

2012 IPA International Meeting

7 – 11 September 2012

Cairns, Australia

There is still time to attend this meeting!

HIGHLIGHTS FROM THE PROGRAM:

Opening Keynote Presentation

Professor Henry Brodaty

Australia

President - Elect of IPA

Late Life Anxiety Keynote

Dr. Julie Wetherell

United States

Disaster Responses in Later Life Keynote

Professor Manabu Ikeda

Japan

Mental Health Issues in Persons with Dementia Keynote

Professor Len Gray

Australia

Dementia Care in Indigenous Australians Keynote

Dr. Edward Strivens

Australia

Free Public Lecture and Panel Discussion

**“Falling Between the Cracks – Understanding and Supporting
the Person with Younger Onset Dementia”**

Professor Brian Draper

Australia

Professor Raymond Koopmans

Netherlands

Encourage a Colleague to Join

The **International Psychogeriatric Association (IPA)** is the leading multi-disciplinary, international organization dedicated to advancing geriatric mental health knowledge and promoting better geriatric mental health.

Benefits of IPA Membership Include

- The opportunity to **interact with colleagues** around the world who share an interest in advancing research, education, and theory about mental health in older people.
- **Education and meetings** that bring together the many disciplines in Psychogeriatrics and the collective expertise of the world; IPA members receive special “members’ only” rates for all our meetings and activities.
- A subscription to ***International Psychogeriatrics***, IPA’s peer-reviewed monthly journal, which includes any additional special-focus supplements.
- The ***IPA Bulletin***, an informative electronic newsletter.
- ***IPA Online*** – the IPA website – containing a members area with special features, including access to fellow members, and the IPA Learning Portal.
- ***Behavioral and Psychological Symptoms of Dementia (BPSD) Education Materials*** are available to IPA members in electronic format at no charge. The BPSD materials include the *newly revised* seven module *IPA Complete Guide to BPSD*. Currently in revision – the *Primary Care Physician’s Guide to BPSD* and the *Nurses’ Guide to BPSD* – with a release date in 2012. In development – *Long-Term Care* module.
- Best of all – become a part of a larger effort supporting the **growth of Psychogeriatrics around the world**.

IPA’s membership dues are set to accommodate the needs of a wide variety of colleagues worldwide. To find membership rates for you in your country and to join, please visit www.ipa-online.org.

IPA ... Better Mental Health for Older People

IPA Complete Guide to Behavioral and Psychological Symptoms of Dementia (BPSD)

The only resource you need for all members of your team!

An IPA Members Benefit*

***IPA members have access online at no additional charge!**

The *IPA Complete Guide to Behavioral and Psychological Symptoms of Dementia (BPSD)* was revised in 2010, based on the BPSD Educational Pack. This comprehensive resource has modules that provide a useful overview of the presentation and causes of BPSD, offering constructive guidance on treatment interventions.

BPSD are recognizable, understandable and treatable. The recognition and appropriate management of BPSD are important factors in improving our care of dementia patients and their caregivers.

These modules will provide a useful overview of the presentation and causes of BPSD offering:

- Module 1 An introduction to BPSD**
- Module 2 Clinical issues**
- Module 3 Etiology**
- Module 4 Role of family caregivers**
- Module 5 Non-pharmacological treatments**
- Module 6 Pharmacological management**
- Module 7 Cross-cultural and transnational considerations**

In revision – coming soon!
Primary Care Physicians Guide
Nurses Guide

In development
Long-Term Care Module

CAMBRIDGE
UNIVERSITY PRESS

IPA Neuroimaging in Dementia Series

Now Offered As A Webinar!

Sign Up For This Popular IPA Workshop and Your Computer Becomes Your Classroom!

IPA is offering this program online—

- Presented by the same outstanding international experts
- Receive information on the latest advances in neuroimaging
- Features real life examples
- Uses an interactive teaching style

These high-value webinars are destined to be as successful as the original widely-attended and top-rated workshop!

For more information visit www.ipa-online.org

IPA ... Better Mental Health for Older People

Supported by an educational grant from GE Healthcare.

Scope and contributions

International Psychogeriatrics is written by and for those doing clinical, teaching, and research work with older people. It is the official journal of the International Psychogeriatric Association (IPA) and is published by Cambridge University Press, Cambridge, UK. Although it is primarily concerned with psychogeriatrics, the journal welcomes contributions from all concerned with the field of mental health and aging. Original research papers are particularly sought.

Contributions include original research articles, case reports, reviews of the literature, book reviews, letters to the editor, and editorials. Apart from editorials and book reviews, which are commissioned, contributions to *International Psychogeriatrics* are spontaneously written and submitted by authors. Papers are reviewed by two expert reviewers selected by the Editor-in-Chief. At present, about half of the papers submitted are accepted for publication. The journal's Science Citation Index impact factor is 2.478 (2010). Submission of a paper implies that it is neither under consideration for publication elsewhere, nor previously published in English. Manuscripts must be formatted double-spaced with ample margins on all sides and the pages should be numbered. *International Psychogeriatrics* uses the spelling of American English. Manuscripts written by those whose primary language is not English should be edited carefully for language prior to submission. The journal has a Language Assistance Panel consisting of both native English speakers willing to check manuscripts for style prior to submission, and bilingual experts willing to assist with the translation of manuscripts into English. Further details including contact information for individual panel members can be found at both the journal and IPA websites (journals.cambridge.org/ipg and www.ipa-online.org).

An up to date version of the journal's instructions for contributors can be found at the *International Psychogeriatrics* website journals.cambridge.org/ipg. Please read these instructions carefully before submitting articles. **Articles that are not prepared in accordance with these guidelines will be returned to authors.**

Manuscripts should be submitted online via our manuscript submission and tracking site, <<http://mc.manuscriptcentral.com/ipg>>. Full instructions for electronic submission are available directly from this site.
