles and analysis of current developments in European food and feed law. It provides essays from science and everyday practice as well as information on national and European legislation and court decisions. Country Correspondents report how European food and feed regulations are interpreted and applied in the individual Member States.

EFFL · 6 issues/year · annual subscription: Europe € 394,–
(Postage and Handling are included. Price does not include VAT.)
approx. 60 pages/issue · ISSN 18 62-27 20 · www.lexxion.eu/effl

### **EPPPL**

### European Public Private Partnership Law Review

EPPPL is an international quarterly journal that provides the reader with detailed coverage of all significant developments in the PPP area across the EU and beyond. Leading authorities from private practice and academia will report on EU Member States' legal and policy developments and new approaches to PPP delivery across the world.

EPPPL · 4 issues/year · annual subscription: € 348,–
(Postage and Handling are included. Price does not include VAT.)
approx. 60 pages/issue · ISSN 18 63-09 87 · www.lexxion.eu/epppl

### **RELP**

### Renewable Energy Law and Policy Review

The Renewable Energy Law and Policy Review (RELP) reports on the dynamic and quickly changing developments in the renewable energy sector. The journal serves a growing international community of renewable energy practitioners, lawyers and thought leaders with updates on legal and policy issues concerning renewable energy.

RELP · 4 issues/year · annual subscription: € 348,–
(Postage and Handling are included. Price does not include VAT.)
approx. 70 pages/issue · ISSN 18 69-49 42 · www.lexxion.eu/relp

## A JOURNAL AT THE INTERFACE OF SCIENCE AND LAW

As the European Union is increasingly emerging as de facto global regulator of all kinds of rules concerning the environment, human health and safety, risk regulation is becoming a new lens through which to analyse the European integration process. Indeed, today the most important and widespread form of EU regulation in the internal market is concerned with the government of risk to individuals' health and safety.

The European Journal of Risk Regulation (EJRR) provides an innovative forum for informed and scholarly discussion on how these risks are regulated across policy domains in Europe and beyond. While the central focus of the journal is the European law regulating inter alia Chemicals, Nanomaterials, Pharmaceuticals, Food, Cosmetics, Medical Devices, Pollution, Climate Change, and Public Health, discussion extends to other social sciences, such as sociology, political science, risk analysis, economics, cognitive psychology as well as to the physical and life sciences.

EJRR strikes a balance between the interests of the practitioners, notably those increasingly engaged in advice to the industry and in regulatory drafting, and a more theoretical focus, combining normative articles with timely contributions on legislative and judicial developments, new literature and relevant events.
