## Bill Clinton

### New Gilded Age President

Patrick J. Maney

"This is a truly remarkable book. Patrick Maney gives us a penetrating, comprehensive, and thoroughly balanced account of the Clinton presidency, along with a shrewd, insightful assessment of the character of this fascinating and often infuriating denizen of the White House. This book will stand as the gold standard of works on this man and his era."

## Congress

### Protecting Individual Rights

Louis Fisher

"Louis Fisher is not only one of the nation's pre-eminent constitutional analysts, but a foremost champion of Congress's much-maligned role in the separation of powers system. In this book, Fisher makes an argument found nowhere else—that Congress has played a unique and nearly unacknowledged role as a champion of individual rights."

### Amending the US Constitution, 1776–2015

With a new Afterword

David E. Kyvig

Winner of the Bancroft Prize and the Henry Adams Prize

In time for the 225th anniversary of the Bill of Rights, David Kyvig completed an Afterword to his landmark study of the process of amending the US Constitution. The afterword discusses the many amendments, such as those requiring a balanced federal budget or limiting the terms of members of Congress, that have been proposed since the book was originally published and why they failed of passage.

## Unlikely Environmentalists

### Congress and Clean Water, 1945–1972

Paul Charles Milazzo

"Excellent. . . . Milazzo bases his conclusions in solid research, employing an array of personal papers, government documents, congressional records, and popular publications. A good administrative history is difficult to find, but this book proves Milazzo is up to the task. It should appeal to a wide audience, not only those interested in the environment or history but also political scientists studying the operations of Congress."
