

	PAGE
The nutritive value of the haggis. By D. S. MILLER, D. J. NAISMITH and P. L. PELLETT ..	xxxii
The utilization of the energy of the same food by cattle and sheep. By K. L. BLAXTER and F. W. WAINMAN ..	xxxiii
Metabolism of radioactive calcium and radiostrontium in the ewe. By H. G. JONES, W. S. MACKIE and B. F. SANSOM ..	xxxiv
Amino-acid supplementation of an experimental diet for laying hens. By J. DAVIDSON, GABRIELLE M. ELLINGER and A. W. BOYNE ..	xxxv
<i>One Hundred and Forty-second Scientific Meeting</i>	
The copper content of the liver and hair in kwashiorkor. By I. MACDONALD and P. J. WARREN ..	xxxvi
The influence of iodine supplementation on the incidence of thyroid enlargement in schoolchildren. By R. KILPATRICK, W. T. C. BERRY and J. N. HORNE ..	xxxvii
A dental malocclusion associated with rickets in growing lambs. By MILTON R. MCROBERTS ..	xxxviii
Lipid concentrations in rabbits given atherogenic diets. By A. N. HOWARD and G. A. GRESHAM ..	xxxix
A technique of carrying out individual weighed diet surveys. By JEAN W. MARR ..	xxxix
The choice of diets of differing caloric density by normal and hyperphagic rats. By MELEK KHAIRY, T. B. MORGAN and JOHN YUDKIN ..	xxxix
The development of proteolytic enzymes in the abomasum of the young calf. By M. J. HENSCHEL, W. B. HILL and J. W. G. PORTER ..	xl
Proteolysis of milk and synthetic milks in the abomasum of the young calf. By M. J. HENSCHEL, W. B. HILL and J. W. G. PORTER ..	xli
Preliminary experiments with a roughage-free diet for beef cattle. By T. R. PRESTON, F. G. WHITELAW, A. MACDEARMID, N. A. MACLEOD and EUPHEMIA B. CHARLESON ..	xlii
An improved method for measuring the nutritive value of protein sources in diets for growing chickens. By W. S. MILLER ..	xliii
The nutritional significance of primary bladder stones. By DANIEL ANTHONY ANDERSEN ..	xliv
The use of the ballistic bomb calorimeter for the determination of fat. By P. L. PELLETT ..	xlv
Dietary protein deficiency and the growth and mineralization of the bones of the pig. By R. J. C. STEWART and B. S. PLATT ..	xlvi
Studies of body composition in men aged 60 and over. By J. H. FRYER ..	xlvii
The effect of caloric intake on net dietary-protein value. By D. S. MILLER and P. R. PAYNE ..	xlviii
A calorie paradox? By J. H. FRYER, D. S. MILLER and P. R. PAYNE ..	xlix
Clinical electroencephalographic and pathological changes in the nervous system of experimental animals. By C. R. C. HEARD, A. MEYER, G. PAMPIGLIONE, R. J. C. STEWART and B. S. PLATT ..	1

## SYMPOSIUM PROCEEDINGS

### *One Hundred and Fortieth Scientific Meeting*

THE PLACE OF FOOD SCIENCE AND TECHNOLOGY IN THE CAMPAIGN AGAINST MALNUTRITION	PAGE
The place of food science and technology in the campaign against malnutrition: Chairman's opening remarks. By W. R. AYKROYD .. .. .	91
Problems and some solutions: introduction. By B. S. PLATT .. .. .	93
Problems and some solutions: India. By K. HALDER .. .. .	95
Problems and some solutions: Turkey. By O. KÖKSAL .. .. .	99
Problems and some solutions: Iraq. By W. FRANKUL .. .. .	102
Problems and some solutions: Pakistan. By S. MAQSOOD ALI .. .. .	105
Problems and some solutions: Ghana. By R. ORRACA-TETTEH .. .. .	109
Some African problems. By F. AYLWARD .. .. .	112
India's food problems. By FRANK WOKES .. .. .	117
The commercial development of a protein-rich food supplement in Nigeria. By W. F. J. CUTHBERTSON .. .. .	122
Factors affecting development of food science and technology and food research in Pakistan. By J. W. CORRAN .. .. .	128
Nutritional change: some comments from social research. By A. T. M. WILSON .. .. .	133

### *One Hundred and Forty-first Scientific Meeting*

THE RELATIVE VALUES OF ANIMAL AND VEGETABLE FATS IN NUTRITION	
Animal and vegetable fats: Chairman's opening remarks. By A. C. FRAZER .. .. .	138
Biochemistry and metabolism of fats. By R. P. COOK .. .. .	140
The chemistry of the animal and vegetable fats in relation to their utilization and industrial processing. By A. CROSSLEY .. .. .	143
Animal and vegetable fats as human foods. By H. M. SINCLAIR .. .. .	149
Hydrogenated oils and polyunsaturated fatty-acid isomers in nutrition. By E. AAES-JØRGENSEN	156
Fats and atherosclerosis in fowls. By W. G. SILLER and W. BOLTON .. .. .	163
Lipids and atherosclerosis in man. By M. F. OLIVER .. .. .	169

### ABSTRACTS OF COMMUNICATIONS

#### *One Hundred and Thirty-eighth Scientific Meeting*

The effect of stage of growth of S 23 perennial rye-grass on the production of volatile fatty acids in the rumen of the cow. By I. H. BATH and J. A. F. ROOK .. .. .	xv
The effect of urea on the voluntary intake of oat straw by cattle. By R. C. CAMPLING and M. FREER	xvi
Essential fatty-acid (EFA) requirement of the pig. 2. By W. M. F. LEAT .. .. .	xvi
The spinal cord of pigs on low-protein diets. By A. MEYER, R. J. C. STEWART and B. S. PLATT .. .. .	xviii
The buccal mucosa of the African in malnutrition. By B. T. SQUIRES .. .. .	xix
Delayed maturation of protein-deficient pigs as indicated by response to intravenous insulin and glucose. By C. R. C. HEARD, PAMELA A. J. DURBIN and B. S. PLATT .. .. .	xx
The nutritive value of pulses. By D. S. MILLER .. .. .	xxi
The relationship of the leakage of bone marrow and the staining of the legs of broiler carcasses to the bone calcification and sex of the bird. By R. W. HOCKEN .. .. .	xxii
Fat absorption by white bread during frying. By MARIE M. JAMIESON, JENNIFER OXENHAM and JEAN ROBERTSON .. .. .	xxii
The development of the secretion of proteases and carbohydrases in the guinea-pig. By M. J. HENSCHER and J. W. G. PORTER .. .. .	xxiii
An investigation of suggested physiological functions of carnitine. By A. E. BENDER and E. P. ADAMS	xxiv
Some effects on hepatic lipid of varying the dietary carbohydrate intake. By I. MACDONALD .. .. .	xxv

#### *One Hundred and Thirty-ninth Scientific Meeting*

The absorption of food from the gut of the fowl. By W. BOLTON .. .. .	xxv
Loss of liver glycogen after administration of protein or amino acids. By H. N. MUNRO, CATHERINE M. CLARKE and G. A. J. GOODLAD .. .. .	xxvii
Further studies of nervous-tissue degeneration resulting from 'conditioned' copper deficiency in lambs. By B. F. FELL, R. B. WILLIAMS and C. F. MILLS .. .. .	xxvii
The natural source of vitamin D for sheep. By J. QUARTERMAN, A. C. DALGARNO and I. McDONALD	xxviii
Fermentation of pectin by rumen bacteria. By B. H. HOWARD .. .. .	xxix
Skinfold measurements during human pregnancy. By NAN TAGGART .. .. .	xxx
The energy expenditure of sheep in walking on the level and on gradients. By J. L. CLAPPERTON	xxxii
The food intake and energy expenditure of some elderly men working in heavy and light engineering. By ELAINE C. BLAKE and J. V. G. A. DURNIN .. .. .	xxxii
