# THE ROYAL INSTITUTE OF NAVIGATION

## *Aims and Objects*

The objects of the Institute are to unite in one body those who are concerned with or who are interested in navigation and to further its development. Navigation is conceived as applying to locomotion of all kinds and is perceived as encompassing aspects of: command and control, psychology and zoology, operational research, risk analysis, theoretical physics, operation in hostile environments, instrumentation, ergonomics, financial planning and law as well as electronics, astronomy, mathematics, cartography and other subjects traditionally associated with navigation.

The aims of the Institute are to encourage the creation and dissemination of knowledge through research and development, to co-ordinate information from all the disciplines involved, to provide a forum in which new ideas and new products can have the benefit of informed and professional scrutiny and to further education and communication. The Institute initiates conferences and symposia on specific subjects and has a programme of meetings at which lectures are given and discussed. There are standing Special Interest Groups (SIGs), which keep under constant review pertinent aspects of navigation. The success of these Special Interest Groups is crucially dependent on the active involvement of members.

The SIGs include: Land Navigation and Location Group (LN&L), General Aviation Navigation Group (GANG), History of Air Navigation Group (HANG), Civil and Military Air Group (CMAG), Marine Traffic & Navigation Group (MT&NG), Small Craft Group (SCG), Space Group (Space), Animal Navigation Group (ANG) and Research & Development Group (R&D).

The Institute publishes *The Journal of Navigation* six times a year. It contains papers which have been presented at meetings, other original papers and selected papers and reports from Special Interest Groups. The Institute also publishes *Navigation News* six times a year which contains a full account of the Institute's proceedings and activities. This includes Branch News, a record of current navigational work, a diary of events, topical articles, news about Membership and advertising. A great deal of the Institute's work is international in character and is coordinated with that of similar organisations in other countries.

## *Membership*

There are nine classes of membership under which individuals or organisations may apply to join the Institute. Details of the various membership criteria and current subscriptions are available on the RIN website (Home / Join the RIN / Membership Types <http://www.rin.org.uk/general.aspx?ID=59>) and from the Membership Secretary ([membership@rin.org.uk](mailto:membership@rin.org.uk) Tel: +44(0)20 7591 3130 Fax: 44(0)20 7591 3131).

- (1) Ordinary Membership
- (2) Associate Membership
- (3) Associate Fellow Membership
- (4) Student Membership
- (5) Junior Associate Membership
- (6) Corporate Membership
- (7) Small Business Membership
- (8) Affiliate College University Membership
- (9) Affiliate Club Membership

Additional membership classes of Fellowship, Honorary Fellowship, Retired Membership and Affiliate Membership also exist and details are available from the Membership Secretary.

The subscription price (excluding VAT) to *The Journal* (ISSN 0373-4633) for Volume 71, 2018, which includes print and electronic access, is £635 (USA, Canada and Mexico US \$1147) and includes delivery by air; single parts are available at £115 (USA, Canada and Mexico US \$208) plus postage. The electronic-only price available to institutional subscribers is £492 (USA, Canada and Mexico US \$897). EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. *The Journal* is issued free to all Members of the Institute. Orders, which must be accompanied by payment, may be sent to any bookseller or subscription agent or direct to the publishers: Cambridge University Press, UPH, Shaftesbury Road, Cambridge CB2 8BS, or in the USA, Canada and Mexico to Cambridge University Press, Journals Fulfillment Department, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA. Japanese prices for institutions are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see [www.fsc.org](http://www.fsc.org) for information.

# THE JOURNAL OF NAVIGATION

VOLUME 71 NUMBER 4 JULY 2018

## CONTENTS

- Real-Time Precise Point Positioning Using Orbit and Clock Corrections as Quasi-Observations for Improved Detection of Faults** 769  
*Ahmed El-Mowafy*
- An Improved Method of Land Masking for Synthetic Aperture Radar-based Ship Detection** 788  
*Chan-Su Yang, Ju-Han Park and Ahmed Harun-Al Rashid*
- GNSS IF Signal Simulation Considering Oscillator Phase Noise** 805  
*Bing Xu and Lei Dou*
- GNSS IF Signal Simulation Considering Oscillator Phase Noise – ERRATUM** 821  
*Bing Xu and Lei Dou*
- Evaluation of Two-Ship Collision Severity using Ordered Probit Approaches** 822  
*Jinxian Weng, Guorong Li, Tian Chai and Dong Yang*
- A Simplified Simulation Model of Ship Navigation for Safety and Collision Avoidance in Heavy Traffic Areas** 837  
*Ming-Chung Fang, Kun-Yuan Tsai and Chih-Chung Fang*
- Direction/Distance/Velocity Measurements Deeply Integrated Navigation for Venus Capture Period** 861  
*Jin Liu, Xiao-lin Ning, Xin Ma, Jian-cheng Fang and Gang Liu*
- Course keeping Control Based on Integrated Nonlinear Feedback for a USV with Pod-like Propulsion** 878  
*Yunsheng Fan, Dongdong Mu, Xianku Zhang, Guofeng Wang and Chen Guo*
- Phase-aligned Dual-frequency Constant Envelope Multiplexing Technique for GNSS Signals** 899  
*Zhihui Zhou, Zuping Tang, Jialong Wei, Xuan Xia and Tao Yan*
- A Practical Method for the Evaluation of Societal Risk in the Context of the International Maritime Organization's Safety Level Approach** 919  
*Molin Sun, Zhongyi Zheng and Longhui Gang*
- A Fast Acquisition Algorithm Based on Division of GNSS Signals** 933  
*Qingxi Zeng, Wenqi Qiu, Pengna Zhang, Xuefen Zhu and Ling Pei*
- Fusion-based Satellite Clock Bias Prediction Considering Characteristics and Fitted Residue** 955  
*Jicang Lu, Chao Zhang, Yong Zheng and Ruopu Wang*
- A Constrained Total Extended Kalman Filter for Integrated Navigation** 971  
*Vahid Mahboub and Dorsa Mohammadi*
- Application of Real-Coded Genetic Algorithm in Ship Weather Routing** 989  
*Hong-Bo Wang, Xiao-Gang Li, Peng-Fei Li, Evgeny I. Veremey and Margarita V. Sotnikova*
- A Model for Combined GPS and BDS Real-Time Kinematic Positioning using one Common Reference Ambiguity** 1011  
*Rui Tu, Jinhai Liu, Rui Zhang, Pengfei Zhang and Xiaochun Lu*
