**pure**  
**thyroid hormone:**  
*new synthesis*

Recognising the need for a standard form of thyroid medication, capable of being given in precise dosage, Glaxo Laboratories have carried through a research project to evolve an entirely new synthesis of the thyroid hormone. Success came in far greater measure than was at first envisaged, for the process ultimately devised has made it possible to manufacture the physiologically active *laevo* thyroxine free from the inert *dextro* form.

A NEW ERA  
 OPENS IN  
**thyroid therapy**

L-Thyroxine-sodium *Glaxo*, recently introduced, is the pure *crystalline thyroid hormone*. By its very nature, it is free from the variations in therapeutic efficacy that may be associated with extracts of the thyroid gland. Relative potency is indicated by the fact that about 1 grain of thyroid B.P. may now be replaced by 0.1 mg. of the new Glaxo material.

**L-THYROXINE-SODIUM *Glaxo***

# **ELIXIR GABAIL**

**(BROMO-VALERIANATE)**

**The Ideal Sedative in all Nervous Affections**

Elixir Gabail combines the sedative action of Bromide and Chloral Hydrate with the nervine and anti-spasmodic deodorised Valerianate. Pharmaceutically it is as pleasant and palatable as it is efficacious from the therapeutic standpoint, the disagreeable odour and flavour of the Valerian having been completely removed without in any way impairing its therapeutic value.

**In Hysteria and Psychasthenia it relieves nervous excitement and produces a calm state of mind that is conducive to rapid recovery. It is also of value in states of temporary emotional excitement, in Hypochondriasis and Melancholia.**

*Dosage:* One tablespoonful in water twice or thrice daily. As a hypnotic: two tablespoonfuls in water at bedtime.

Supplied in bottles of 187 c.c., 16 ozs., and in 40 oz. and 80 oz. Dispensing Packs.

*Literature and Samples on request.*

**The ANGLO-FRENCH DRUG Co. Ltd.**  
**11-12, Guilford Street, London, W.C. 1**

## *In depressive states . . .*

### **the central nervous stimulant of choice**

**I**N DEPRESSIVE conditions 'Dexedrine' may be relied on to effect a remarkable improvement in mood and outlook, and to aid the patient in regaining a normal grip on life and living. The striking preponderance of its central nervous effect over its weak peripheral activity makes

'Dexedrine' virtually a single-action drug. Patients are ordinarily spared the disturbing consciousness of 'drug stimulation', and thus 'Dexedrine' is especially suitable for the highly-strung, the emotionally unstable, convalescents, men and women undergoing the climacteric, and the aged.

● Available for prescription in packs of 24 tablets. Samples and literature on request.

## **'DEXEDRINE'** TABLETS (5 mg. dextro-amphetamine sulphate)

**MENLEY & JAMES, LTD., 123 Coldharbour Lane, London, S.E.5**  
For Smith Kline & French International Co., owner of the Trade Mark.

## GLOUCESTER

CRICKLEY COURT—ONE OF THE SEPARATE VILLAS

A REGISTERED HOSPITAL for the CARE and TREATMENT of LADIES and GENTLEMEN suffering from NERVOUS and MENTAL DISORDERS. Within two miles of the Western and London Midland Regional Railway Stations at Gloucester, the Hospital is easily accessible by rail from London and all parts of the United Kingdom. It is beautifully situated at the foot of the Cotswold Hills, and stands in its own grounds of over 300 acres. Voluntary Patients of both sexes are also received for treatment. Special accommodation is also provided at three villa residences, all of which stand in their own grounds and are entirely separate from the main Hospital. All the most modern methods of treatment including electric shock and prefrontal leucotomy are used.

**GREATEST  
ANTI-CONVULSANT ACTION,  
LEAST HYPNOTIC EFFECT**

PHENYTOIN SODIUM B.P.—EPTOIN brand is supplied as sugar-coated tablets containing 0.1 G. for the treatment of epilepsy. It possesses powerful anti-convulsant action and low hypnotic effect. Clinical results indicate that Eptoin greatly reduces the number of seizures in cases which have proved refractory to other forms of therapy.

MAY & BAKER LTD  
DAGENHAM ENGLAND

SONERYL

One of the advantages of 'Soneryl' is the ease with which, by graduating the dose, the degree of action may be varied from the mildly sedative to the deeply hypnotic.

This is of particular interest in psychiatric practice for it enables the one drug to be used as a hypnotic in all the mental states from simple anxiety to intractable psychosis. It may be given for long periods with minimal side effects.

Generally 'Soneryl' is given orally in tablets (grains  $1\frac{1}{2}$  in each), but for cases in which it is impracticable to give the drug by mouth, suppositories containing three, five or ten grains of 'Soneryl' are available.

Tablets in containers of  
12, 25, 100, and 500

Suppositories of gr. 3, gr. 5,  
and gr. 10, in boxes of 5
