NAEP periodically publishes a membership directory. This directory is distributed to NAEP members free of charge and sold to non-members for a nominal fee. If you do not want to be included in a directory published in paper or electronic form, check here.

NAEP membership is open to persons engaged in all aspects of the environmental professions in one of the following categories:

General Membership \$150.00 / year

General membership is open to individuals who have earned an undergraduate or graduate degree and have at least three years experience working in the environmental field. General members may vote and hold office.

College or University _____ Specialties _____

Degree(s) _____ Years of experience _____

Associate Member \$125.00 / year

Associate membership is open to individuals who do not meet the requirements for general membership.

Student Membership \$40.00 / year

Student membership is limited to full-time students pursuing an environmental degree. A copy of a current transcript and college ID is required and must accompany the application.

Date entered current degree program: _____ Expected graduation date _____

Anticipated degree _____ College or University _____ Program/Major _____

Senior Membership \$75.00 / year

Corporate Membership \$750.00 / year (Primary Office) Corporate Branch Membership \$375.00 / year

FEES

Membership Dues \$ _____

Chapter Dues \$ _____

Additional mailing fee \$ _____

Total Amount Due \$ _____

METHOD OF PAYMENT

Check/money order for \$ _____ payable to **NAEP**
National Association of Environmental Professionals

Charge \$ _____ to my Visa, Mastercard, Discover or American Express card.

Card Type: _____

Card No. _____ Exp. Date _____

Signature _____

Security Code _____

NAEP Chapters

In addition to membership in the national Association, NAEP maintains a network of regional, state, local and student chapters that offer additional opportunities for professional growth. Check below if you would like to join one of the chapters and include applicable dues in addition to the amount for NAEP membership.

State/Local Chapters

- | | |
|---|------------|
| <input type="radio"/> Alaska | \$25/year |
| <input type="radio"/> Arizona | \$30/year |
| <input type="radio"/> California | \$150/year |
| <input type="radio"/> Florida | \$30/year |
| <input type="radio"/> Georgia | \$20/year |
| <input type="radio"/> Hawaii | \$30/year |
| <input type="radio"/> Illinois | \$35/year |
| <input type="radio"/> Mid-America (IA, KS, MO, NE) | \$15/year |
| <input type="radio"/> Mid-Atlantic (DC, MD, VA) | \$40/year |
| <input type="radio"/> North Carolina | \$30/year |
| <input type="radio"/> Northwest (OR & WA) | \$25/year |
| <input type="radio"/> Rocky Mountain (CO, ID, MT
NV, UT, WY) | \$50/year |
| <input type="radio"/> Texas (select one) | |
| <input type="radio"/> North Texas | \$35/year |
| <input type="radio"/> Texas | \$50/year |

Membership is individual (not your company's) and non-transferable. Corporate memberships are available; please contact the national office for more information.

Your national dues (see page 1) include a subscription to our journal, *Environmental Practice*. Chapter dues are collected by NAEP on behalf of the affiliated chapters and passed to them along with your name and address. Some chapters are more active than others.

National Association of Environmental Professionals
Code of Ethics and Standards of Practice For Environmental Professionals

The objectives of Environmental Professionals are to conduct their personal and professional lives and activities in an ethical manner. Honesty, justice and courtesy form moral philosophy which, associated with a mutual interest among people, constitute the foundation of ethics. Environmental Professionals should recognize such a standard, not in passive observance, but as a set of dynamic principles guiding their conduct and way of life. It is their duty to practice their profession according to this Code of Ethics.

As the keystone of professional conduct is integrity, Environmental Professionals will discharge their duties with fidelity to the public, their employers, clients, and with fairness and impartiality to all. It is their duty to interest themselves in public welfare, and to be ready to apply their special knowledge for the benefit of mankind and their environment.

Creed

The objectives of an Environmental Professional are:

1. to recognize and attempt to reconcile societal and individual human needs with responsibility for physical, natural, and cultural systems.
2. to promote and develop policies, plans, activities, and projects that achieve complementary and mutual support between natural and man-made, and present and future components of the physical, natural and cultural environment.

Ethics

As an Environmental Professional I will:

1. be personally responsible for the validity of all data collected, analyses performed, or plans developed by me or under my direction. I will be responsible and ethical in my professional activities.
2. encourage research, planning, design, management and review of activities in a scientifically and technically objective manner. I will incorporate the best principles of the environmental sciences for the mitigation of environmental harm and enhancement of environmental quality.
3. not condone misrepresentation of work I have performed or that was performed under my direction.
4. examine all of my relationships or actions that could be legitimately interpreted as a conflict of interest by clients, officials, the public or peers. In any instance where I have a financial or personal interest in the activities with which they are directly or indirectly involved, I will make a full disclosure of that interest to my employer, client, or other affected parties.
5. not engage in conduct involving dishonesty, fraud, deceit, or misrepresentation or discrimination.

6. not accept fees wholly or partially contingent on the client's desired result where that desired result conflicts with my professional judgement.

Guidance for Practice as an Environmental Professional

As an Environmental Professional I will:

1. encourage environmental planning to begin in the earliest stages of project conceptualization.
2. recognize that total environmental management involves the consideration of all environmental factors including: technical, economic, ecological, and sociopolitical and their relationships.
3. incorporate the best principle of design and environmental planning when recommending measures to reduce environmental harm and enhance environmental quality.
4. conduct my analysis, planning, design and review activities primarily in subject areas for which I am qualified, and shall encourage and recognize the participation of other professionals in subject areas where I am less experienced. I shall utilize and participate in interdisciplinary teams wherever practical to determine impacts, define and evaluate all reasonable alternatives to proposed actions, and assess short-term versus long-term productivity with and without the project or action.
5. seek common, adequate, and sound technical grounds for communication with and respect for the contributions of other professionals in developing and reviewing policies, plans, activities, and projects.
6. determine that the policies, plans, activities or projects in which I am involved are consistent with all governing laws, ordinances, guidelines, plans, and policies, to the best of my knowledge and ability.
7. encourage public participation at the earliest feasible time in an open and productive atmosphere.
8. conduct my professional activities in a manner that ensures consideration of technically and economically feasible alternatives.

Encourage Development of the Profession

As an Environmental Professional I will:

1. assist in maintaining the integrity and competence of my profession.
2. encourage education and research, and the development of useful technical information relating to the environmental field.
3. be prohibited from lobbying in the name of the National Association of Environmental Professionals.
4. advertise and present my services in a manner that avoids the use of material and methods that may bring discredit to the profession.

2014 Annual Conference

Changing Tides & Shifting Sands

39th Annual NAEP Conference

April 7-10, 2014

St Petersburg, FL

Call for Papers

Papers and presentations are requested for individual speakers, panels, hot topic lunches, and poster displays in the following topical areas:

- | | |
|---|--|
| Air Quality | Modeling/Visualization |
| Archaeology/Cultural Resources | Munitions and Explosives of Concern |
| Botony | Noise Impacts |
| Brownfields | Numeric Nutrient Criteria |
| Climate Change | Oil Spill Effects and Restoration |
| Ecosystem Restoration | PD&E/NEPA |
| Emerging Contaminants | Professional Development |
| Emerging Analytical and Sampling Methodologies | Public Involvement |
| Energy | Remediation |
| Environmental Education | Sediments and Waterfront |
| Environmental Health and Safety | Sustainability |
| E-Permitting and other Online Tools | Transportation |
| Floodplain Management | Upcoming/New Regulations |
| Global Product Stewardship | Visual Impact |
| Habitat Management | Waste Water Treatment Innovations |
| Incident Response and Recovery | Water Quality / Stormwater Management |
| Landfill Reclamation | Watershed Management |
| LEED/Green Buildings | Wetlands |
| | Wildlife |

Please submit your abstract using our online form at www.naep.org, Annual Conferences, 2014. If you have questions, please contact Mr. Bruce Hasbrouck, CEP at bhasbrouck@fallerdavis.com or (813) 261-5136. The submission deadline is September 30, 2013.
